New India@75

STRATEGY FOR NEW INDIA @ 75

MODULE - 9

9

HOUSING FOR ALL

OBJECTIVES

- Provide every family with a pucca house, with a water connection, toilet facilities and 24x7 electricity supply and access.
- Build 2.95 Cr housing units in rural areas and 1.2 Cr housing units in urban areas.

9

HOUSING FOR ALL

PRESENT SCENARIO

ग्रामीण विकास मंत्रालय
भारत सरकार

MINISTRY OF RURAL DEVELOPMENT
GOVERNMENT OF INDIA

**Ministry of Housing
and Urban Affairs**
Government of India

- There is housing shortage of nearly 3 crore units in rural areas and 1.2 crore units in urban areas.
- Housing for All by 2022 triggers economic growth and creates millions of jobs for skilled as well as unskilled workforce
- With forward and backward linkages, the focus on affordable housing could bring rich dividends for other distressed sectors such as steel and cement.

9

HOUSING FOR ALL

PRESENT SCENARIO

PRADHAN MANTRI AWAS
YOJANA (GRAMIN)

- It was launched in 2016.
- The scheme provides per unit assistance of Rs.1,20,000 in plain areas and Rs.1,30,000 in Hilly Areas/Integrated Action Plan Districts/Difficult Areas.
- This is provided to homeless families or to those, who live in kutchha houses as per SECC, 2011 data.
- PMAY-G is converged with Swachh Bharat Mission (Gramin) and Mahatma Gandhi NREGA for the construction of sanitary toilets and also to provide the unskilled wage component.
- It is intended to build one crore rural houses in three years, between 2016-17 and 2018-19.

9

HOUSING FOR ALL

PRESENT SCENARIO

PRADHAN MANTRI AWAS
YOJANA (URBAN)

- It is to achieve “Housing for All” by 2022 and it has four pillars
 - In-situ slum redevelopment
 - Affordable housing through a Credit Linked Subsidy Scheme
 - Affordable housing in partnership between public and private sector
 - Subsidy for beneficiary led individual house construction or enhancement.

Against the mission target of 1.2 crore, 44 lakh houses sanctioned and 4 lakh completed by the end of March 2018.

9

HOUSING FOR ALL

CONSTRAINTS

7 Lack of skilled manpower.

6 Lack of capacity with urban-local bodies.

5 Continued rise in the number of slum dwellers.

4 Predominance of conventional construction practices and the limited use of pre-fabricated and pre-engineered materials

LACK OF ACCESS
TO FINANCE AND
DELAYS IN
APPROVALS!

1 Lack of access to finance from formal financial institutions.

2 Multi-level approvals in urban areas is delaying the process. Even single window system is being delayed.

3 Limited private sector participation and limited land available for affordable housing in urban areas.

Figure 9.1: Multi-pronged approach to resolving constraints in the 'Housing for All' scheme

9

HOUSING FOR ALL

WAY FORWARD

1

ACCESS TO FINANCE

- There is a case for sub category under priority sector lending for affordable houses.
- There is a case for raising the eligibility conditions for bank loans.
- Funds should be commensurate with Housing for All targets.
- Union Budget 2018-19 announced Affordable Housing Fund with National Housing Bank and it should ensure greater synergy among agencies, whichever are implementing various Government housing schemes.

9

HOUSING FOR ALL

WAY FORWARD

2

TECHNOLOGY FOR CONSTRUCTION

- Sixteen new emerging technologies have been identified, evaluated and promoted under PMAY(U).
- These falls under formwork, steel structural systems, precast concrete construction systems etc.
- Advantages:
 - Safe and disaster resilient
 - They are sustainable technologies
 - Cost effective
 - Environment friendly
 - Economics of scale can be ensured easily

WAY FORWARD

9

HOUSING FOR ALL

3

REDUCING COSTS

- Government should focus on life cycle cost rather than per square feet cost.
- This ensures quality of construction and reduces expenditure incurred on the maintenance of houses.
- Fiscal support should be provided to the companies that use recycled products made from waste. Such products should be standardized and adapted.
- Single window approval system should be adopted.
- The timeline for granting approvals should be specified and if approvals are not accorded within the specified time period, it should be treated as deemed approval.

9

HOUSING FOR ALL

4

EFFICIENT USE OF LAND

WAY FORWARD

- Land lying idle with various sick / loss making PSUs of Centre / States may be used to resolve the issue of land availability for affordable housing projects.
- Department of Public Enterprises should expedite release of land parcels available with central PSUs.
- Indian cities should focus on vertical growth. So far focus was on horizontal growth.
- Provide rewards to the cities that relax their Floor Space Index Norms.
- Provide additional Central Government funding to cities that undertake FSI Reforms under the Smart Cities Mission.
- Remove the need to obtain permission for non-agricultural use in the case of land that has been earmarked for residential purposes in master plans.
