MODULE - 15

1

HIGHS AND LOWS

1

Has India's first and only Tri-services theatre command. (Chief of Defence Staff (CDS) is in charge).

2

Baratang (locally known as "jalki") in Andaman is the only place in India with mud volcanoes.

3

Restricted Area Permit was relaxed in 2018. But, separate approvals of competent authority is required as it is protected under the Andaman Protection of Aboriginal Tribes Act and Forest Act.

4

Trak Island: Brahmos missiles often tested in this island.

5

North Sentinel Island: Home to one of the most isolated human populations in the world.

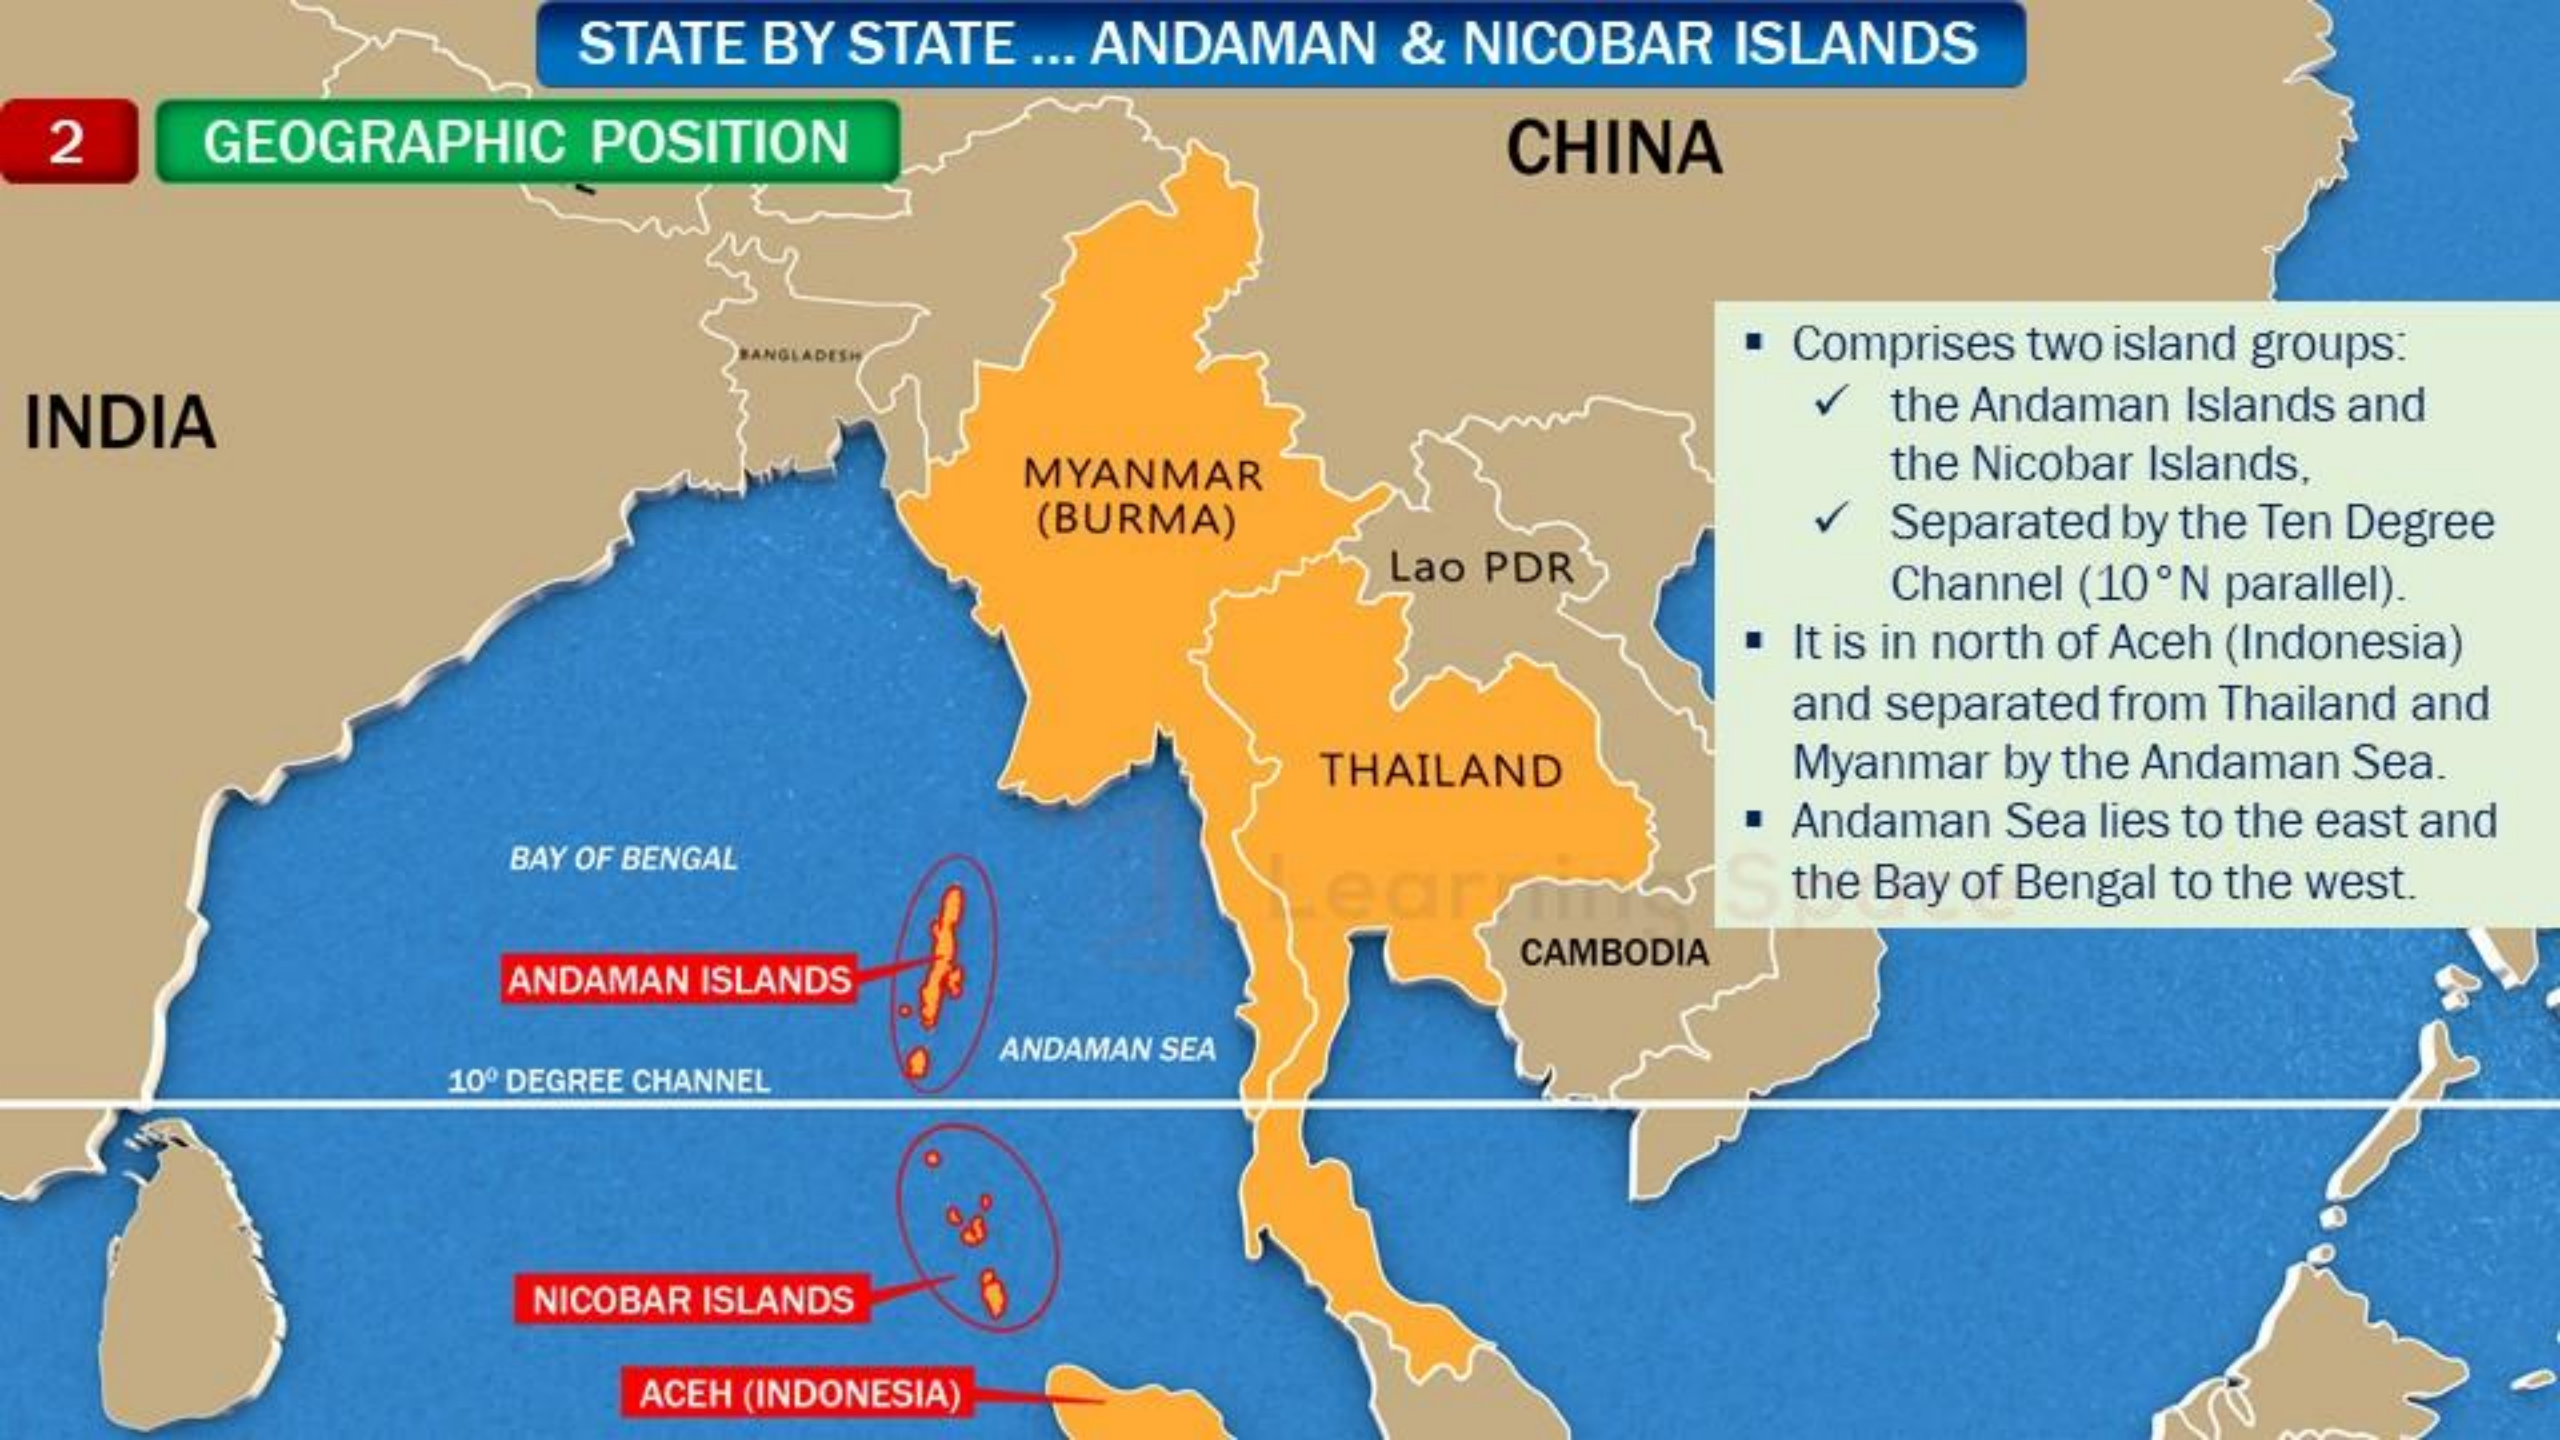

6

India's best nesting beaches for three species of marine turtles – Hawksbill Turtle (CR), Green turtle (EN) and world's largest sea turtle, the Leatherback turtle (VU).

NICOBAR ISLANDS

ACEH (INDONESIA)

- Comprises two island groups:
 - ✓ the Andaman Islands and the Nicobar Islands,
 - ✓ Separated by the Ten Degree Channel (10° N parallel).
- It is in north of Aceh (Indonesia) and separated from Thailand and Myanmar by the Andaman Sea.
- Andaman Sea lies to the east and the Bay of Bengal to the west.

STATE BY STATE ... ANDAMAN & NICOBAR ISLANDS

3 ADMINISTRATIVE REGIONS

STATE BY STATE ... ANDAMAN & NICOBAR ISLANDS

4

MAIN ISLANDS

- Landfall Islands: Northern most point.
- Indira Point: Southern-most tip of India and Southern point of Great Nicobar Islands.
- Southern-most island is Great Nicobar.

- Main islands under the Andaman and Nicobar Islands group:
 - ✓ North Andaman
 - ✓ Middle Andaman
 - ✓ South Andaman
 - ✓ Little Andaman
 - ✓ Car Nicobar
 - ✓ Little Nicobar
 - ✓ Great Nicobar

RENAMED ISLANDS

In 2018, these islands renamed as a tribute to Subhas Chandra Bose:

- ✓ Ross Island was renamed as Netaji Subhash Chandra Bose Island;
- ✓ Neil Island as Shaheed Island; and
- ✓ Havelock Island as Swaraj Island.

- Havelock Island: Known for Coral Reefs
- Neil Island: Known for timbering operations.
- Ross Island: No civilian settlement is allowed by the authorities.

8

RELIEF FEATURES

- Part of the submarine tertiary fold mountains which are protruding out of the sea.
- Andaman Islands - extension of the submerged Arakan Yoma Tertiary Mountain range of Myanmar
- Main rocks of these islands are sandstone, limestone and shale.

STATE BY STATE ... ANDAMAN & NICOBAR ISLANDS

8

RELIEF FEATURES

Topography of the Andaman and Nicobar Islands -

- ✓ hilly and undulating;
- ✓ all large islands in the Andamans, Little Andaman, Little Nicobar and Great Nicobar Islands, is mostly interlaced with perennial and seasonal freshwater streams and in some areas a matrix of mangrove creeks extending into marshes.

Two principal groups of islets include the Ritchie's archipelago and the Labrynth island

*Kalpong Dam: Largest dam.
Built across Kalpong river.
Only hydro-electric project.*

STATE BY STATE ... ANDAMAN & NICOBAR ISLANDS

10

RAINFALL

Climate: Has tropical marine climate influenced by the seasonal flow of monsoon winds.

Rainfall: Mainly brought by the southwest monsoon, which blows from May through September, and by the tropical cyclones that follow in October and November. Receive convectional rainfall and have an equatorial type of vegetation.

Arabian Sea

Region is under dense tropical rain forests. Coastal regions have mangrove forest and coral deposits.

SOUTHWEST MONSOON

STATE BY STATE ... ANDAMAN & NICOBAR ISLANDS

11

MAJOR CROPS

- Paddy is the main food crop. Mostly cultivated in Andaman group of islands.
- Coconut and Areca nut are the cash crops of Nicobar group of islands.
- Fisheries and Piggery are also followed.

ANDAMAN SEA

WLS - WILDLIFE SANCTUARY

LITTLE NICOBAR WLS

- Cuthbert Bay WLS: Nesting ground for Olive Ridley turtles, Leather-back turtles and the Green Sea turtle.

- Included in the list of Man and Biosphere program of UNESCO to promote sustainable development based on local community effort and sound science.
- Part of World Network of Biosphere Reserves.
- Incorporates two National parks:
 - ✓ the larger Campbell Bay National Park on the northern part of the island, and
 - ✓ Galathea National Park in the southern interior.

NICOBARI DANCE

- Practiced by the Nicobari tribe, who live in the Car Nicobar Island.
- Performed during the Ossuary Feast.
- More commonly known as the Pig Festival.
- Way of showing one's respect to the departed head of the family.
- Generally performed during the full moon, under the swinging palm trees.

ISLAND TOURISM FESTIVAL

- Annual cultural event organized for promotion of tourism and entertainment for islanders.
- Also known as Dweep Mahotsav.

GREAT NICOBAR

BAY OF BENGAL

ANDAMAN SEA

- Andaman Group of islands: Four Negrito tribes - Great Andamanese, Onge, Jarawa and Sentinelese;
- Nicobar Group: Home to two 'Mongoloid' tribes - Nicobarese and Shompens.

Learning Space

GREAT ANDAMANESE

- A collective term used for 10 different tribes that lived in most of the large islands in the Andaman.
- Speak different but related languages.
- Negrito origin and related by culture and geography.
- Battle between the Great Andamanese and the British regime is known as 'The Aberdeen war'.
- Only two tribes (Jeru and Bo) remain in significant number; the other 8 have been mostly extinct.
- Designated as Particularly Vulnerable Tribal Group.

ONGE

- Belong to the Negrito racial stock and they have been mainly seen near the Dugong creek in Little Andaman.
- Designated as Particularly Vulnerable Tribal Group.

JARAWAS

- Live in parts of South Andaman and Middle Andaman Islands.
- From the 1970s, the controversial Great Andaman Trunk Road was built through their western forest homeland. As result, contacts between the Jarawas and outsiders began to increase, resulting in occasional trading but also the outbreak of diseases.
- Designated as Particularly Vulnerable Tribal Group.

SENTINELESE

- Inhabit the North Sentinel island.
- Considered as one of the world's last uncontacted peoples.
- Designated as Particularly Vulnerable Tribal Group.

NICOBARESE

- Designated as a Scheduled Tribe.
- Their painted sculptures are related to the oral tradition and the myth of Nicobarese origins.
- Nicobarese are headed by a chief called "Rani" or "queen".
- Men and women have approximate equal status.

SHOMPENS

- Indigenous people of the interior of Great Nicobar Island.
- Shompens living on the western side of the island call themselves 'Kalay', and those on the eastern side 'Keyet', with both groups referring to each other as 'Buavela'.
- Designated as Particularly Vulnerable Tribal Group.

17

WILDLIFE IN NEWS

DUGONG

- State animal
- Endemic to Indo-Pacific sea coast areas, especially to Andaman Islands.
- Known popularly as sea-cow
- Convention on International Trade in Endangered Species (CITES) limits or bans the trade of derived products.
- IUCN: Vulnerable.

JENKIN'S SHREW, ANDAMAN SHREW
AND NICOBAR SHREW

- The shrew (family Soricidae) is a small mole-like mammal classified in the order Eulipotyphla.
- 3 species have been categorized as Critically Endangered —
 - ✓ Jenkins' shrew - Endemic to South Andaman Island;
 - ✓ Andaman shrew - Endemic to South Andaman Island; and
 - ✓ Nicobar shrew - Endemic to the Great Nicobar Island.

THREATS TO BUMPHEAD PARROTFISH IN ANDAMAN

- *Incidental catch by fishers and degradation of coral reef habitats are two potential threats to the species.*
- *Protection of coral cover along the existing protected marine areas in the Andaman and Nicobar islands is necessary for the conservation of the endangered Bumphead Parrotfish.*
- *Slow growth and low replacement rates have resulted in population declines across the Indo-Pacific and the Red Sea regions.*
- *Calls to ban night fishing for the species and to implement regulations regarding reef fishing.*
- *Referred to as excavators because they remove dead corals from the reef as they feed on algae and live corals.*
- *Their feeding activities expose the hard reef matrix opening up new sites for corals to colonize.*
- *IUCN Status: Vulnerable*

18

RECENT NEWS

SAGAR MAITRI MISSION - 2

- Unique initiative of DRDO which aligns with “Safety And Growth for All in the Region (SAGAR)”
- **Aim:** To promote closer co-operation in socio-economic aspects as well as greater scientific interaction especially in ocean research among Indian Ocean Rim (IOR) countries
- Also aims at establishing long term scientific collaboration with these countries in the field of ‘Ocean Research & Development’ and data collection with a focus in the Andaman Sea.

NATIONAL GRID

- Andaman & Nicobar Islands and Lakshadweep are not connected to the National Grid.
- PM Modi recently dedicated the 220 kV Srinagar-Alusteng – Drass- Kargil – Leh Transmission Line to the Nation. Now, Ladakh is connected to National Grid.
- Maintained by state-owned Power Grid Corporation.

ISLAND DEVELOPMENT AGENCY (IDA)

- IDA has taken up scientifically assessed sustainable development goals for holistic development of the Islands.
- To be implemented in 4 islands of Andaman and Nicobar and 5 islands of Lakshadweep.
- In the second phase, 12 more islands of Andaman and Nicobar Islands and 5 Islands of Lakshadweep islands are to be covered.
- Infrastructure projects to improve sea and air connectivity with the islands are to be implemented.
- Also, Port Blair and other 7 islands of Andaman and Nicobar are to be digitally connected through submarine optical fibre cable by June 2020.
- Under the Lakshadweep and Andaman and Nicobar Islands Industrial Development Scheme (LANIDS), Information Technology based micro, small and medium enterprises are to be set up.
