HISTORY

PRE - HISTORY

- Writing was not known. Hence, no written record.
- Only archeological evidences.
 - ✓ Stone Age
 - ✓ Metal Age

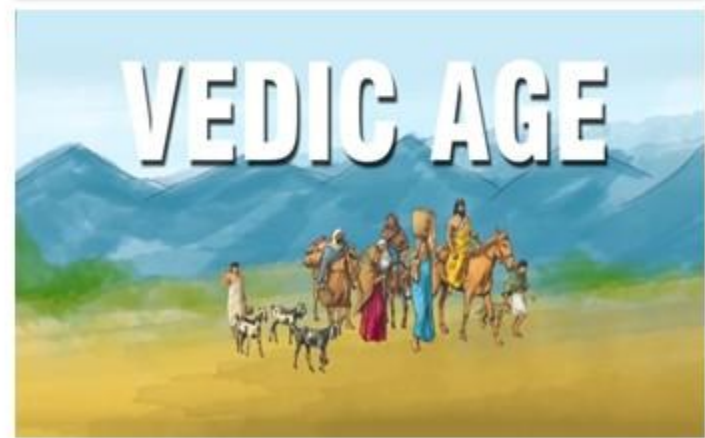

PROTO - HISTORY

- Writing was known, but not deciphered.
- Classic example is **Indus Valley Civilization (IVC)**,
- This is also called as Bronze age.

HISTORIC PERIOD

- Writing was known, and deciphered.
- This age begins from Aryan civilisation (i.e. Vedic age or Iron age) to present.

OUR APPROACH TO FIND HISTORY FROM MYSTERY?

PRE - HISTORY

The period of time before written records.

SKULLS

HOW DO WE COME TO KNOW ABOUT DATE OF ARCHEOLOGICAL SOURCES?

The dating of the prehistoric period is done scientifically. Two techniques are widely used.

1 Radio-carbon dating:

- It is based on measuring the loss of carbon in organic materials over a period of time.

Radiocarbon dating

- Carbon-14 exists naturally in the atmosphere at a fairly constant ratio to C-12

CO₂ absorbed while living (including some C-14)

As C-14 decays, it's replaced by C-14 absorbed from atmosphere

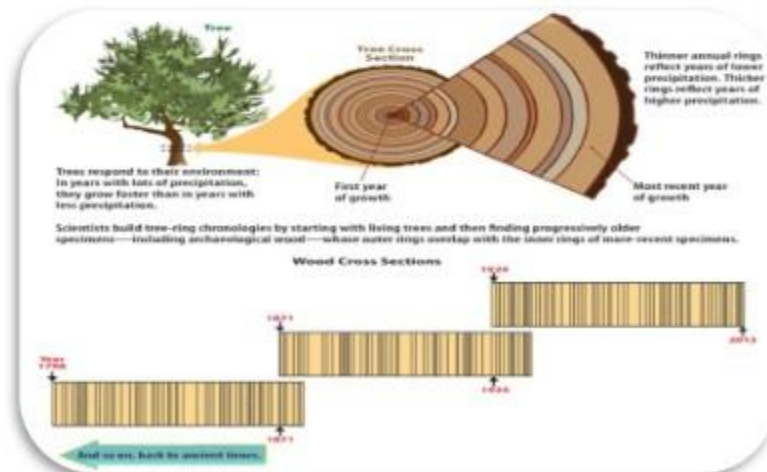

Tree dies – no more CO₂ absorbed to replace decaying C-14

Age of fossil determines by comparing C-14/C-12 ratio in fossil to atmospheric ratio

2 Dendro-chronology:

- It refers to the number of tree rings in wood.
- By counting the number of tree rings in the wood, the date of the wood is arrived.

STONE AGE

LIFE IN STONE AGE

PRE - HISTORY

STONE AGE

Stone age is a age where stone was most widely used for **tools and weapons**.
Based on the type of tool used, stone age is broadly divided into 3 periods.

PALEOLITHIC (OLD STONE AGE)

Hunting - Gathering using primitive tools which were large in size.

MESOLITHIC (MIDDLE STONE AGE)

Hunting – Gathering using tiny tools (micro-liths), bow-arrow.

NEOLITHIC (NEW STONE AGE)

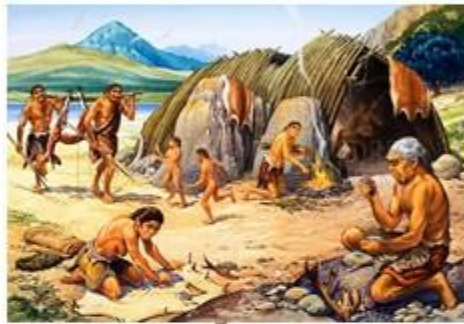

Stage of food production, i.e. cultivation and animal husbandry.

SITES

PALAEOLITHIC AGE OR OLD STONE AGE

(5,00,000 YEARS TILL 10,000 BC)

SOCIAL LIFE

- 1 Palaeolithic age is the **longest** of all the ages.
- 2 It is **very primitive stage** of human life and begins with the first appearance of humans.
- 3 Primitive men were **nomads and wandered** from place to place in search of food or following their prey as they **did not know how to produce the food**.

DO YOU KNOW?

Term Paleolithic was coined by archaeologist John Lubbock

PALAEOLITHIC AGE OR OLD STONE AGE

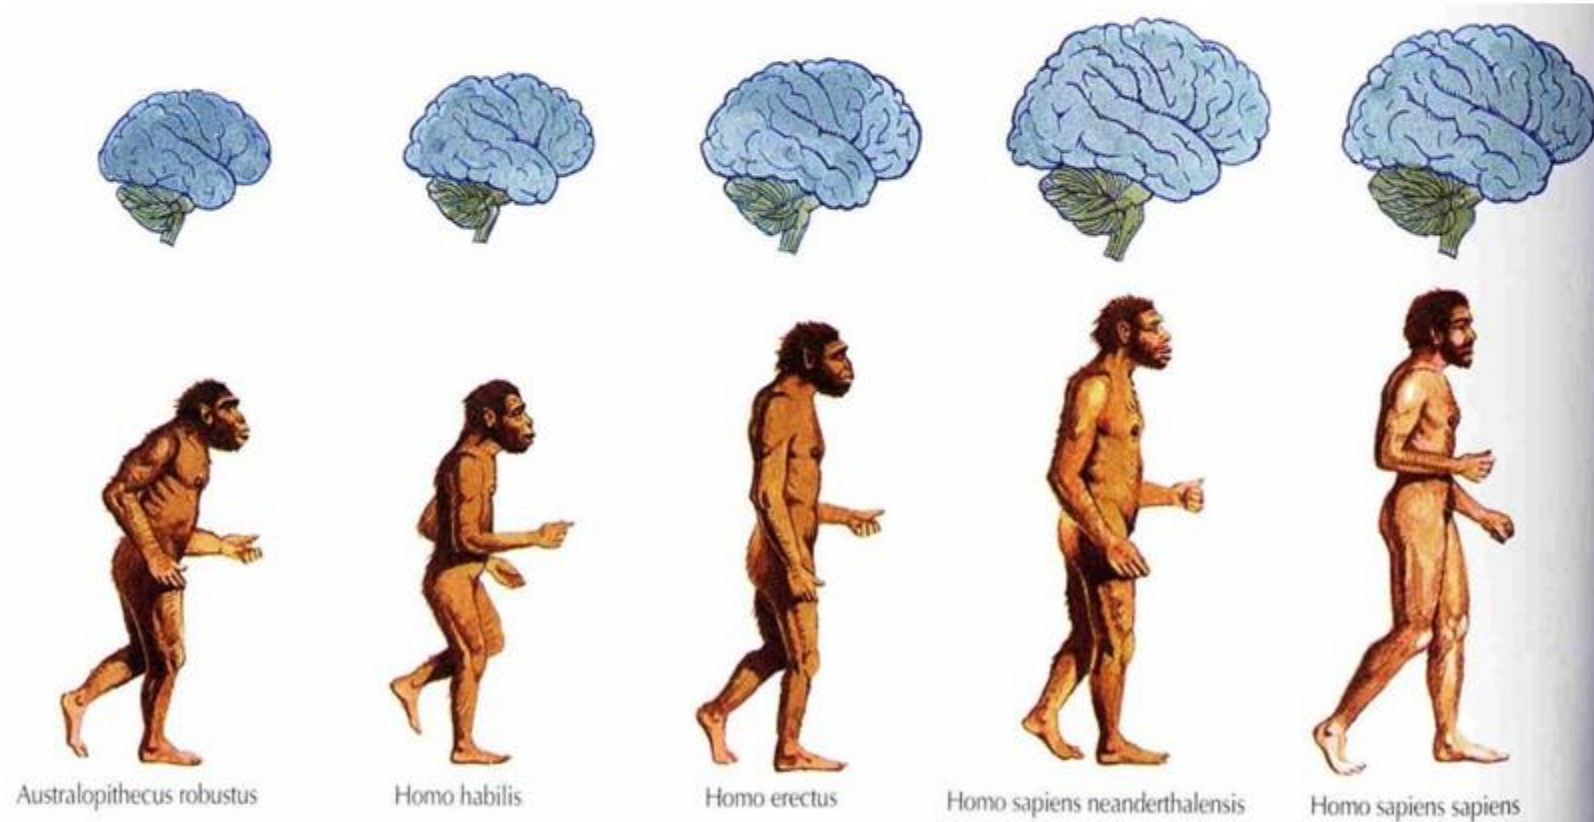

(5,00,000 YEARS TILL 10,000 BC)

SOCIAL LIFE

*Fun
fact*

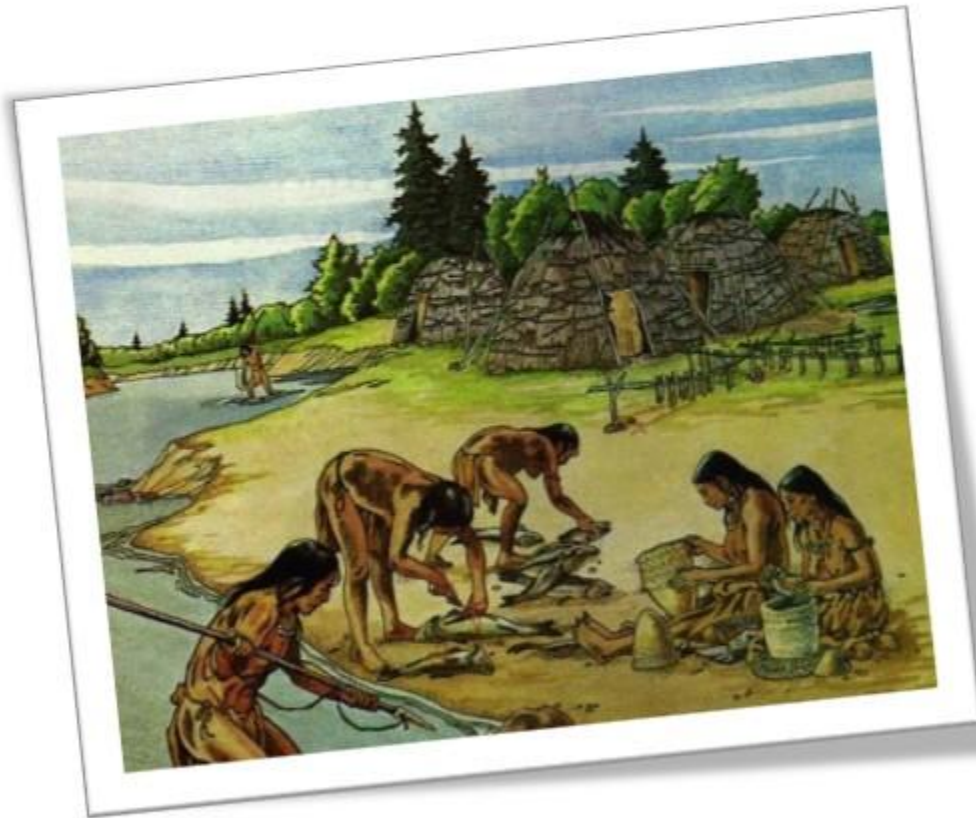

Primitive people were - Shorter in height and had smaller brain.

PALAEOLITHIC AGE OR OLD STONE AGE

(5,00,000 YEARS, TILL 10,000 BC)

SOCIAL LIFE

4

Human survived by

- **Hunting** wild animals and birds,
 - **Fishing**,
 - **Food gathering** like fruits, nuts, roots.
- Hence, he is called as '**Hunter-gatherer**'

5

Division of labour:-

- Men were involved in hunting of animals.
- Women and children were given less risky works like gathering of food, caregiving etc.

PALAEOLITHIC AGE OR OLD STONE AGE

(5,00,000 YEARS, TILL 10,000 BC)

Combined effort to kill a large animal

SOCIAL LIFE

- 6** Human realized the advantage of **living in groups** as it enabled them
1. **To hunt** large animals which required combined effort.
 2. **To share food** which was scarce and decayed easily.
 3. **Source of security** against natural threat.

- 7**
- Society was **egalitarian** i.e. social inequalities were absent.
 - People were living in group **without any family ties**.

PALAEOLITHIC AGE OR OLD STONE AGE

(5,00,000 YEARS, TILL 10,000 BC)

SOCIAL LIFE

8 We have **little knowledge** about their language and communication.

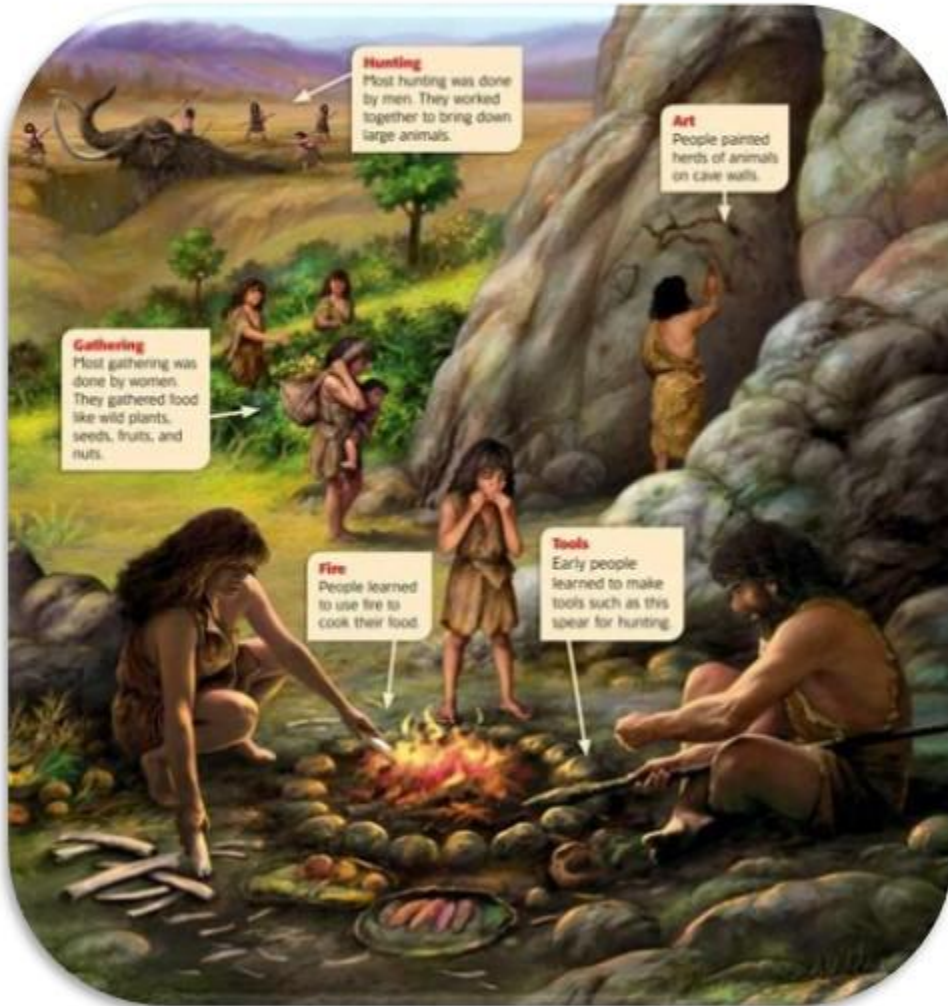

9 We come to know about their **pastime activities** like art or painting from archaeological sources.

10 Few paintings have been found on rocks and caves at **Bhimbetka** (Madhya Pradesh) and other places in India.

PALAEOLOGIC AGE OR OLD STONE AGE

(5,00,000 YEARS, TILL 10,000 BC)

SOCIAL LIFE

11

- Paints are made by mixing of charcoal, earth, animal fat and water.
- Rocks are ground up and mixed with fat and the paste was applied with fingers.

12

It was only in later stages that they attained the **knowledge of fire**. This is evident from the presence of ash at Palaeolithic sites.

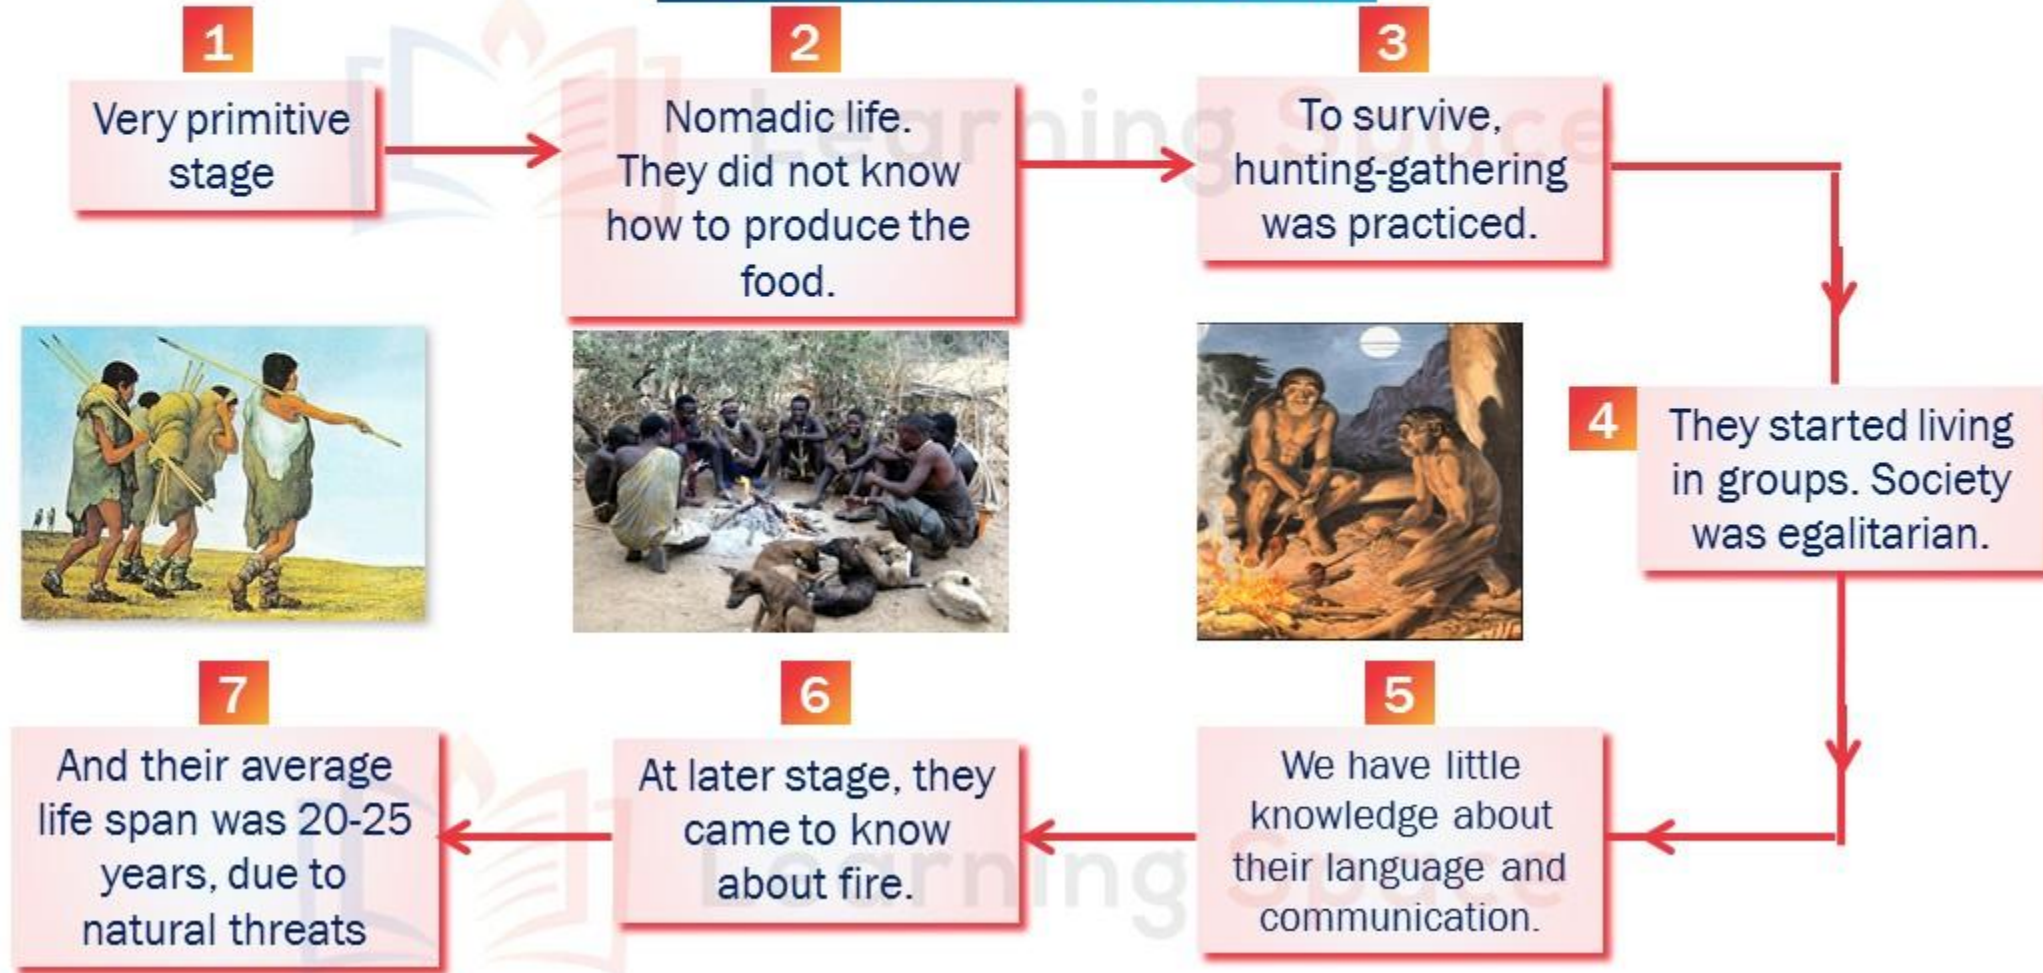

13

Average life span was less i.e. 20 to 25 years as they were more vulnerable to natural threats.

PALAEOLOGIC AGE OR OLD STONE AGE

(5,00,000 YEARS, TILL 10,000 BC)

SOCIAL LIFE- IN SHORT

PALAEOLITHIC AGE OR OLD STONE AGE

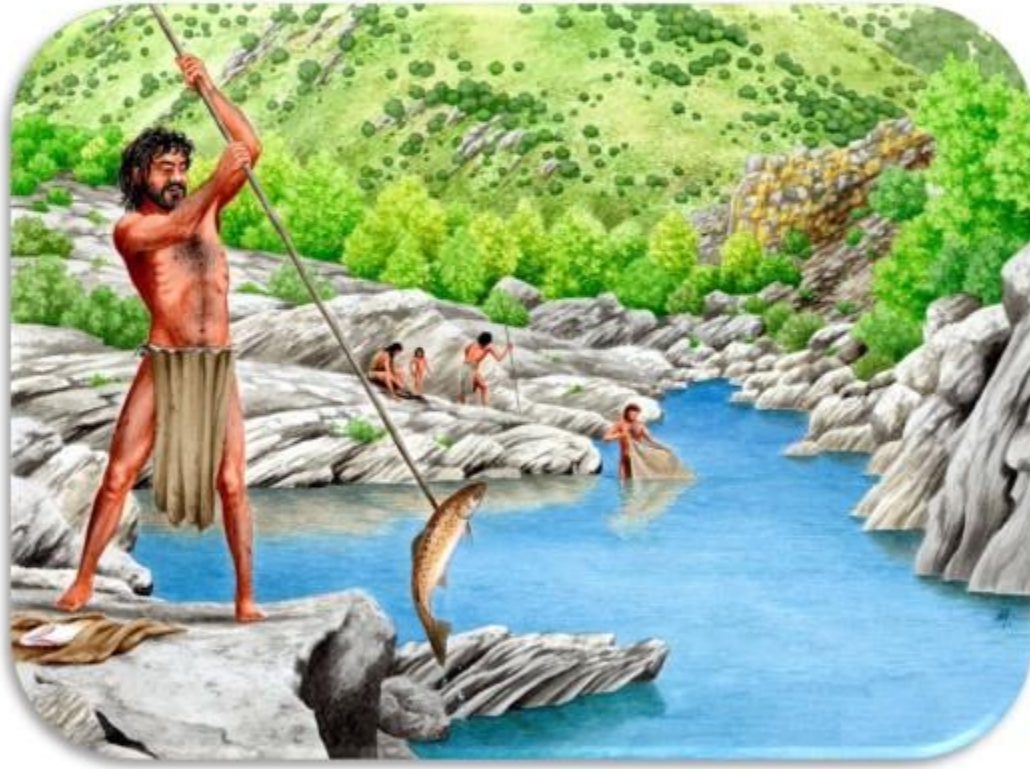

(5,00,000 YEARS, TILL 10,000 BC)

ECONOMIC LIFE

1

Pastoralists:- Pastoralists are people who rear animals, and move from place to place in search of green pastures

- Hunter-gatherer
- Hunting and fishing.
- Nomadic herders

PALAEOLITHIC AGE OR OLD STONE AGE

(5,00,000 YEARS, TILL 10,000 BC)

ECONOMIC LIFE

*Humans began
domesticating animals*

2

Primary Economy:

- People had no knowledge of cultivation but grow some wild plants.
- Attempts were made to domesticate animals. Evidences of domestication of dogs were found but not for meat purpose but for assisting in hunting.

3

Secondary Economy:

- People had no much knowledge of house building, pottery or casting of any metal.
- However, attempts have been made to make crude pots or primitive artifacts.

PALAEOLITHIC AGE OR OLD STONE AGE

(5,00,000 YEARS, TILL 10,000 BC)

TOOLS

CRUDE STONE TOOL

LARGE PEBBLES

- 1 Use of stone tools distinguish homos from ancestral apes.
- 2 They used crude stone tools, hand-sized and large pebbles for hunting. The tools were not very sharp.
- 3 Used tools which are generally unpolished and undressed rough stones.

CHOPPING TOOL

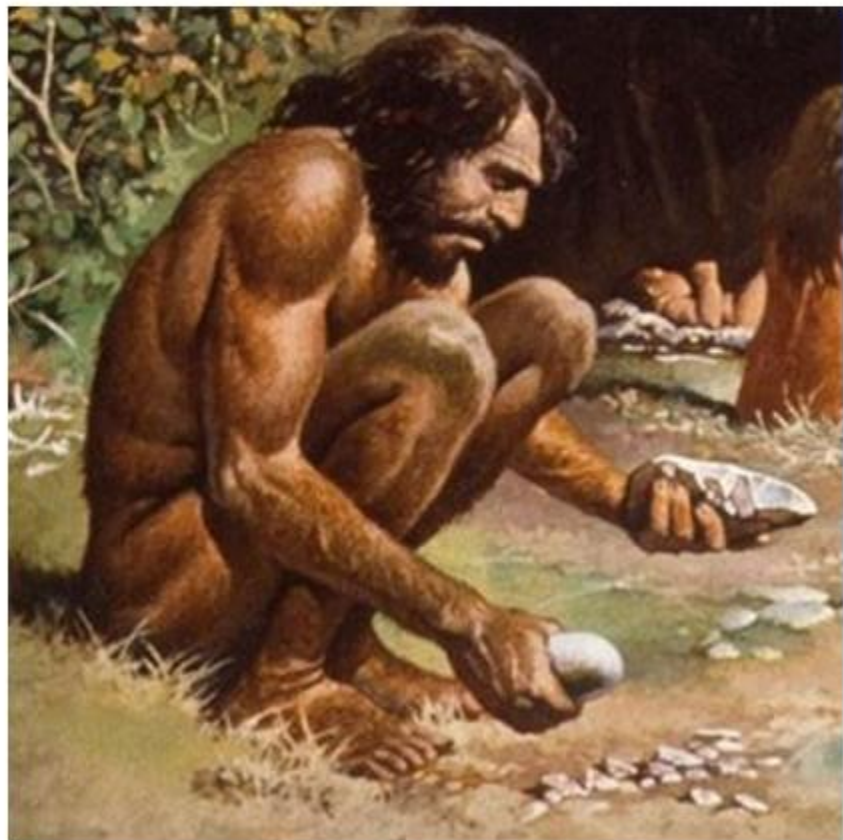

CLEAVER

PALAEOLOGIC AGE OR OLD STONE AGE

(5,00,000 YEARS, TILL 10,000 BC)

TOOLS

Quartzite Man

4

Chipped stone tools and chopped pebbles were used for:-

- hunting,
- cutting, skinning of dead animals,
- splitting bones and other purposes.

5

Stone implements are made of a hard rock known as **quartzite**. Due to the use of quartzite in tool making, the early man is also known as “**Quartzite man**”.

PALAEOLITHIC AGE OR OLD STONE AGE

(5,00,000 YEARS, TILL 10,000 BC)

TOOLS

INTERESTING FACT

First Palaeolithic tool discovered in India — the **Pallavaram Handaxe**, by Robert Bruce Foote at pallavaram ,Tamilnadu.

DO YOU
KNOW

Who is the Father of
Indian Pre-history?

ROBERT BRUCE FOOTE

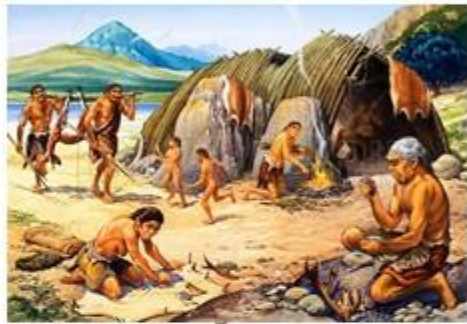

Pallavaram and Attirapakkam are sites in Tamilnadu.
