THE NEW WORLD ORDER

BACKGROUND

- 1 The Year 1945 is a landmark in the history of modern world.
- 2 It marked the end of multi-polar world and balance of power.
- 3 The World saw the emergence of bi-polar world and the rise of Super Powers, the U.S.A and the U.S.S.R.
- 4 In the 1990s the collapse of Soviet Union once again changed the existing world order.
- 5 The New World Order is witnessing a Uni-polar world, Globalisation, new technologies, age of information and also global terrorism.

ROLE OF MIKHAIL GORBACHEV

- 1** He became the President of the Soviet Union in March 1985. He instituted a number of political reforms under the name of “glasnost”.
- 2** However, Gorbachev’s relaxation of censorship and attempts to create more political openness had the unintended effect of re-awakening long suppressed nationalist and anti-Russian feelings in the Soviet Union’s constituent republics.
- 3** Domestically, Gorbachev implemented economic reforms that he hoped would improve living standards and worker productivity as part of his Perestroika program.
- 4** This new Economic Policy permitted private ownership.
- 5** All these reforms led to revolutionary changes in the U.S.S.R.

ROLE OF MIKHAIL GORBACHEV

6 On 8th December 1991, the leaders of the Russian, Ukrainian, and Byelorussian republics issued a declaration that the Soviet Union was dissolved and replaced by the Commonwealth of Independent States (CIS).

7 Gorbachev became president without a country.

8 On 25th December 1991, he resigned as president of the U.S.S.R. and returned the powers of his office over to Boris Yeltsin.

9 The next day, the Supreme Soviet voted to dissolve itself and repealed the declaration written in 1922 that had officially established the U.S.S.R. Thus, the collapse of the Soviet Union took place.

GERMAN REUNIFICATION

- 1 After the Second World War, Germany was divided into two separate nations.
- 2 East Germany was fully under the control of the U.S.S.R.
- 3 West Germany was supported by the U.S.A. and her allies.
- 4 A wall was erected across Berlin to separate these two German territories.
- 5 It was the famous **Berlin Wall**.
- 6 But with the collapse of USSR, the German reunification took place on October 3, 1990.
- 7 The areas of the former German Democratic Republic (East Germany) were incorporated into the Federal Republic of Germany [FRG] (West Germany).
- 8 After the GDR's first free elections on 18th March 1990, negotiations between the GDR and FRG culminated in a Unification Treaty.

NUCLEAR DISARMAMENT

- 1** In the history of warfare, nuclear weapons have been used only twice on 6th and 9th of August 1945, when the United States dropped atom bombs on the Japanese cities of Hiroshima and Nagasaki.
- 2** Since then, nuclear weapons have been detonated on over two thousand occasions for testing and demonstration purposes.
- 3** The countries known to have detonated such weapons are the United States, Soviet Union, United Kingdom, France, People's Republic of China, India, Pakistan, and North Korea.

NUCLEAR DISARMAMENT

NON-PROLIFERATION THEORY

- 1 In order to minimize the risk of future nuclear war the Non- Proliferation Treaty (NPT) was proposed.
- 2 The NPT is the most extensive inspection and control system ever devised to prevent the diversion of nuclear material form civilian nuclear programmes for weapon purposes.

NUCLEAR WEAPON FREE ZONE

- 1 The idea of Nuclear Weapon Free Zone (NWFZ) was mooted to convince the countries refusing to join NPT club.
- 2 The concept of nuclear weapon free zone means that countries without nuclear weapons should agree not to produce nuclear weapons and declare their region free from nuclear weapons.
- 3 It was followed by the Comprehensive Test Ban Treaty (CTBT) to tighten the control over nuclear weapons programme.

1 Globalisation has become an important issue in the national and international economic field.

2 Globalisation has assumed great importance in the recent changes in global business environment.

3 Now business has global-orientation and the whole world has become just like a global village.

4 Globalisation implies integration of economy of one nation with the rest of the world economy and liberalising the rules and regulations for foreign investment in economy.

5 Broadly speaking the term Globalisation means integration of economies and societies through cross-country flows of information, ideas, technologies, goods, services, capital, finance and people. Cross border integration can have several dimensions- cultural, social, political and economic.

- 3** It finally succeeded in creating the **General Agreement on Tariffs and Trade (GATT)**. Seven rounds of negotiations occurred under the GATT.
- 4** The **eighth round** - known as the **Uruguay Round** — which began in 1986 and concluded in 1995 established the WTO.

WORLD TRADE ORGANIZATION (WTO)

- 6** The World Trade Organization sets the rules for the global trading system and resolves disputes between its member states.
- 7** The WTO headquarter is located in Geneva, Switzerland.
- 8** The General Council of the WTO is highest decision-making body. This meets regularly to carry out the functions of the WTO.
- 9** One of the criticisms against the WTO is that it favours rich countries and multinational corporations which affect the smaller states.

- 10** Another criticism is the introduction of Trade-Related Aspects of the Intellectual Property Rights [TRIPs] into the WTO rules and regulations.
