NEOLITHIC AGE

(6000 BC TO 1000 BC)

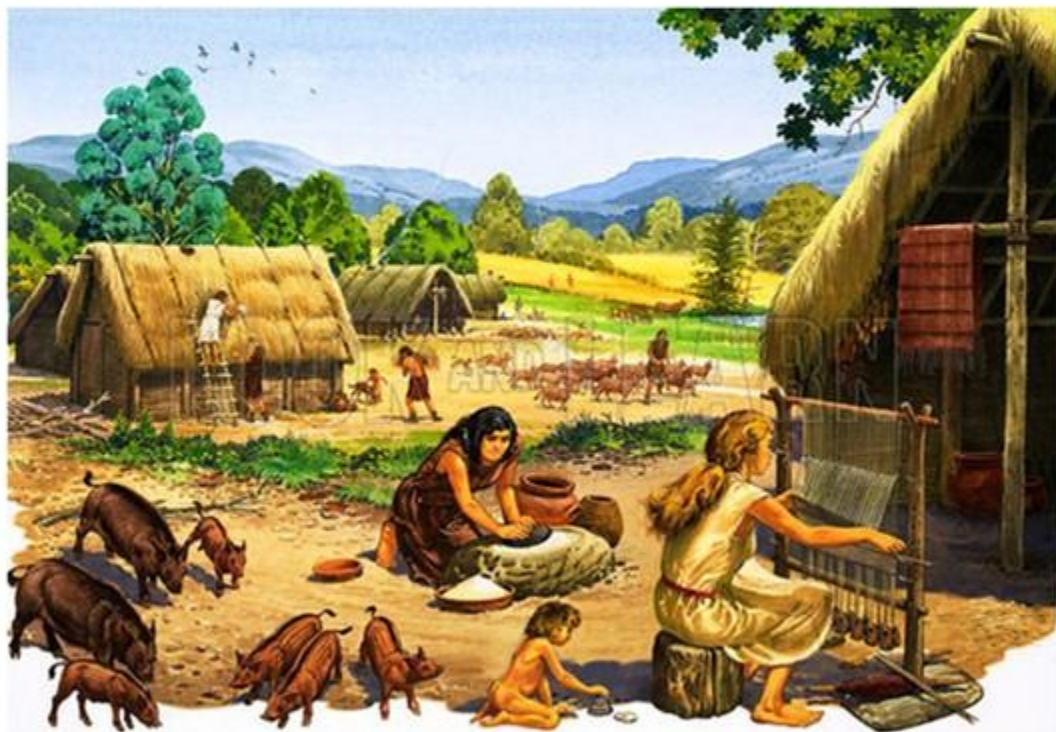

PRE- HISTORY

NEOLITHIC ERA OR NEW STONE AGE

(6000 BC TO 1000 BC)

SOCIAL LIFE

1 FOOD PRODUCTION

1 Main feature of neolithic age is man moved from **food hunting to food production**.

2 A **significant change** was observed in the culture, tools, economy and lifestyle of people at that time.

3 Man moved to **larger settlements**, **cultivated field**, **grew crops** and **began a settled life**.

The word 'Neolithic' was coined by John Lubbock in 1865.

PRE- HISTORY

NEOLITHIC ERA OR NEW STONE AGE

(6000 BC TO 1000 BC)

SOCIAL LIFE

2 DWELLING AND ART

- 1 **Mud brick** houses were built instead of grass huts.

MUD HOUSES

- 2 **Scratching** on the surface by sharp tools resulting in **geometric patterns**, has also been observed. This indicates that painting was present at that time.

PRE- HISTORY

NEOLITHIC ERA OR NEW STONE AGE

(6000 BC TO 1000 BC)

SOCIAL LIFE

3 BURIAL PRACTICES

- 1** Large **urns** were used as **coffins** for the burial of the dead.

Urn is a tall, rounded vase with a stem and base, especially one used for storing the ashes of a cremated person.

- 2**
1. Also, **pottery urns** were used to bury infants.
 2. Some **graves** were found to contain **goods** like stone axes, blades and vessel.
 3. In Kashmir, the people of Neolithic settlements used to **bury dogs with their masters**.

PRE- HISTORY

NEOLITHIC ERA OR NEW STONE AGE

(6000 BC TO 1000 BC)

ECONOMIC LIFE

1 PRIMARY ACTIVITY

Cultivation of plants and domestication of animals **led to the emergence of village communities** based on sedentary life.

Agriculture and cattle raising gave rise to a **productive economy**.

Primary Activity

There was also **improvement in agriculture**.

- Wheat, barely, **rice**, **millet** were cultivated.
- Domestication of sheep, goats and cattle was widely prevalent.
- Cattle were used for cultivation and for transport.

PRE- HISTORY

NEOLITHIC ERA OR NEW STONE AGE

(6000 BC TO 1000 BC)

ECONOMIC LIFE

2 SECONDARY ACTIVITY

Due to permanent agricultural fields there was ample food availability and thus occupation diversified.

1 1. Pottery

- Wheels were used to make pottery. Pottery was used for cooking as well as storage of food grains.
- They use **ochre-coloured pottery**.

2. Subsequently, slow wheel method emerged and earthen wares became finer and properly finished.

2 People of Neolithic Age **used clothes made of cotton and wool**. i.e. they were acquainted with **spinning and weaving**.

PRE- HISTORY

NEOLITHIC ERA OR NEW STONE AGE

(6000 BC TO 1000 BC)

TOOLS

1 DIFFERENTIATED TOOLS

LONG BLADE

ARROW HEADS

DAGGERS

KNIVES

GROOVED AXE

1 The stone tools included **knives, daggers, arrow heads, long blade, spear head, grooved axe** etc.

2 These tools were meant for **specialized economic activities**.

3 These tools were either completely or **partially polished or grinded** or both.

4 Excavations also revealed some bone objects and ornaments.

PRE- HISTORY

NEOLITHIC ERA OR NEW STONE AGE

(6000 BC TO 1000 BC)

TOOLS

2 OTHER TOOLS

NEOLITHIC ERA OR NEW STONE AGE

(6000 BC TO 1000 BC)

NEOLITHIC REVOLUTION

6

Innovations in technology

- They innovated in stone tools, such as polished, pecked, and ground stone tools.

5

Division of labour based on sex and age

- As society was progressing, there was a need for additional labour.

4

Emergence of self-sufficient village communities

- People led a more settled life.
- Lived in houses made of mud.
- Knew how to make boats and could spin cotton and wool.

IT INTRODUCED
A LOT OF
INNOVATIONS

1

Advent of food production:

- Neolithic man first time started cultivation.

2

Beginning of the new occupations

- population were freed from the task of food production and their talents and energies were diverted to tasks such as the production of pots, baskets, quarrying of stone, making of bricks, masonry and carpentry.

3

Invention of pottery (OCP)

- Neolithic era communities first made pottery by hand and then with the help of the potter's wheel.

PRE- HISTORY

NEOLITHIC ERA OR NEW STONE AGE

(6000 BC TO 1000 BC)

SITES

1 NORTH INDIA

1 First Neolithic site in Indian subcontinent is Mehrgarh.

2 Important sites
Koldihwa, Belan Valley, UP.
• First people in the world to grow paddy.
Chopani Mando in Belan valley, UP.
• Earliest evidence of use of pottery.

In different areas at different time this period has started.

- In North-West regions of India, neolithic features were found in 7000 BC
- In south and Assam region these features found 1000 BC.

PRE- HISTORY

NEOLITHIC ERA OR NEW STONE AGE

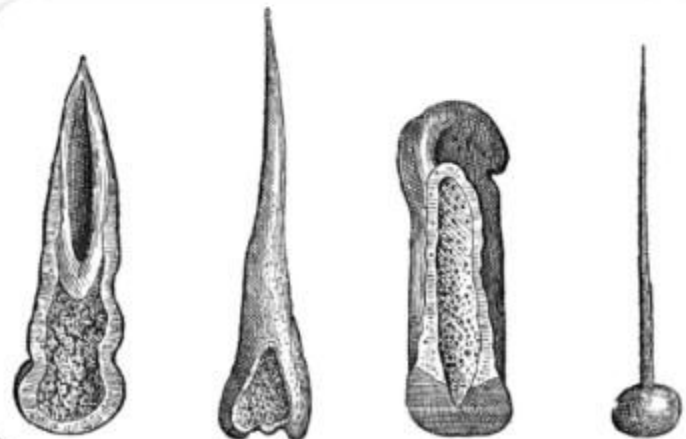

(6000 BC TO 1000 BC)

SITES

1 NORTH INDIA

IAS Preparation Centre

3

Burzahom, Kashmir.

- These people constructed houses in the earth called **pit-dwelling**.
- Peculiar burial system where a person was **buried with a dog or wolf**, possibly domesticated by the person in his life.

4

Gufkral, Kashmir.

- Pit-dwelling was found.
- complete **absence of pottery**.
- Copper hair pin was found.

5

Chirand , Bihar

- Apart from stone tools large number of bone tools was excavated here.

PRE- HISTORY

NEOLITHIC AGE

(6000 BC TO 1000 BC)

IMPORTANT FACTS ABOUT MEHRGARH

MEHARGARH is on the Bolan River, a tributary of the Indus.

Mehrgarh was discovered after discovery of Indus Valley Civilization but it is seen as a precursor to the Indus Valley Civilization.

PRE- HISTORY

NEOLITHIC ERA OR NEW STONE AGE

(6000 BC TO 1000 BC)

IMPORTANT FACTS ABOUT MEHRGARH

ECONOMY

1 PRIMARY SECTOR

Mehrgarh is supposed to be the oldest agricultural settlement in the Indian subcontinent

First in world to grow cotton.

Cultivated plants like wheat and barley.

Main domesticated animals were cattle, sheep, goat and water buffalo.

PRE- HISTORY

NEOLITHIC ERA OR NEW STONE AGE

(6000 BC TO 1000 BC)

IMPORTANT FACTS ABOUT MEHRGARH ECONOMY

2 SECONDARY SECTOR

1

- Learnt use of **making stone beads**, copper smelting, timber, terracotta, commercial transactions.
- Used **ornaments of steatite**, turquoise, sea shells etc.

2

- First time people of Mehrgarh **used wheels to make pottery**.
- It was used for cooking as well as storage of food grains.
- **Pottery was decorated with images of birds, animals.**

PRE- HISTORY

NEOLITHIC ERA OR NEW STONE AGE

(6000 BC TO 1000 BC)

IMPORTANT FACTS ABOUT MEHRGARH

OTHER FACTS

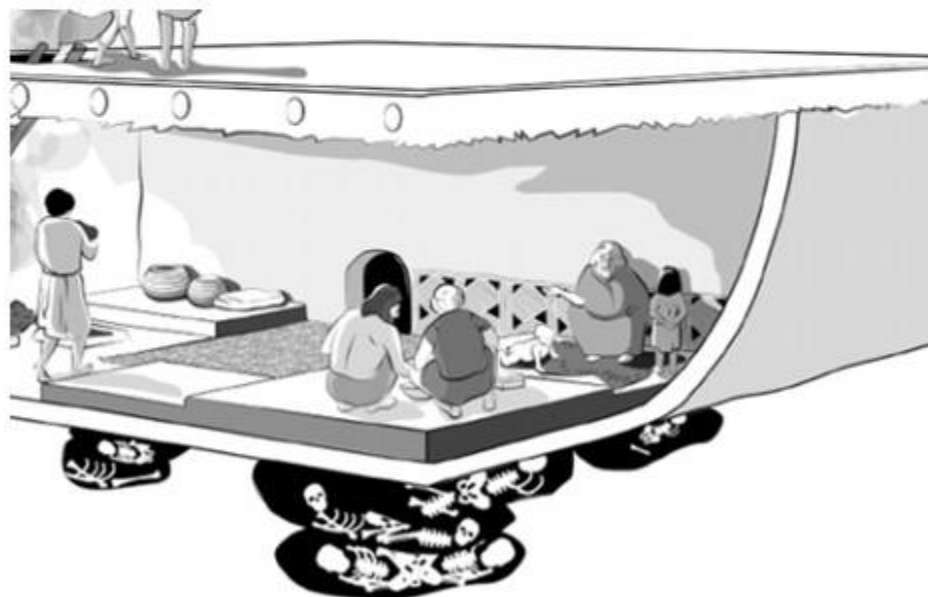

1

- Houses made in mud and mud-bricks,
- Created rooms to store grains.

2

- Dead were buried under the floors of houses where they lived.

PRE- HISTORY

NEOLITHIC ERA OR NEW STONE AGE

(6000 BC TO 1000 BC)

IMPORTANT FACTS ABOUT MEHRGARH

OTHER FACTS

- 3 The first evidence in human history for the **drilling of teeth** in a living person was found in Mehrgarh.

This culture flourished from 6000BC to 1000BC and showed improvisation in almost every area of life.

PRE- HISTORY

NEOLITHIC ERA OR NEW STONE AGE

(6000 BC TO 1000 BC)

SITES

2 SOUTH INDIA

1

Neolithic sites excavated in south India are

1. Maski, Brahmagiri, Hallur and Kodekal in Karnataka,
2. Paiyampalli in Tamil Nadu and
3. Utnur in Telangana.

2

- Most interesting features of these settlements is the presence of “Ash Mounds” close to the habitation sites indicating domestication of animals.
- Ash mounds are heaps of ash produced by burning of cow dung.

3

- There have been evidences of Lapidary Art in the south. Lapidary art involves cutting and polishing gems.

DIFFERENCE BETWEEN PERIODS OF STONE AGE

FEATURES	PALEOLITHIC PERIOD	MESOLITHIC PERIOD	NEOLITHIC PERIOD
PERIOD	5,00,000 BCE to 10,000 BCE	10,000 BCE to 6,000 BCE	6,000 BCE to 1,000 BCE
TOOLS	Use of hand axes, choppers, and cleavers , flake tools, flint tool, bore tool.	Use of Microliths, bow and arrow , shaped blades(trapeze, crescent)	Long blade, arrow heads, grooved axe, daggers.
NATURE OF TOOL	Very primitive	Relatively advanced, tools are thinner, sharper, smaller.	Advanced and specialized used for specific purpose.
ART	Earliest rock art	Lover of art	Diversified activities like painting, pottery
OCCUPATION	Nomadism, hunter-gatherers	Sedentary lifestyle but hunting and gathering was still predominant	Cultivation, domestication
