BOUNDARIES - HARYANA

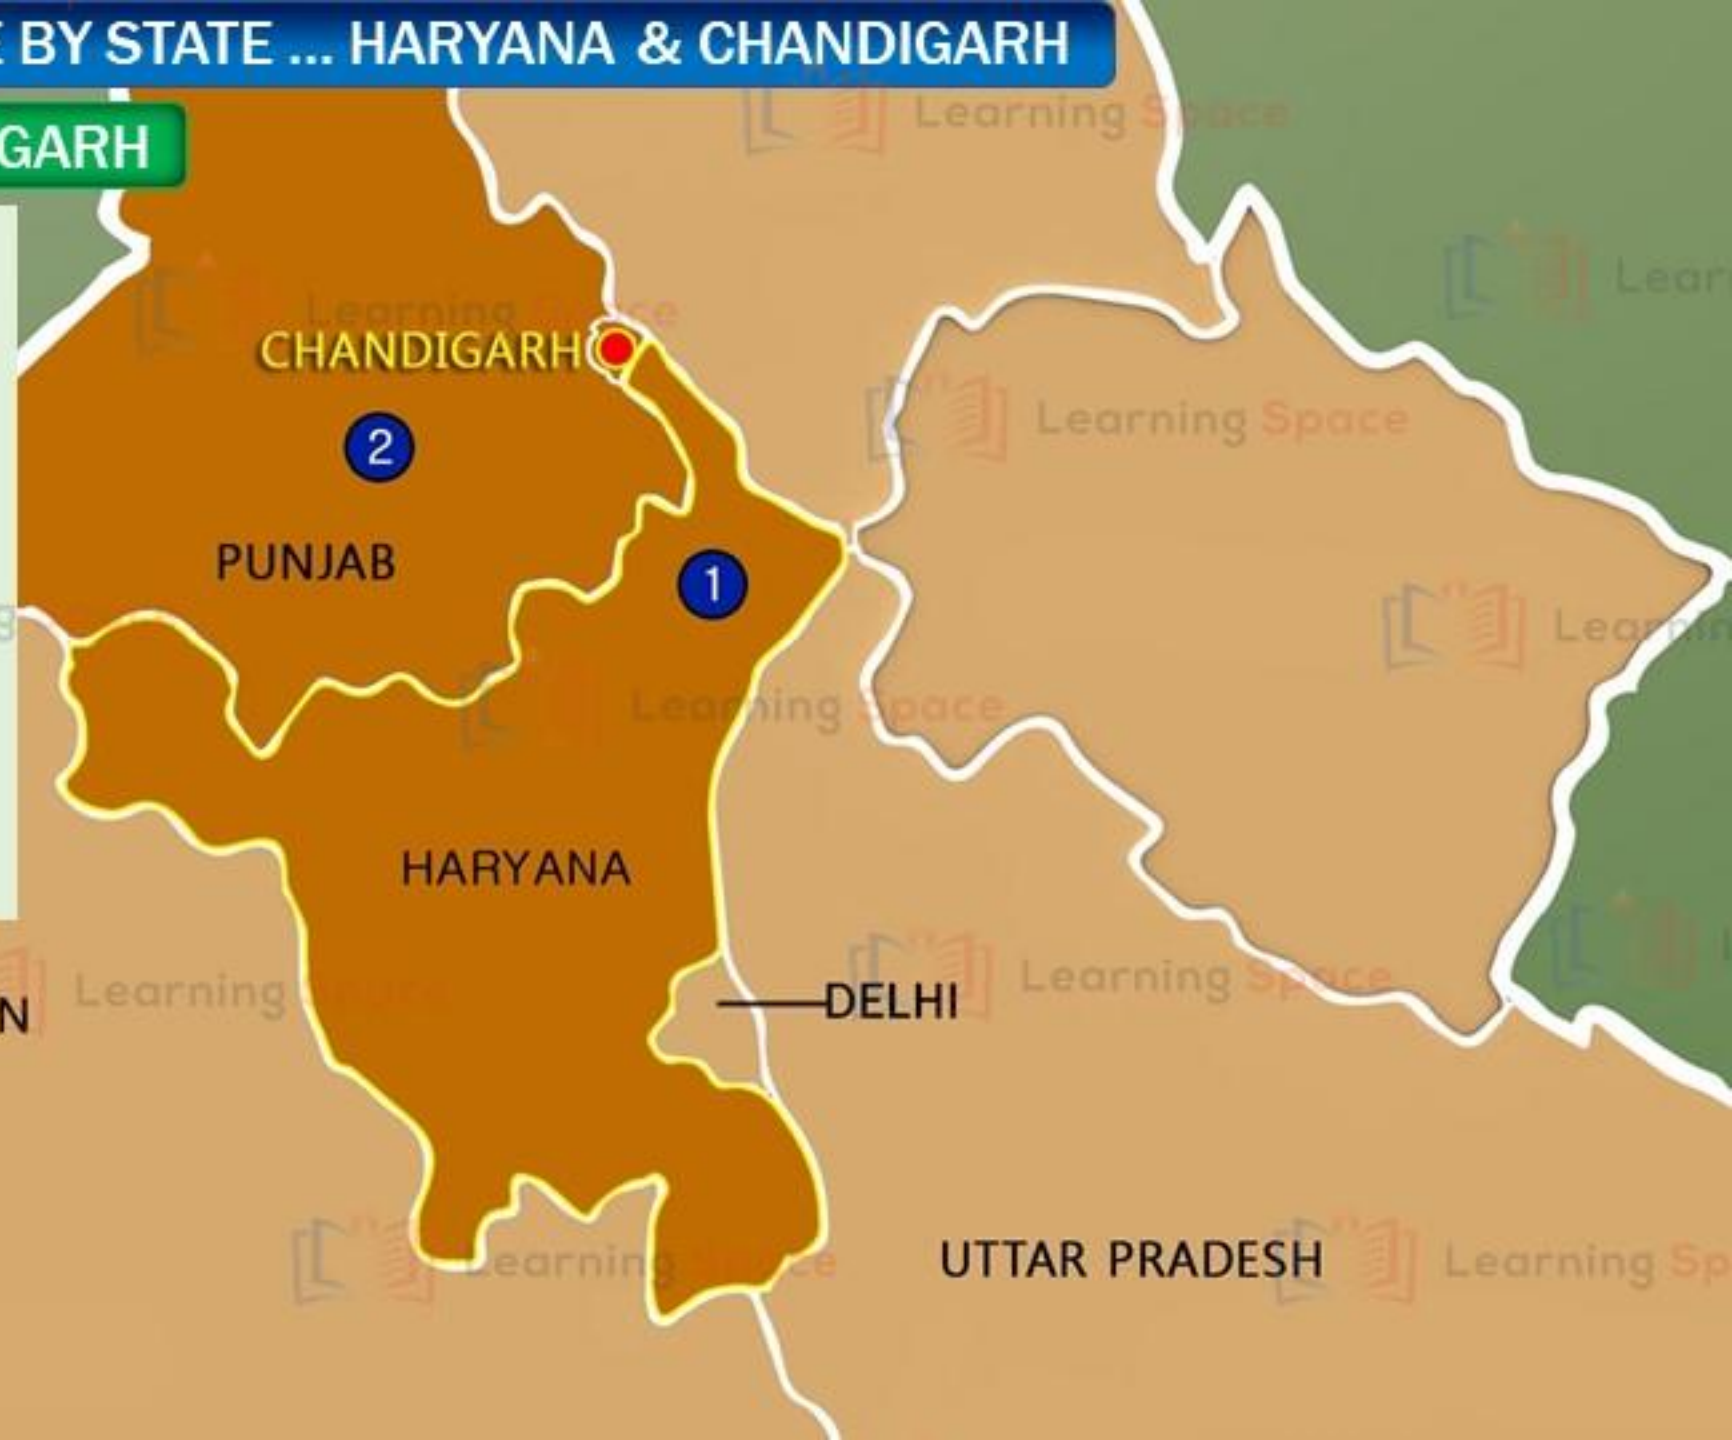

- Haryana is a landlocked state and bordered by :
 - ✓ Punjab to the North.
 - ✓ Himachal Pradesh to the Northeast.
 - ✓ Uttar Pradesh, Delhi to the East.
 - ✓ Rajasthan to the South and West.
- Haryana surrounds National Capital Territory (NCT) of Delhi from North, West, South directions.
- Chandigarh(UT, common capital to Punjab, Haryana) lies to the Northeast.

- STATE BOUNDARY
- INTERNATIONAL BOUNDARY

STATE BY STATE ... HARYANA & CHANDIGARH

2 BOUNDARIES - CHANDIGARH

- Chandigarh serves as common capital to Punjab and Haryana states but it is not a part of either of the two states and is governed directly by the Union Government.
- Chandigarh is bordered by
 - ✓ Punjab to the North, West, South
 - ✓ Haryana to the East.

RELIEF FEATURES

- Chandigarh is located at the foothills of Shiwaliks ranges of Himalayas.

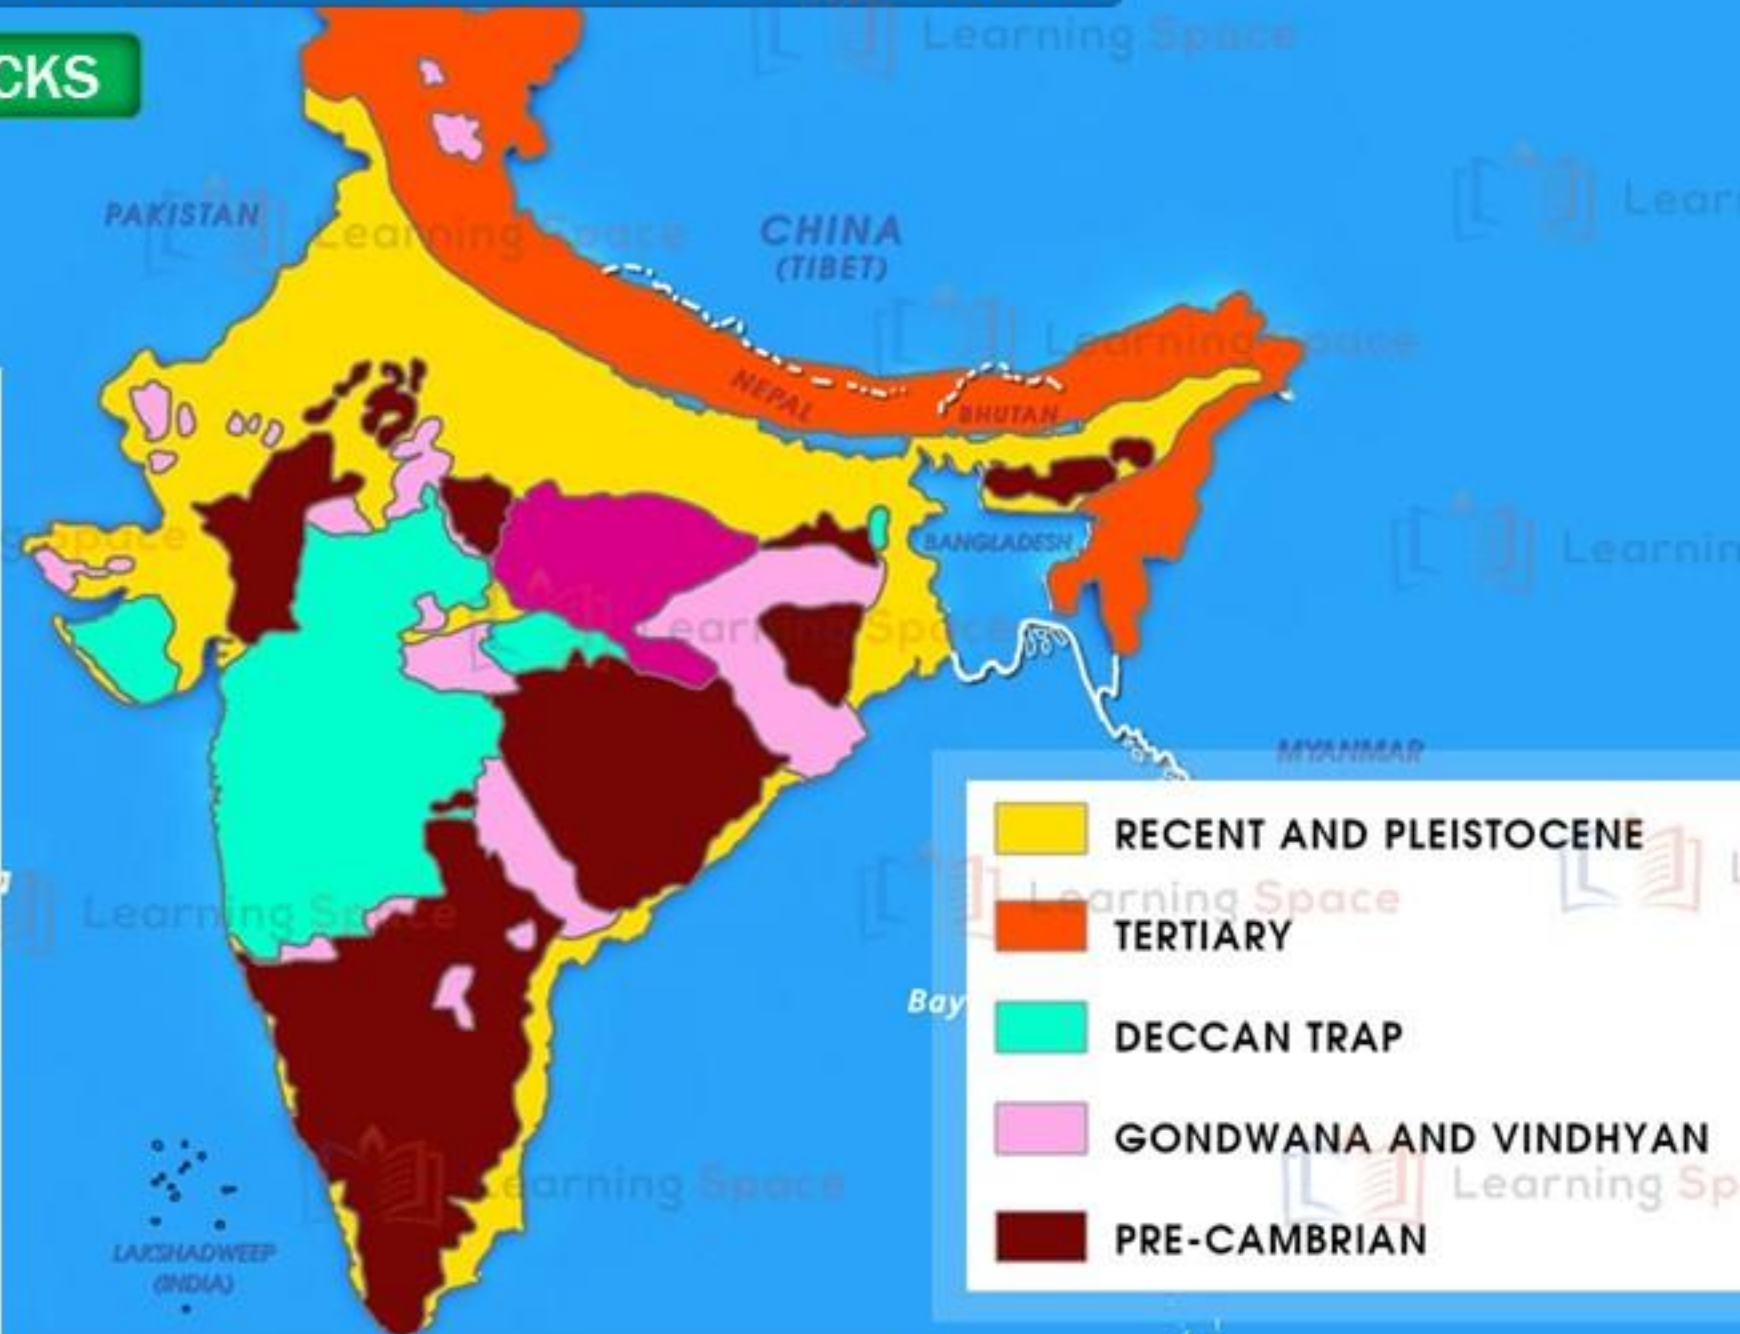

Four geographical regions of Haryana:

- ✓ **Hills:** Shiwalik Hills at the foothills of Himalayas in the Northeast.
- ✓ **Plains:** Punjab plains lie to the North and Yamuna-Ghaggar plain, also called Delhi doab forms the largest part of the state.
- ✓ **Aravalli ranges:** Southern region of the State is covered by Aravalli range which borders the Rajasthan state.
- ✓ **Semi-arid area:** Semi-desert dry sand plain called Bagar, located on the edge of Thar desert covers the South-west part of the state.

4 RELIEF FEATURES - ROCKS

- Haryana and Chandigarh rock system comprises of following types of rocks
 - ✓ Pre-Cambrian rocks of Aravalli Mountains
 - ✓ Tertiary rocks of Himalayas
 - ✓ Quaternary deposits of Indo-Gangetic Plains.
- The Quaternary deposits of Indo-Gangetic plains and the Pre-Cambrian rocks of Aravalli mountains dominate the sub-region

RELIEF FEATURES - MOUNTAINS

- Morni Hills are the offshoots of the Shiwalik range of the Himalayas and is the only Hill station in Haryana.
- Karoh peak, located near Morni hills is the Highest point in Haryana.
- Dhosi Hills, located at the border of Haryana and Rajasthan is an extinct volcano and is one of the important Vedic religious site in Haryana.

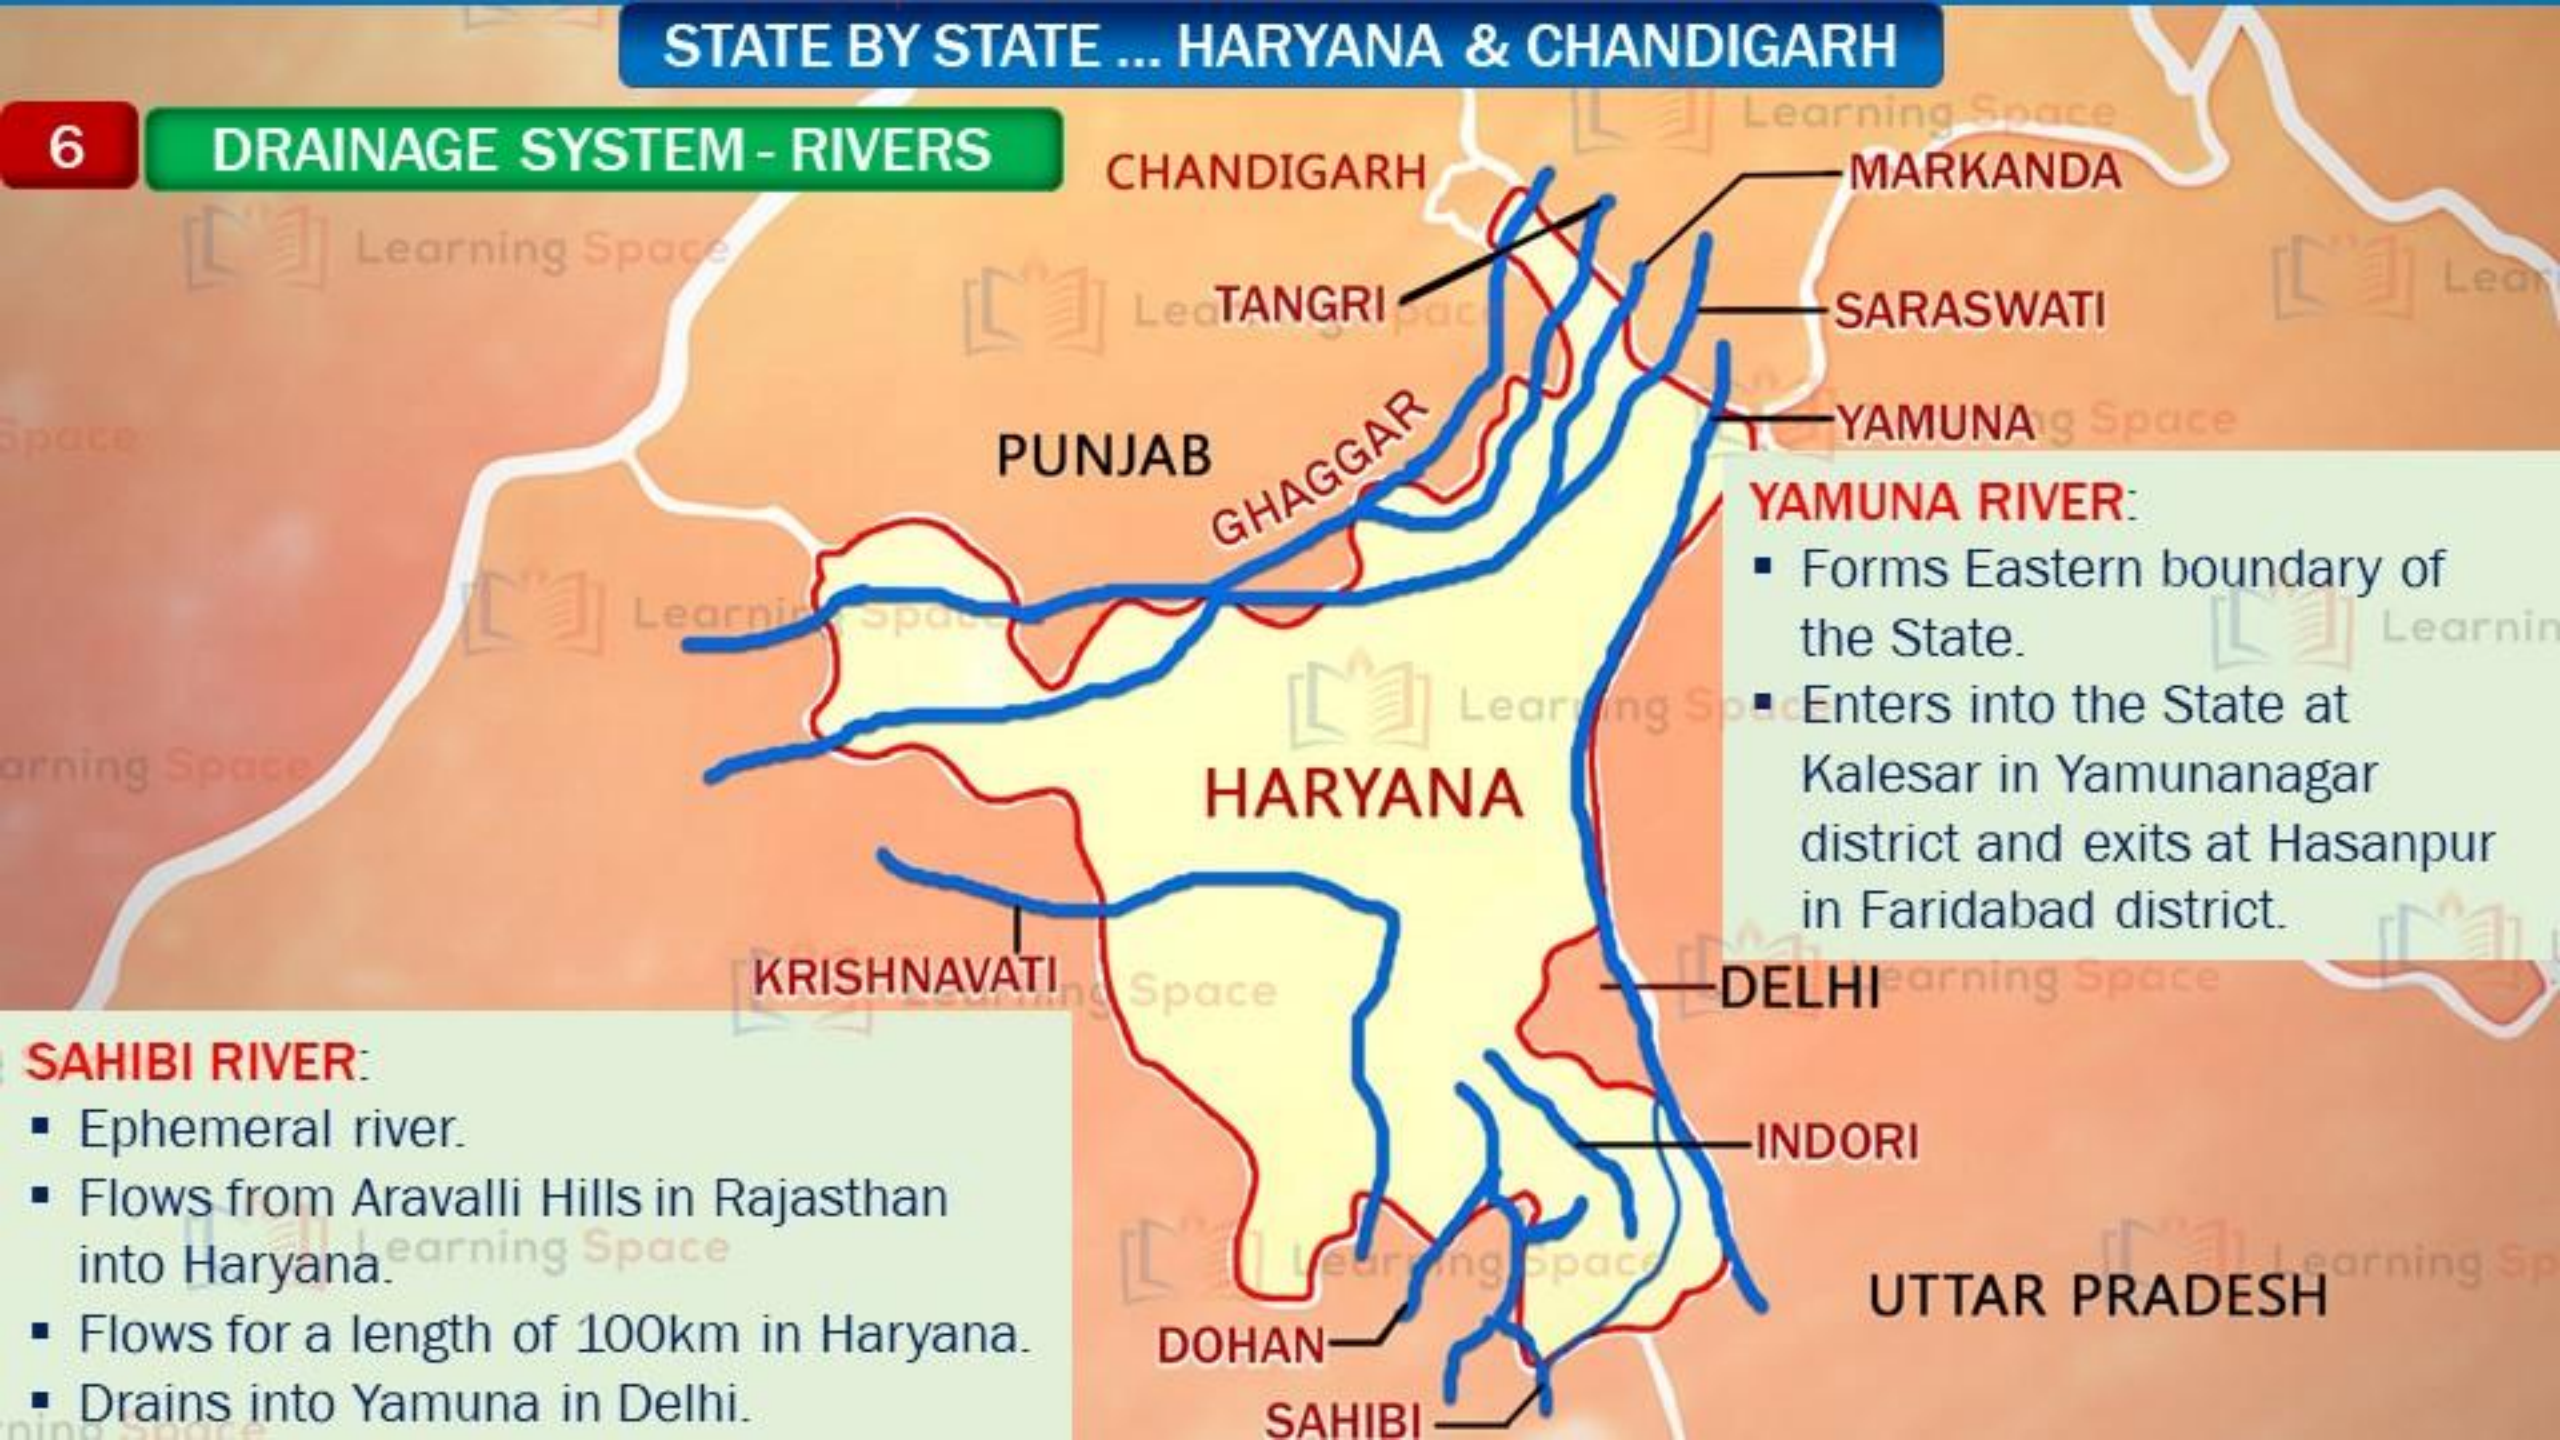

GHAGGAR RIVER:

- Identified as Palaeochannel of Vedic Sarasvati river.
- Rises in Shiwalik hills at border of H.P and Haryana.
- Kaushalya, Markanda, Saraswati, Tangri, Chautang are its tributaries.
- Due to excessive catchment degradation Ghaggar has turned seasonal all through its length.
- River is known as Ghaggar before the Ottu barrage and as the Hakra downstream of the barrage.

DRAINAGE SYSTEM - RIVERS

**YAMUNA RIVER:**

- Forms Eastern boundary of the State.
- Enters into the State at Kalesar in Yamunanagar district and exits at Hasanpur in Faridabad district.

SAHIBI RIVER:

- Ephemeral river.
- Flows from Aravalli Hills in Rajasthan into Haryana.
- Flows for a length of 100km in Haryana.
- Drains into Yamuna in Delhi.

STATE BY STATE ... HARYANA & CHANDIGARH

7 DRAINAGE SYSTEM - DAMS

- Kaushalya Dam – Kaushalya River
- Ottu barrage – Ghaggar River
- Tajewala Barrage – Yamuna River
- Hathnikund Barrage – Yamuna River
- Masani Barrage – Sahibi River

OTTU BARRAGE

- Kaushalya Dam is an earth-fill dam constructed on Kaushalya River, tributary of Ghaggar-Hakra river for the purpose of water supply.
- Ottu barrage feeds the two Ghaggar canals (North Ghaggar canal and South Ghaggar canal) that carry irrigation water to Northern Rajasthan state.

SOILS

- Haryana is situated towards the depressions of the Rivers Ganga and Indus. Hence most of the soil formed is alluvial soil.
- Except in the flood plains of Yamuna and Ghaggar, all the alluvial soil in the State belongs to Bhangar type (older alluvium).
- Forest Soil is present in the hilly tracts in the Northeastern part of State.
- In the Southwestern part, alluvial soil is covered by Sand making the region arid and unproductive.

**HARYANA & CHANDIGARH**

- Rainfall varies both in space and time.
- Receives 80% of the rainfall from Southwest monsoon between July-September and the rest from Western disturbances.
- Rainfall distribution is varied in the State. Shiwalik hills region is the Wettest as it receives high rainfall and Aravalli hills region is the driest.
- Chandigarh experiences a Humid subtropical climate. Very hot summers, scattered rainfall and mild winters

10

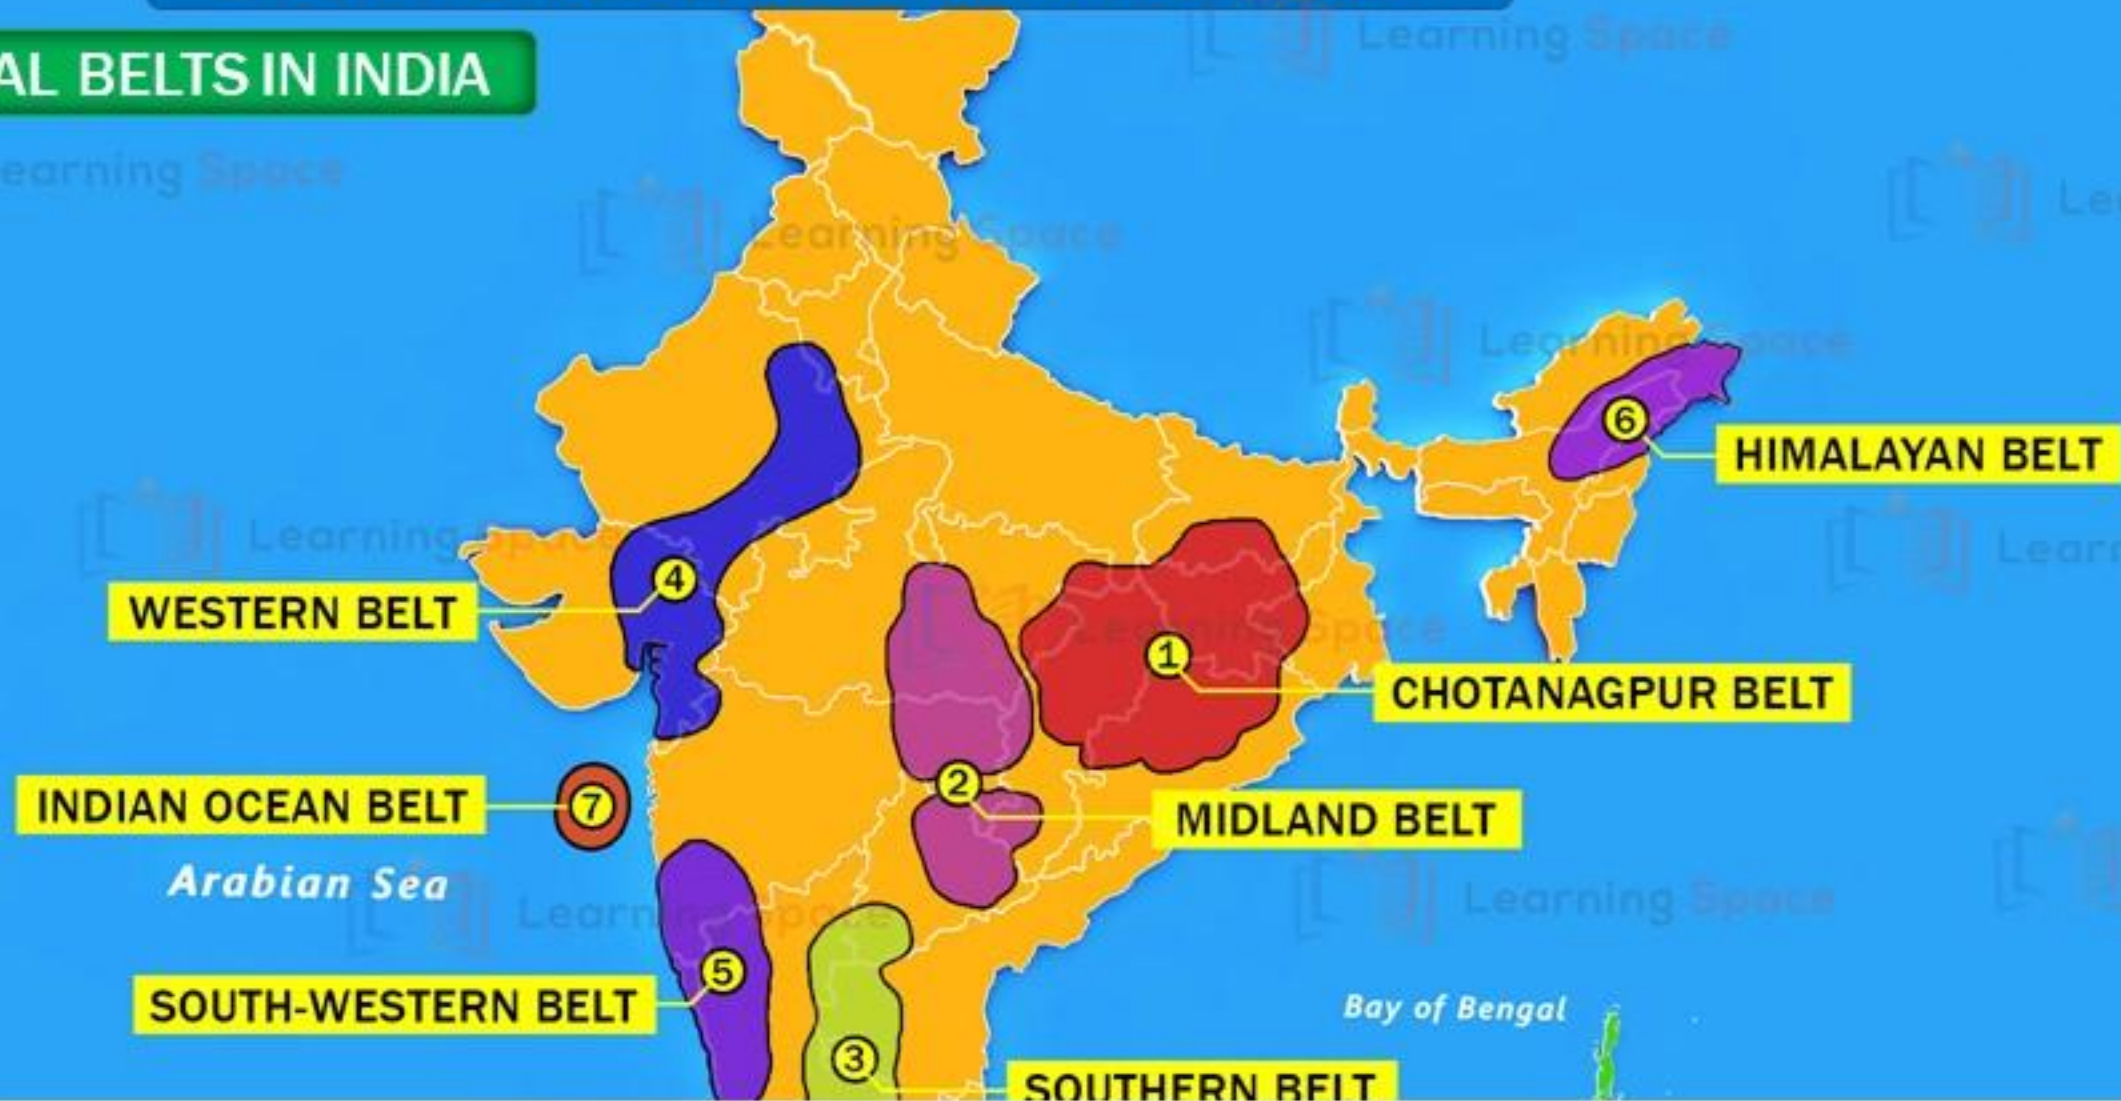

MAJOR CROPS

- Haryana is mainly an agriculture dependent economy.
- Major Kharif crops of Haryana are rice, pulses, cotton, jute, sugarcane, sesame and groundnut.
- Major Rabi crops are wheat, gram, linseed, rapeseed and mustard.
- Haryana contributed significantly to the Green Revolution in India.
- Irrigation in the State is mainly through Tubewells and Canals.
- Asia's biggest agricultural University Chaudhary Charan Singh Agricultural University is located in Haryana at Hisar.

- Cattle rearing is also a significant economic activity in the State in addition to agriculture.
- Haryana is home to World famous 'Murrah' buffaloes popularly known as 'black gold' and the dual purpose 'Haryana' cow.
- National Dairy Research Institute, Karnal and Central Institute for Research on Buffaloes, Hisar are instrumental in development of new breeds of cattle through Embryo transfer technology.

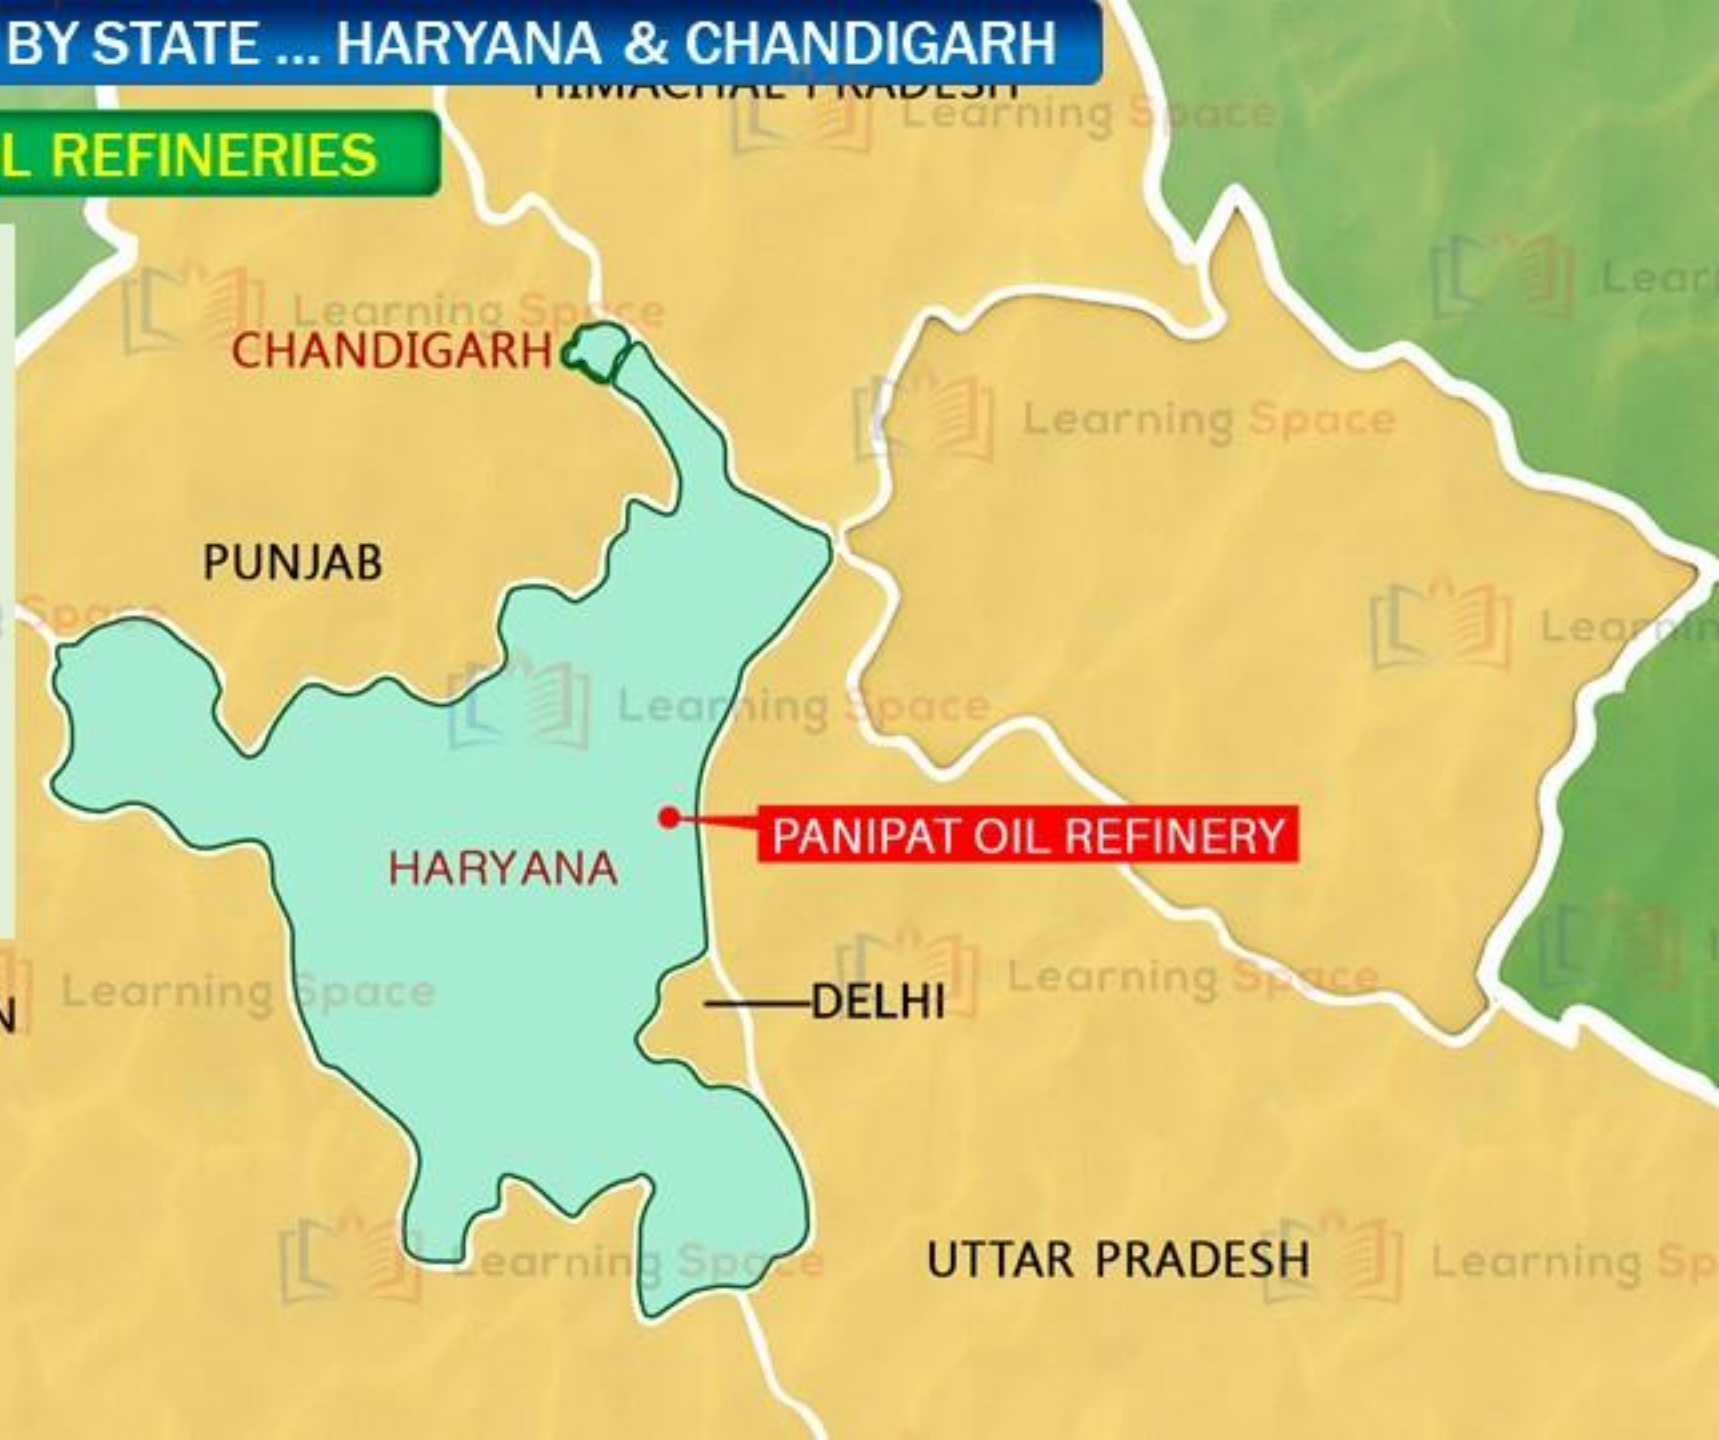

- Limestone, dolomite, silica sand, quartzite, slate, china clay are the minerals which are majorly available in the State.
- Limestone of good quality occurs in Ambala, Mahendragarh district.
- In Yamuna Nagar and Ambala districts, Gold occurrence is also traced by GSI.
- Copper is also found in minor quantity in Mahendragarh, Gurgaon districts.

12 INFRASTRUCTURE ... OIL REFINERIES

- Panipat oil refinery was established in 1998 and belongs to Indian Oil Corporation
- It meets the demand of petroleum products of Haryana and of the entire North-West Region including Punjab, J&K, H.P, Chandigarh, Uttarakhand, Rajasthan & Delhi.

STATE BY STATE ... HARYANA & CHANDIGARH

12 INFRASTRUCTURE ... POWER PLANTS

- Indira Gandhi Super Thermal Power Plant is the largest Thermal power plant in Haryana.
- Earlier Faridabad Thermal power plant also used to supply power to the State. But it was shutdown and Faridabad Solar Power Plant was proposed to be set up by HPGCL at the defunct site in Faridabad.

- Gorakhpur Nuclear Power Plant is a proposed nuclear power plant to be built in Fatehabad district of Haryana

12 INFRASTRUCTURE...CORRIDORS

- These corridors don't pass through Chandigarh

INFRASTRUCTURE ... Delhi-Mumbai Industrial Corridor

- Kalesar National Park is contiguous to Simbalbara National Park in Himachal Pradesh and Rajaji National Park in Uttarakhand. River Yamuna flows to the East of NP.
- It is located at the foothills of Shiwaliks and is the only forest in Haryana with a natural Sal tree belt.
- Sultanpur NP was established in 1989 with the efforts of British ornithologist Peter Jackson. It is located on Gurgaon-Jhajjar highway and attracts around 200 species of migratory birds every year.
- Chandigarh has no NP.

STATE BY STATE ... HARYANA & CHANDIGARH

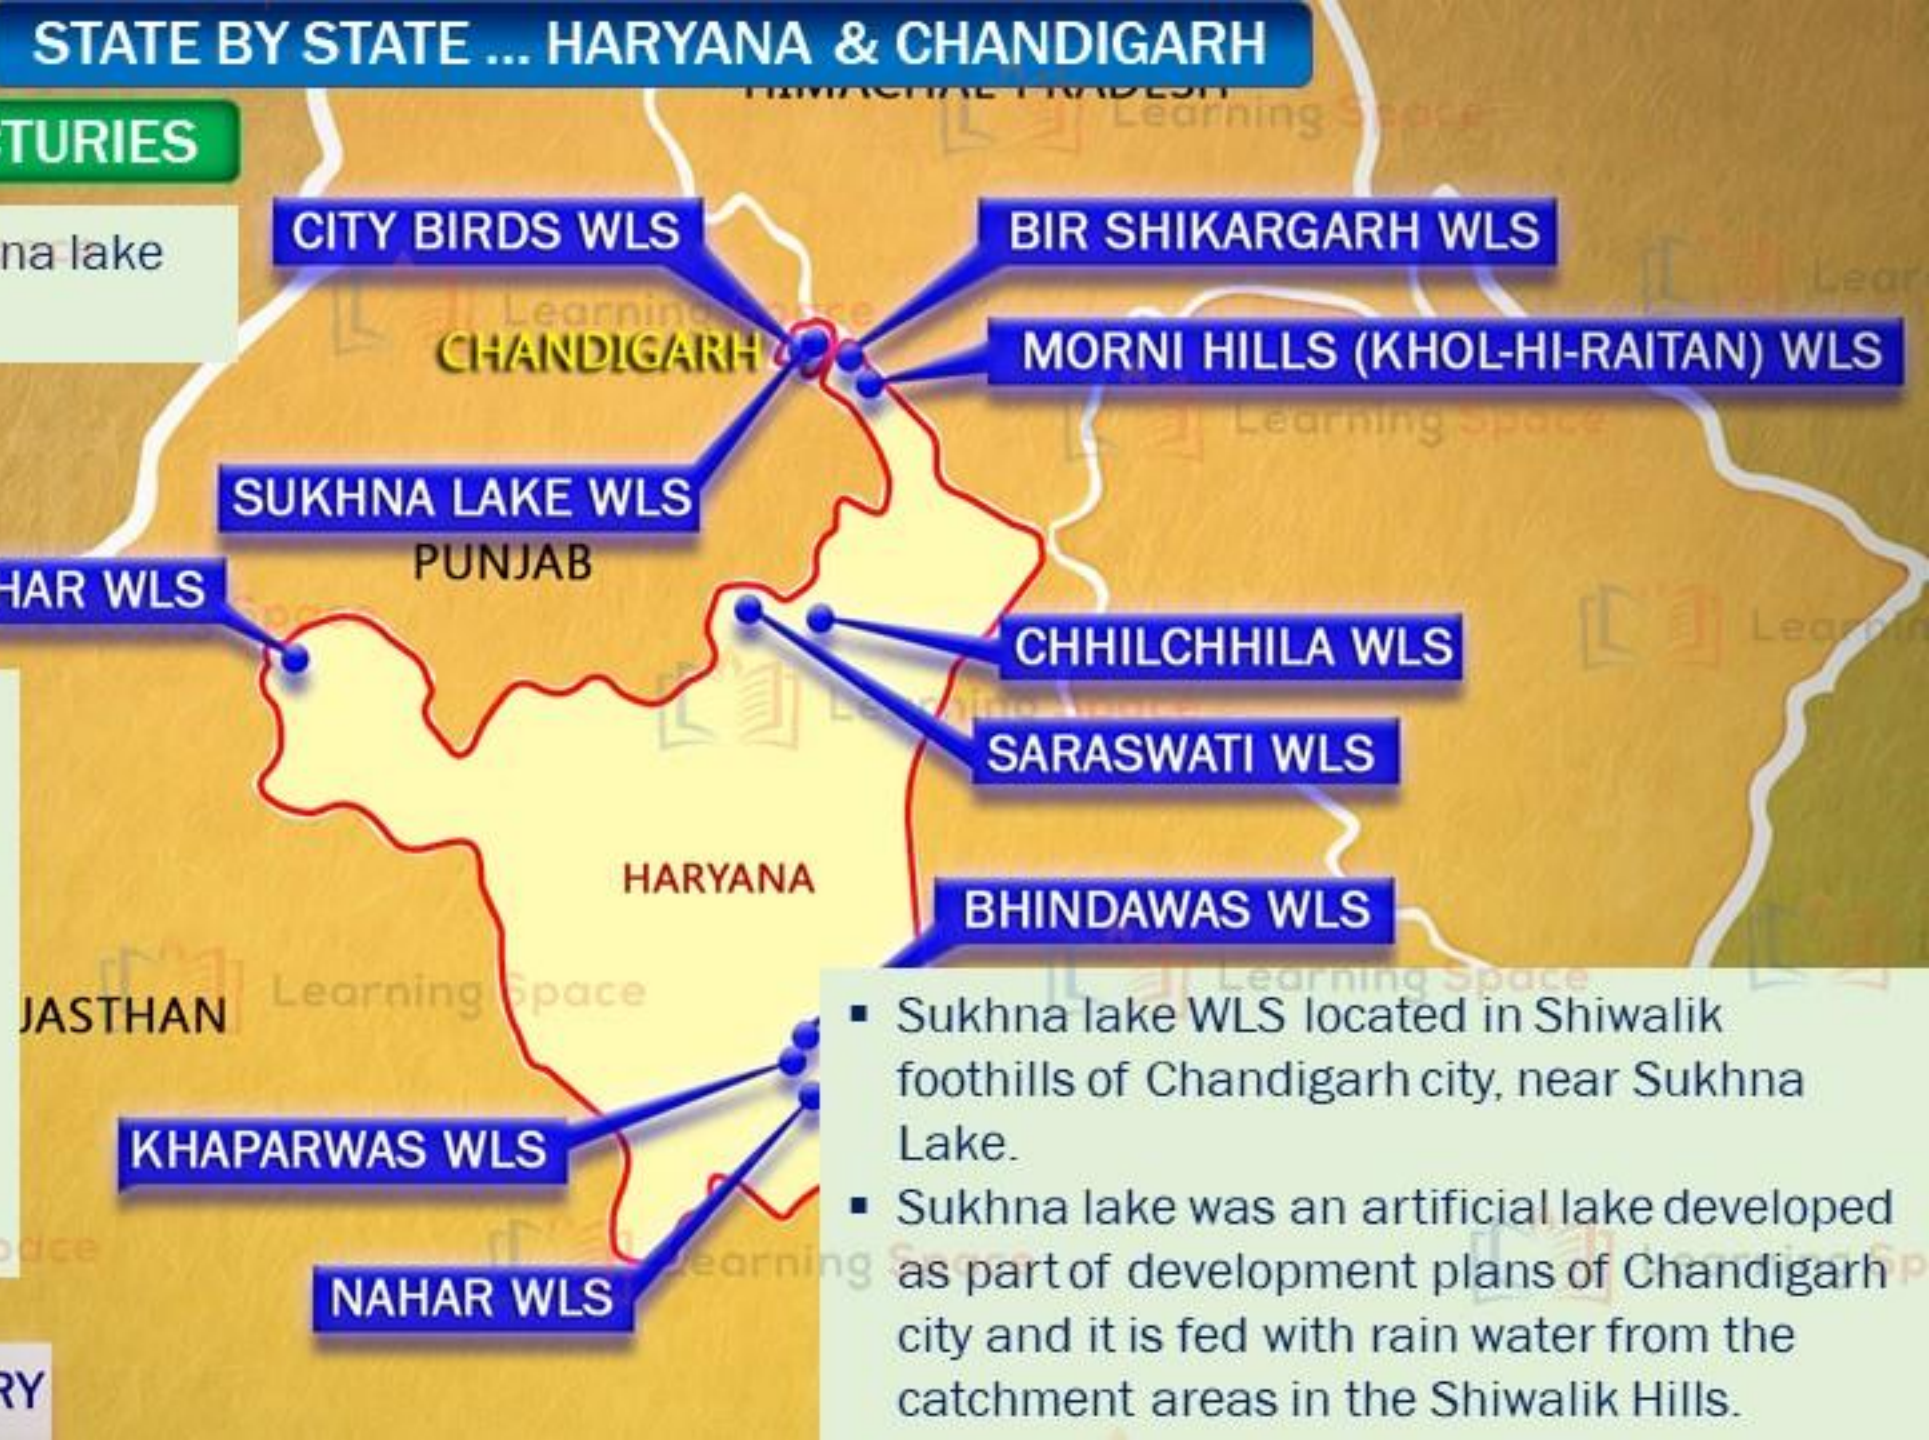

14

WILDLIFE SANCTUARIES

- City Birds WLS and Sukhna lake WLS are in Chandigarh.

- Chhilchhila WLS, also known as Seonthi reserve forest is located in a depression which has a small lake and is home to two Near endangered species- Oriental darter, Painted stork.

WLS - WILDLIFE SANCTUARY

- Sukhna lake WLS located in Shiwalik foothills of Chandigarh city, near Sukhna Lake.
- Sukhna lake was an artificial lake developed as part of development plans of Chandigarh city and it is fed with rain water from the catchment areas in the Shiwalik Hills.

15

UNESCO- WHS

CAPITOL COMPLEX OF CHANDIGARH

- The Capitol Complex, designed by Le Corbusier, was added to UNESCO's World Heritage sites list from India in 2016.
- Le Corbusier was the prime architect of Chandigarh city.
- The capitol complex include Punjab and Haryana's Assembly, High court, Secretariat buildings, Open Hand monument, Tower of Shadows.

SWANG

- Also called Saang or Svang.
- Popular Folk dance-theatre form.
- More dialogue-oriented than movement-oriented.
- Incorporates suitable theatrics and mimicry accompanied by song and dialogue.
- Presentation of Swang is done in Haryanvi style of singing known as Raagani.

LOOR

- Popular dance in Haryana.
- Performed during Holi festival.
- The term "Loor" is used for a girl.
- Famous in the Bangar and Bagar parts of the State.
- Dance marks arrival of spring season.

GYPS VULTURE

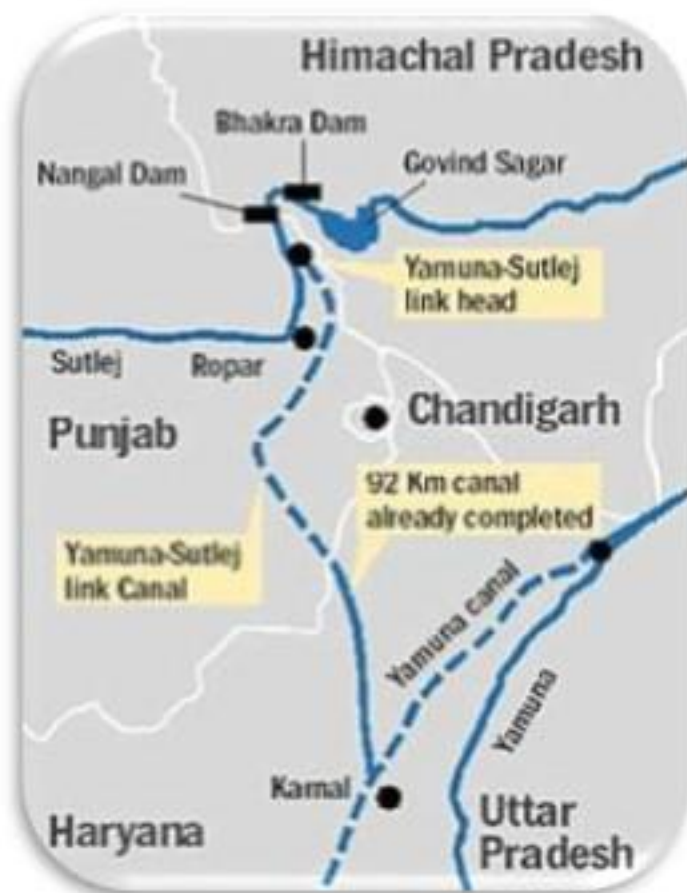

- IUCN : CR EN
- They are on the brink of extinction.
- Haryana forest department has established Vulture Conservation and Breeding Centre near Pinjore in collaboration with Royal Society for Protection of Birds (RSPB), Zoological Society of London (ZSL) United Kingdom and Bombay Natural History Society (BNHS).

BLACK FRANCOLIN

- IUCN : Least Concern
- Locally known as Kaala Teetar, it is the State bird of Haryana.
- Formally it was called Black Partridge.
- Prefer the areas of thick vegetation, usually near water.

SUTLEJ-YAMUNA LINK CANAL ISSUE

- Between the States of Punjab and Haryana.
- Regarding sharing waters of the Rivers Ravi and Beas.
- A Canal linking the Sutlej with the Yamuna, was planned to allow Haryana to use its share of the waters of the Sutlej and its tributary Beas.
- But Punjab Assembly terminated the water-sharing agreements in 2004 resulting in SYL becoming a bone of contention between two States.

18

RECENT NEWS

FOREIGN COOPERATION DEPARTMENT

- Haryana Government has recently decided to create Foreign Cooperation department.
- Aim of the department is to focus on welfare of NRI's, investment and youth employment.
- Department will work closely with the Ministry of External Affairs and focus on increasing engagement under twin city programs of MEA.

BHAVANTAR BHARPAYEE YOJANA

- Scheme for vegetable growers in Haryana.
- Under it farmers get compensated for selling their crop at a price lower than that fixed by Government.
- Applicable to potato, onion, tomato and cauliflower growers.
- Recently Haryana has included more crops to widen the scheme's reach.
