

WORLD HISTORY

MODULE - 5

**GEOGRAPHICAL
DISCOVERIES -1**

WHEN DID DISCOVERIES BEGIN IN EUROPE?

Arctic Ocean

- The Geographical Discoveries in Europe began in 15th and 16th centuries. It is also known as the Age of Discovery.
- The new sea routes to the East as well as the discovery of new continents like the America radically transformed the course of history.
- The adventurous spirit of the sailors like Bartholomew Diaz, Christopher Columbus and Ferdinand Magellan ultimately led to these historic discoveries.

WHAT ARE THE FACTORS THAT LED TO GEOGRAPHICAL DISCOVERIES?

CONQUEST OF CONSTANTINOPLE

- In 1453, the Ottoman Turks captured Constantinople, the important trade route to the East.
- Thus, the Turks began to control the European trade with the East. They imposed heavy duties on the goods.
- On the other hand, the Arab traders continued their trade through the Coasts of India and got huge profits in spice trade.
- Therefore, the Europeans were forced to find an alternative route to the East.

WHAT ARE THE FACTORS THAT LED TO GEOGRAPHICAL DISCOVERIES?

RENAISSANCE AND SCIENTIFIC APPROACH

- The Renaissance spirit and the consequent scientific discoveries were also responsible for geographical discoveries.
- The art of ship-building developed along with the invention of Mariner's Compass.
- The astronomical and other scientific discoveries raised the hope of the adventurers to explore new sea routes.

WHAT ARE THE FACTORS THAT LED TO GEOGRAPHICAL DISCOVERIES?

TRAVEL ACCOUNTS

- The travel accounts of Marco Polo and Nicolo Polo about China and India kindled great enthusiasm among the Europeans about the fabulous wealth of the Eastern countries.
- A “Merchants Handbook” described all known trade routes between Europe and the Far East.
- The “Secrets of the Faithful Crusader” told about Asiatic cities.

WHAT ARE THE FACTORS THAT LED TO GEOGRAPHICAL DISCOVERIES?

OTHER FACTORS

- Other factors that had also stimulated the explorers venturing into the seas include:
 - ✓ Spirit of adventure
 - ✓ Desire for new lands
 - ✓ Competition for exploration between European nations

WHICH COUNTRIES BEGAN WITH THE EXPEDITIONS?

PORTUGAL

HENRY THE NAVIGATOR

- The first great wave of expeditions was launched by Portugal.
- Its ruler was Henry (1394-1460) generally known as “the Navigator”.
- As a result of his efforts, the Madeira and Azores Islands were discovered.
- The main project of Henry the Navigator was the exploration of the West Coast of Africa.
- His sailors discovered the Cape Verde Islands. Although Henry died in 1460, his zeal provided stimulus to the Portuguese for further explorations.

WHICH COUNTRIES BEGAN WITH THE EXPEDITIONS?

PORTUGAL

BARTHOLOMEW DIAZ

- In 1487 Bartholomew Diaz reached the southern tip of Africa and called it “the Cape of Storms” due to a terrible storm he experienced there.
- Later it was renamed as “the Cape of Good Hope” because it provided hope that access to the Indian Ocean was possible.

VASCO DA GAMA

- Vasco da Gama successfully used this route and reached India in 1498.
- Vasco da Gama's discovery of a new sea-route to India was a most significant event in the history of Europe and Asia.

WHICH COUNTRIES BEGAN WITH THE EXPEDITIONS?

SPAIN

CHRISTOPHER COLUMBUS

- Christopher Columbus, a Genoese sailor, planned to discover a new sea route to the East by traveling westwards.
- After securing monetary assistance from King Ferdinand and Queen Isabella of Spain, he set sail on August 3, 1492 across the Atlantic.
- After a long and difficult voyage he reached an island of the Bahamas on Oct 12, 1492. He thought that he had reached the shores of India. Therefore, he called the natives of that island Indians.
- He made three more voyages and explored the islands in the Caribbean Sea and Central America. These islands are even today called as the West Indies.

WHICH COUNTRIES BEGAN WITH THE EXPEDITIONS?

SPAIN

POPE ALEXANDER VI

- In 1493, Pope Alexander VI issued a Bull in order to prevent any dispute between Spain and Portugal in exploring new sea routes and new lands.
- It is popularly called the Papal Bull (order of Pope).
- According to it an imaginary line was drawn dividing the globe into east and west.
- Spain was given the right to possess the lands on the west and Portugal on the east of the Pope's line.

- Thus, Spain could not use sea route through the Cape of Good Hope to reach the East Indies.
- Therefore, Spain planned to reach the east by sailing westwards.

WHICH COUNTRIES BEGAN WITH THE EXPEDITIONS?

SPAIN

AMERIGO VESPUCCI

- In 1501, Amerigo Vespucci, an Italian navigator, with the support of the king of Spain explored the areas of South America.
- He came to the conclusion that what Columbus discovered was not India but a “New World”. Therefore the new continent was named as America. However, Columbus is considered as the discoverer of America.

WHICH COUNTRIES BEGAN WITH THE EXPEDITIONS?

SPAIN

FERDINAND MAGELLAN

- On August 10, 1519, Ferdinand Magellan had sailed with five Spanish ships – namely, Trinidad, San Antonio, Concepcion, Victoria, and Santiago-from the port of Sevilla.
- The fleet of Magellan crossed an arduous 373-mile long passage on the southern end of South America.
- This strait is now named the Strait of Magellan.
- Then he entered an ocean which was calmer than the Atlantic. Therefore, he named it the Pacific Ocean.
- While crossing the Pacific, the sailors suffered for want of food and drinking-water. At last, on March 6, 1521, they reached the Philippines, where Magellan was killed by the natives.
- The survivors with the only remaining ship, the Victoria arrived at Sevilla through the Cape of Good Hope on September 9, 1522.
- It was the first voyage undertaken round the world.

WHICH COUNTRIES BEGAN WITH THE EXPEDITIONS?

ENGLAND

JOHN CABOT

- In 1497, John Cabot was sent by Henry VII of England to explore the seas.
- He discovered the Newfoundland.
- In his next expedition, he reached North America and explored it.
- But he was not able to find any people there and returned to England disappointed.
- However, this voyage resulted in the claim of England to the mainland of North America.

WHICH COUNTRIES BEGAN WITH THE EXPEDITIONS?

FRANCE

JACQUES CARTIER

- In 1534, Jacques Cartier from France went to the North America and explored the region.
- He found the Red Indian settlements and named that region as Canada.
