KOLHAN DIVISION

ODISHA

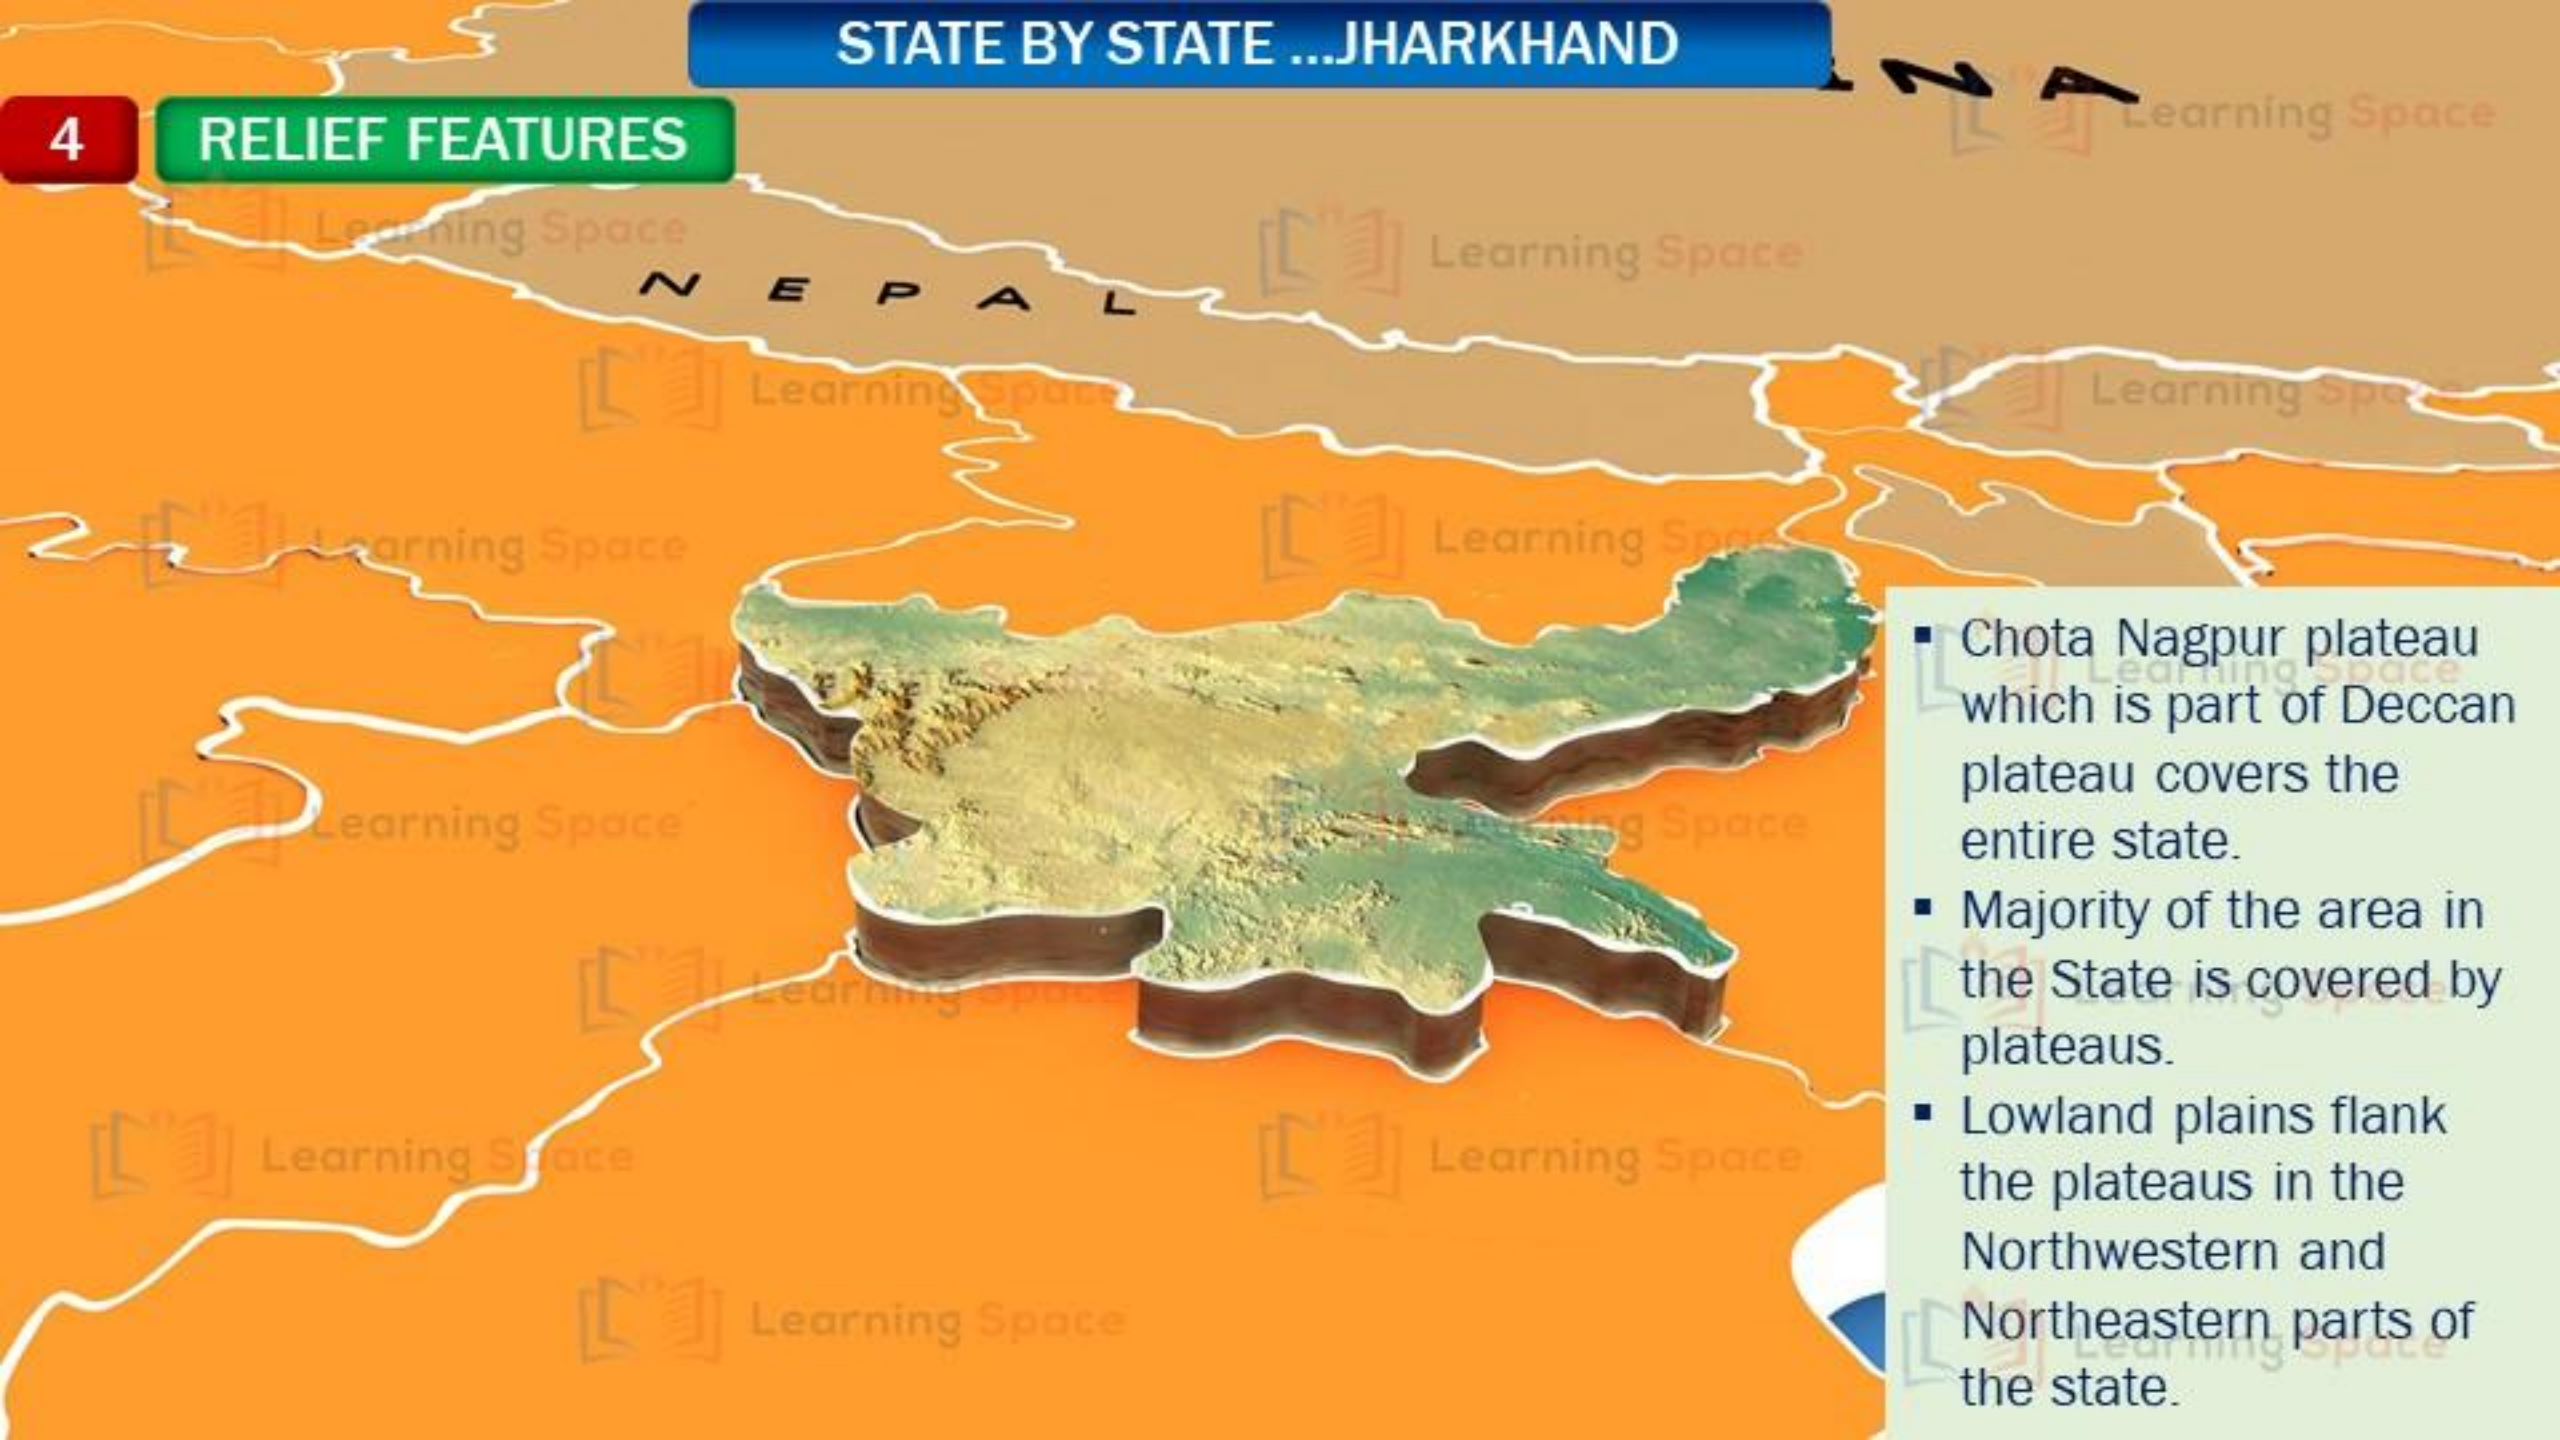

Jharkhand's 24 districts were divided into five divisions for administrative purposes.

- ✓ Palamu
- ✓ North Chotanagpur
- ✓ South Chotanagpur
- ✓ Kolhan
- ✓ Santhal Paragana

- Jharkhand consists of different types of rock formations ranging from Pre-Cambrian to Cenozoic era.
- Most predominant hard rocks in the state comprise of the Archaean metamorphics belonging to Vindhyan and Gondwana Super Group with associated igneous rocks.
- Gondwanas are located in Palamu, Ranchi, Hazaribagh, Bokaro, Chatra, Dumka, Giridih, Dhanbad and Godda districts.

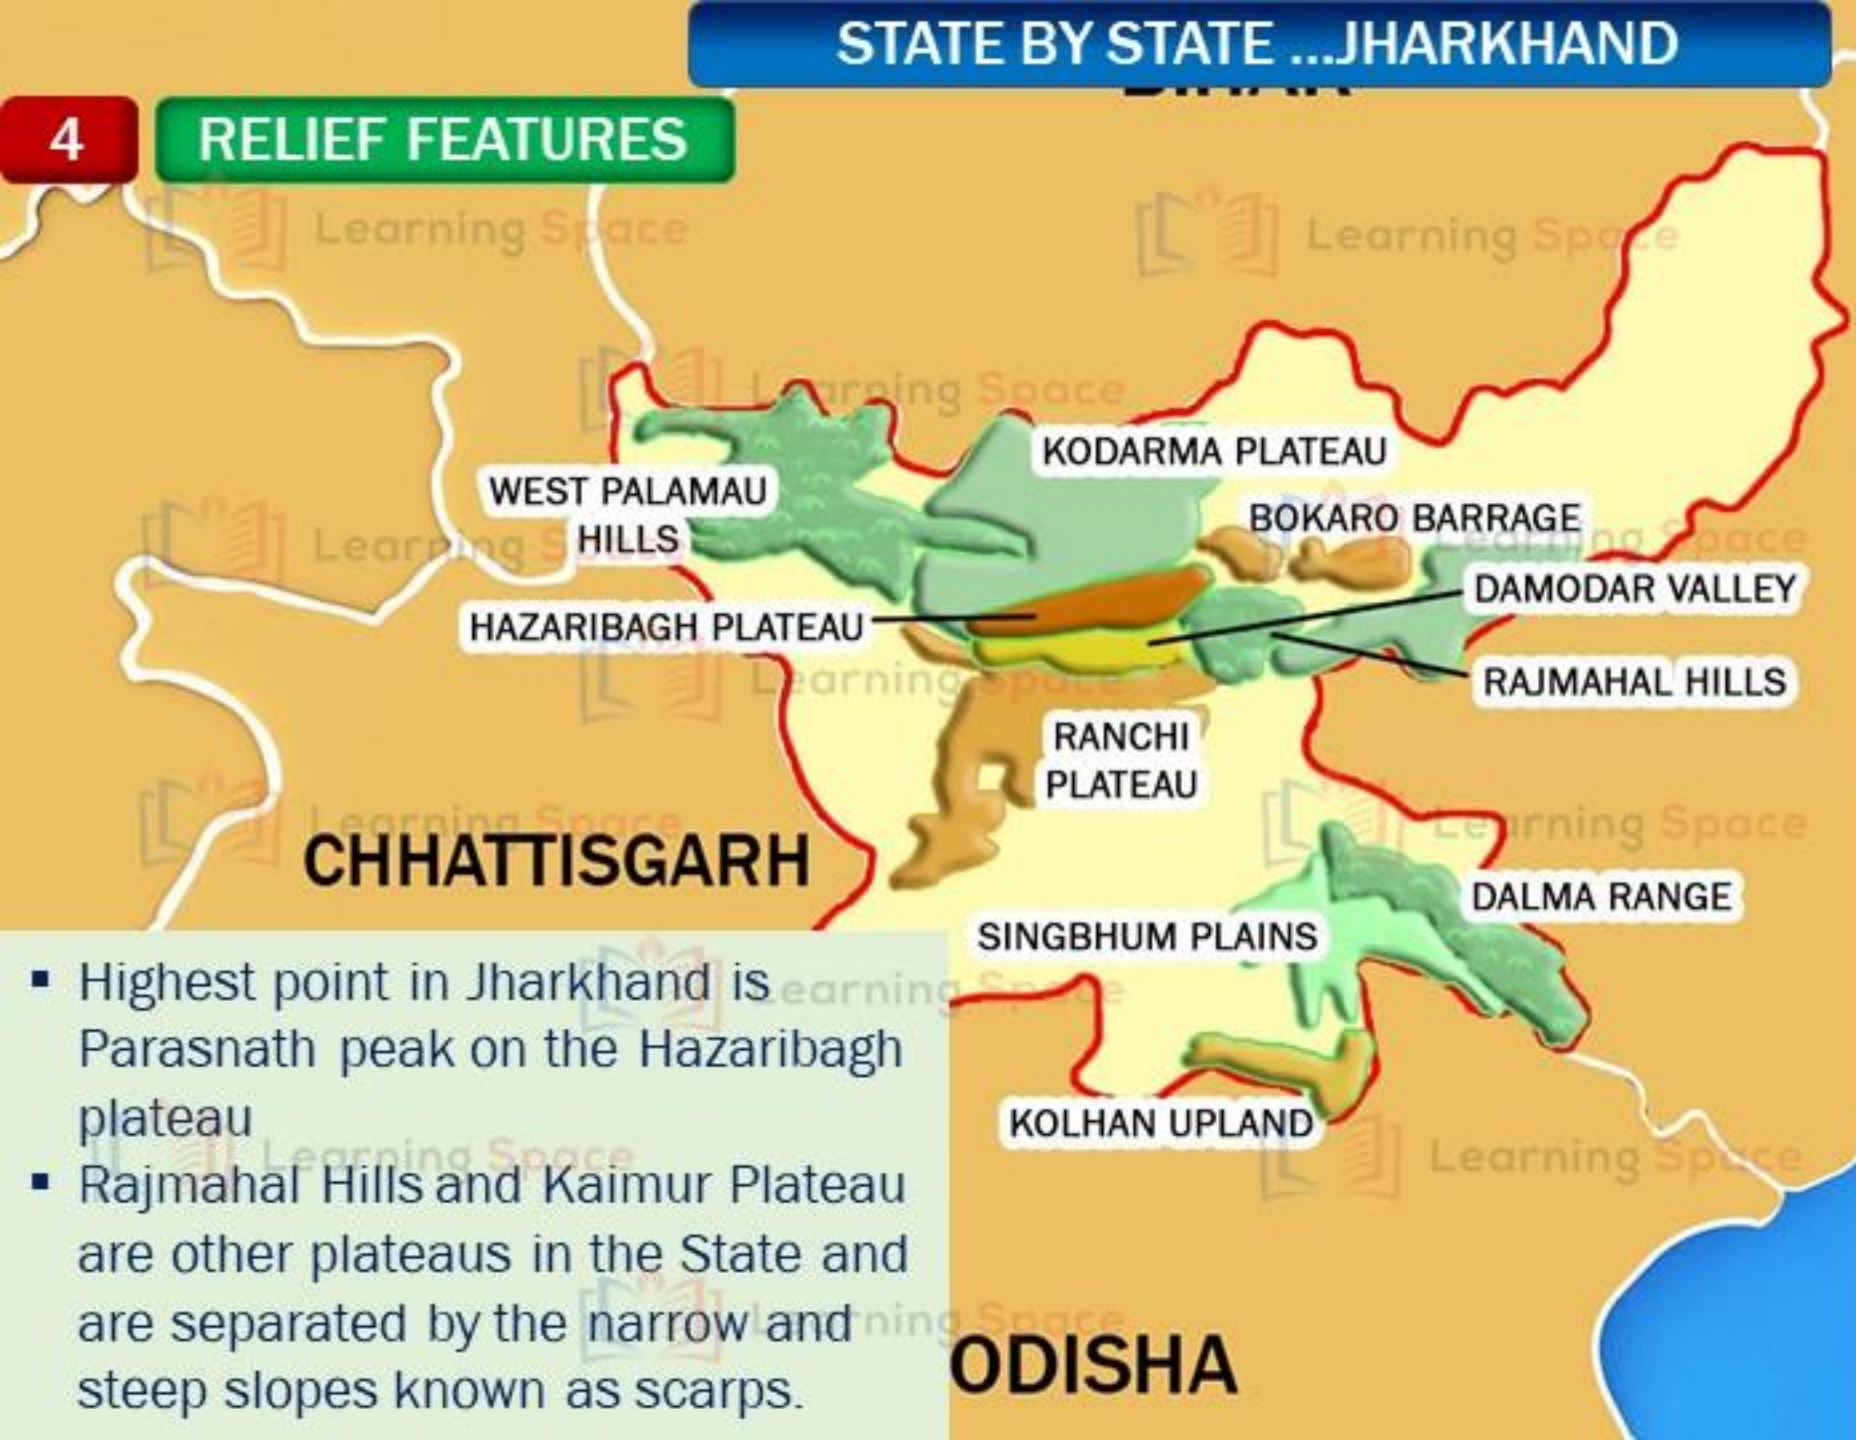

RELIEF FEATURES

- Chota Nagpur plateau which is part of Deccan plateau covers the entire state.
- Majority of the area in the State is covered by plateaus.
- Lowland plains flank the plateaus in the Northwestern and Northeastern parts of the state.

RELIEF FEATURES

- Chota Nagpur plateau consists of various divisions of plateaus at different heights.
- Highest plateau lies in the west known as Western or Higher Ranchi Plateau (locally known as Pat region)
- Second plateau is the Eastern Ranchi Plateau which is separated from the Hazaribagh Plateau by the Damodar river.
- Koderma Plateau is also referred to as the Hazaribagh Lower Plateau.

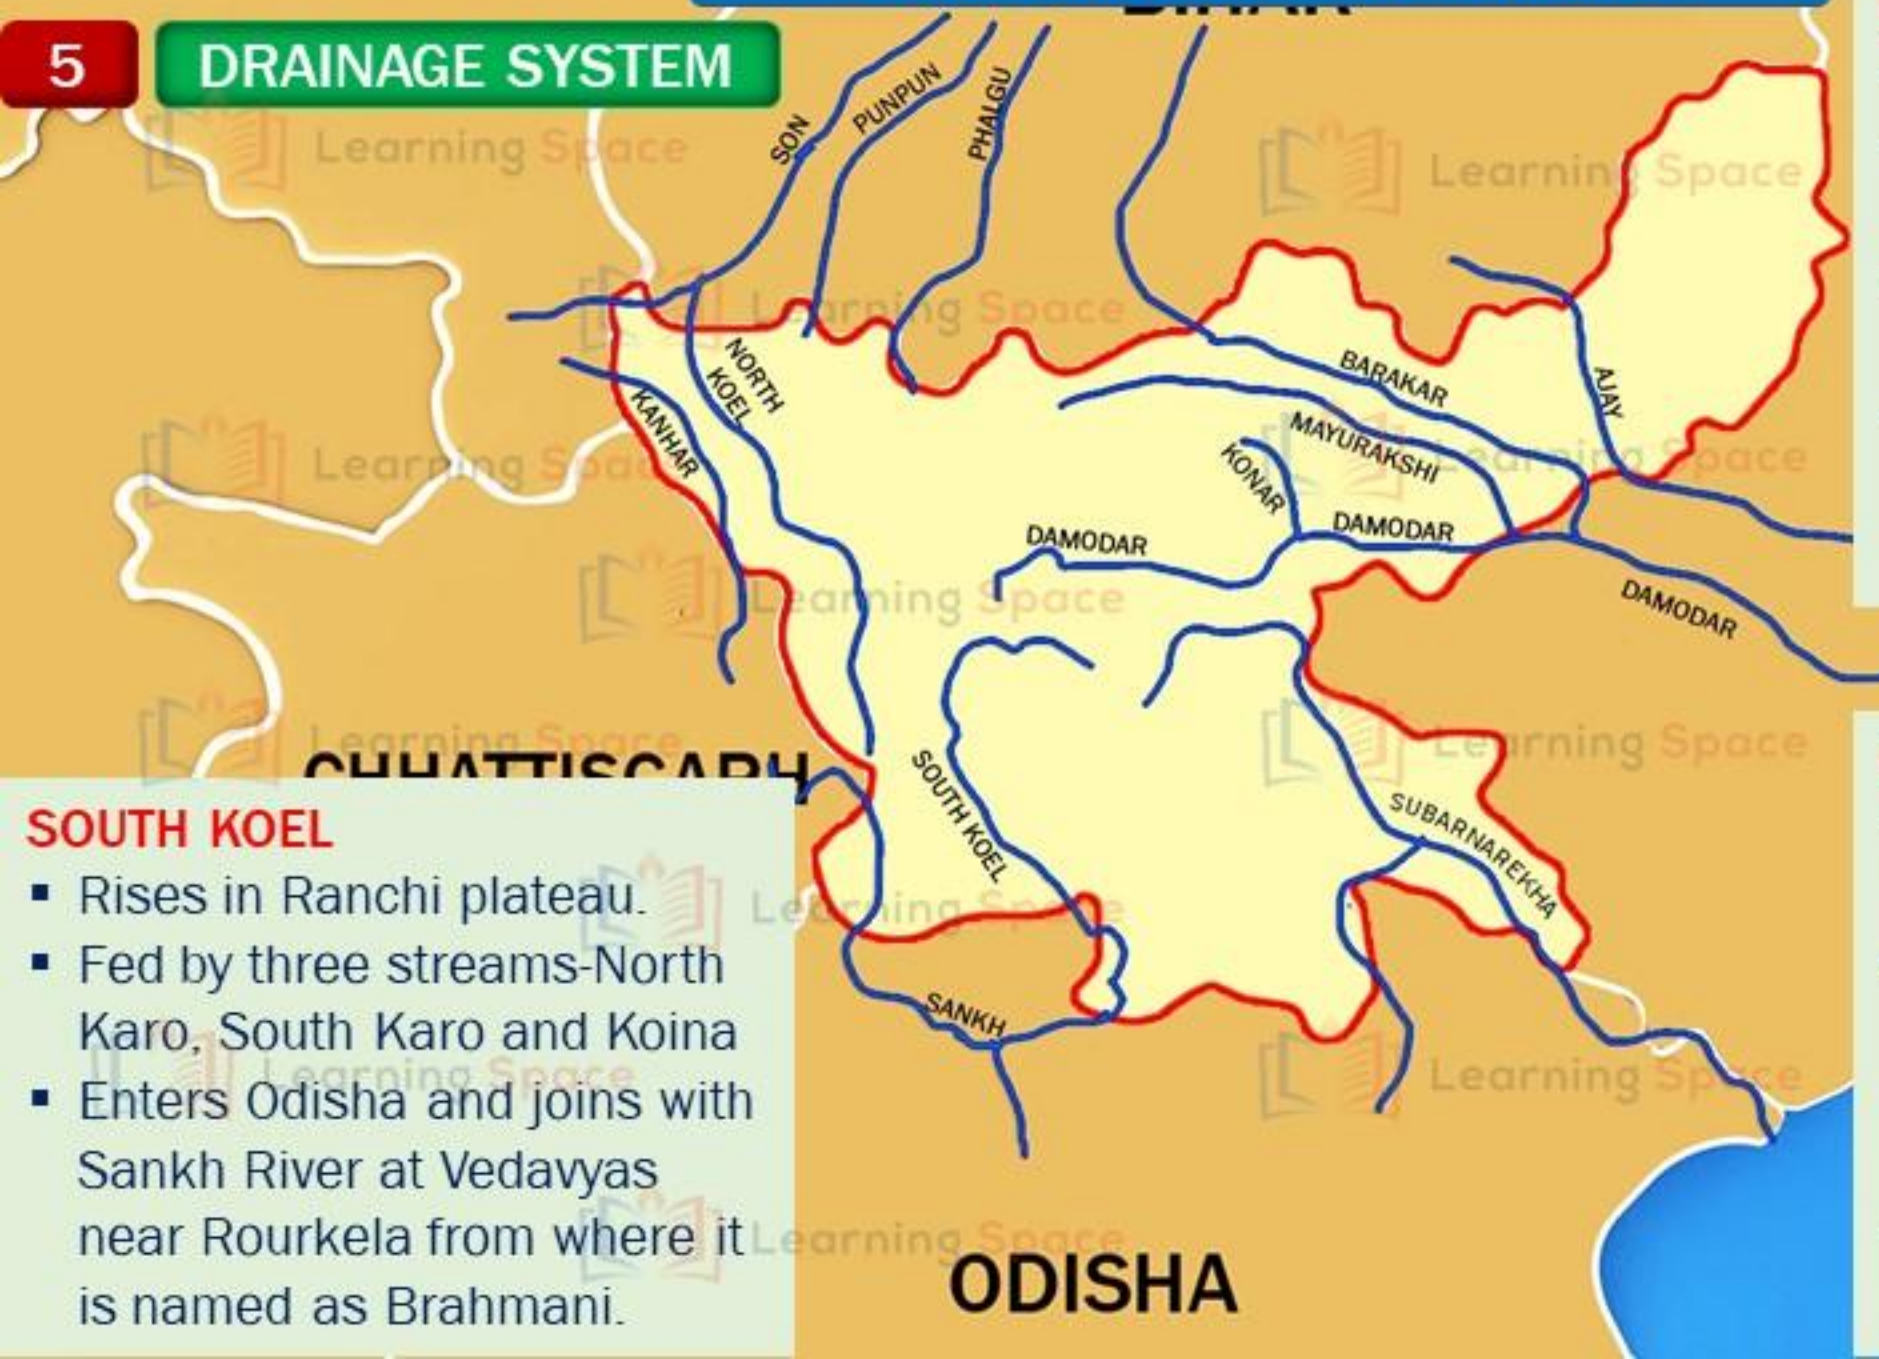

- Highest point in Jharkhand is Parasnath peak on the Hazaribagh plateau
- Rajmahal Hills and Kaimur Plateau are other plateaus in the State and are separated by the narrow and steep slopes known as scarps.

ODISHA

5

DRAINAGE SYSTEM

DAMODAR

- Rises in Palmau district
- Flows through Jharkhand, West Bengal.
- Tributaries are Barakar, Konar, Bokaro and Ayar.
- Damodar and Barakar together trifurcates Chota Nagpur plateau.

NORTH KOEL

- Rises in Chota Nagpur plateau.
- Joins the Son River (right bank tributary of Ganga River) a few miles north-west of Haidarnagar.
- Principal tributaries are Auranga and Amanat.

SOUTH KOEL

- Rises in Ranchi plateau.
- Fed by three streams-North Karo, South Karo and Koina
- Enters Odisha and joins with Sankh River at Vedavyas near Rourkela from where it is named as Brahmani.

ODISHA

STATE BY STATE ...JHARKHAND

5

DRAINAGE SYSTEM

KONAR RIVER

- Tributary of Damodar river
- Flows through Bokaro and Hazaribagh districts.
- Konar with its tributary Siwani drains a greater portion of the Hazaribagh plateau, receives waters of Bokaro river and finally joins with Damodar.

BARAKAR RIVER

- Tributary of Damodar
- Flows to the North of Chota Nagpur plateau.
- Joins with Damodar in West Bengal.

SUBARNAREKHA

- Also known as Space Swarnarekha river
- Hundru waterfalls is on Subarnarekha river
- Originates from the Ranchi Plateau and forms boundary between West Bengal and Odisha in its lower course.
- Joins Bay of Bengal forming an estuary between the Ganga and Mahanadi deltas.

MAYURAKSHI RIVER

- Also known as Mor river
- Rises at Deoghar, Jharkhand
- Flows through Jharkhand, West Bengal

CHHATTISGARH

ODISHA

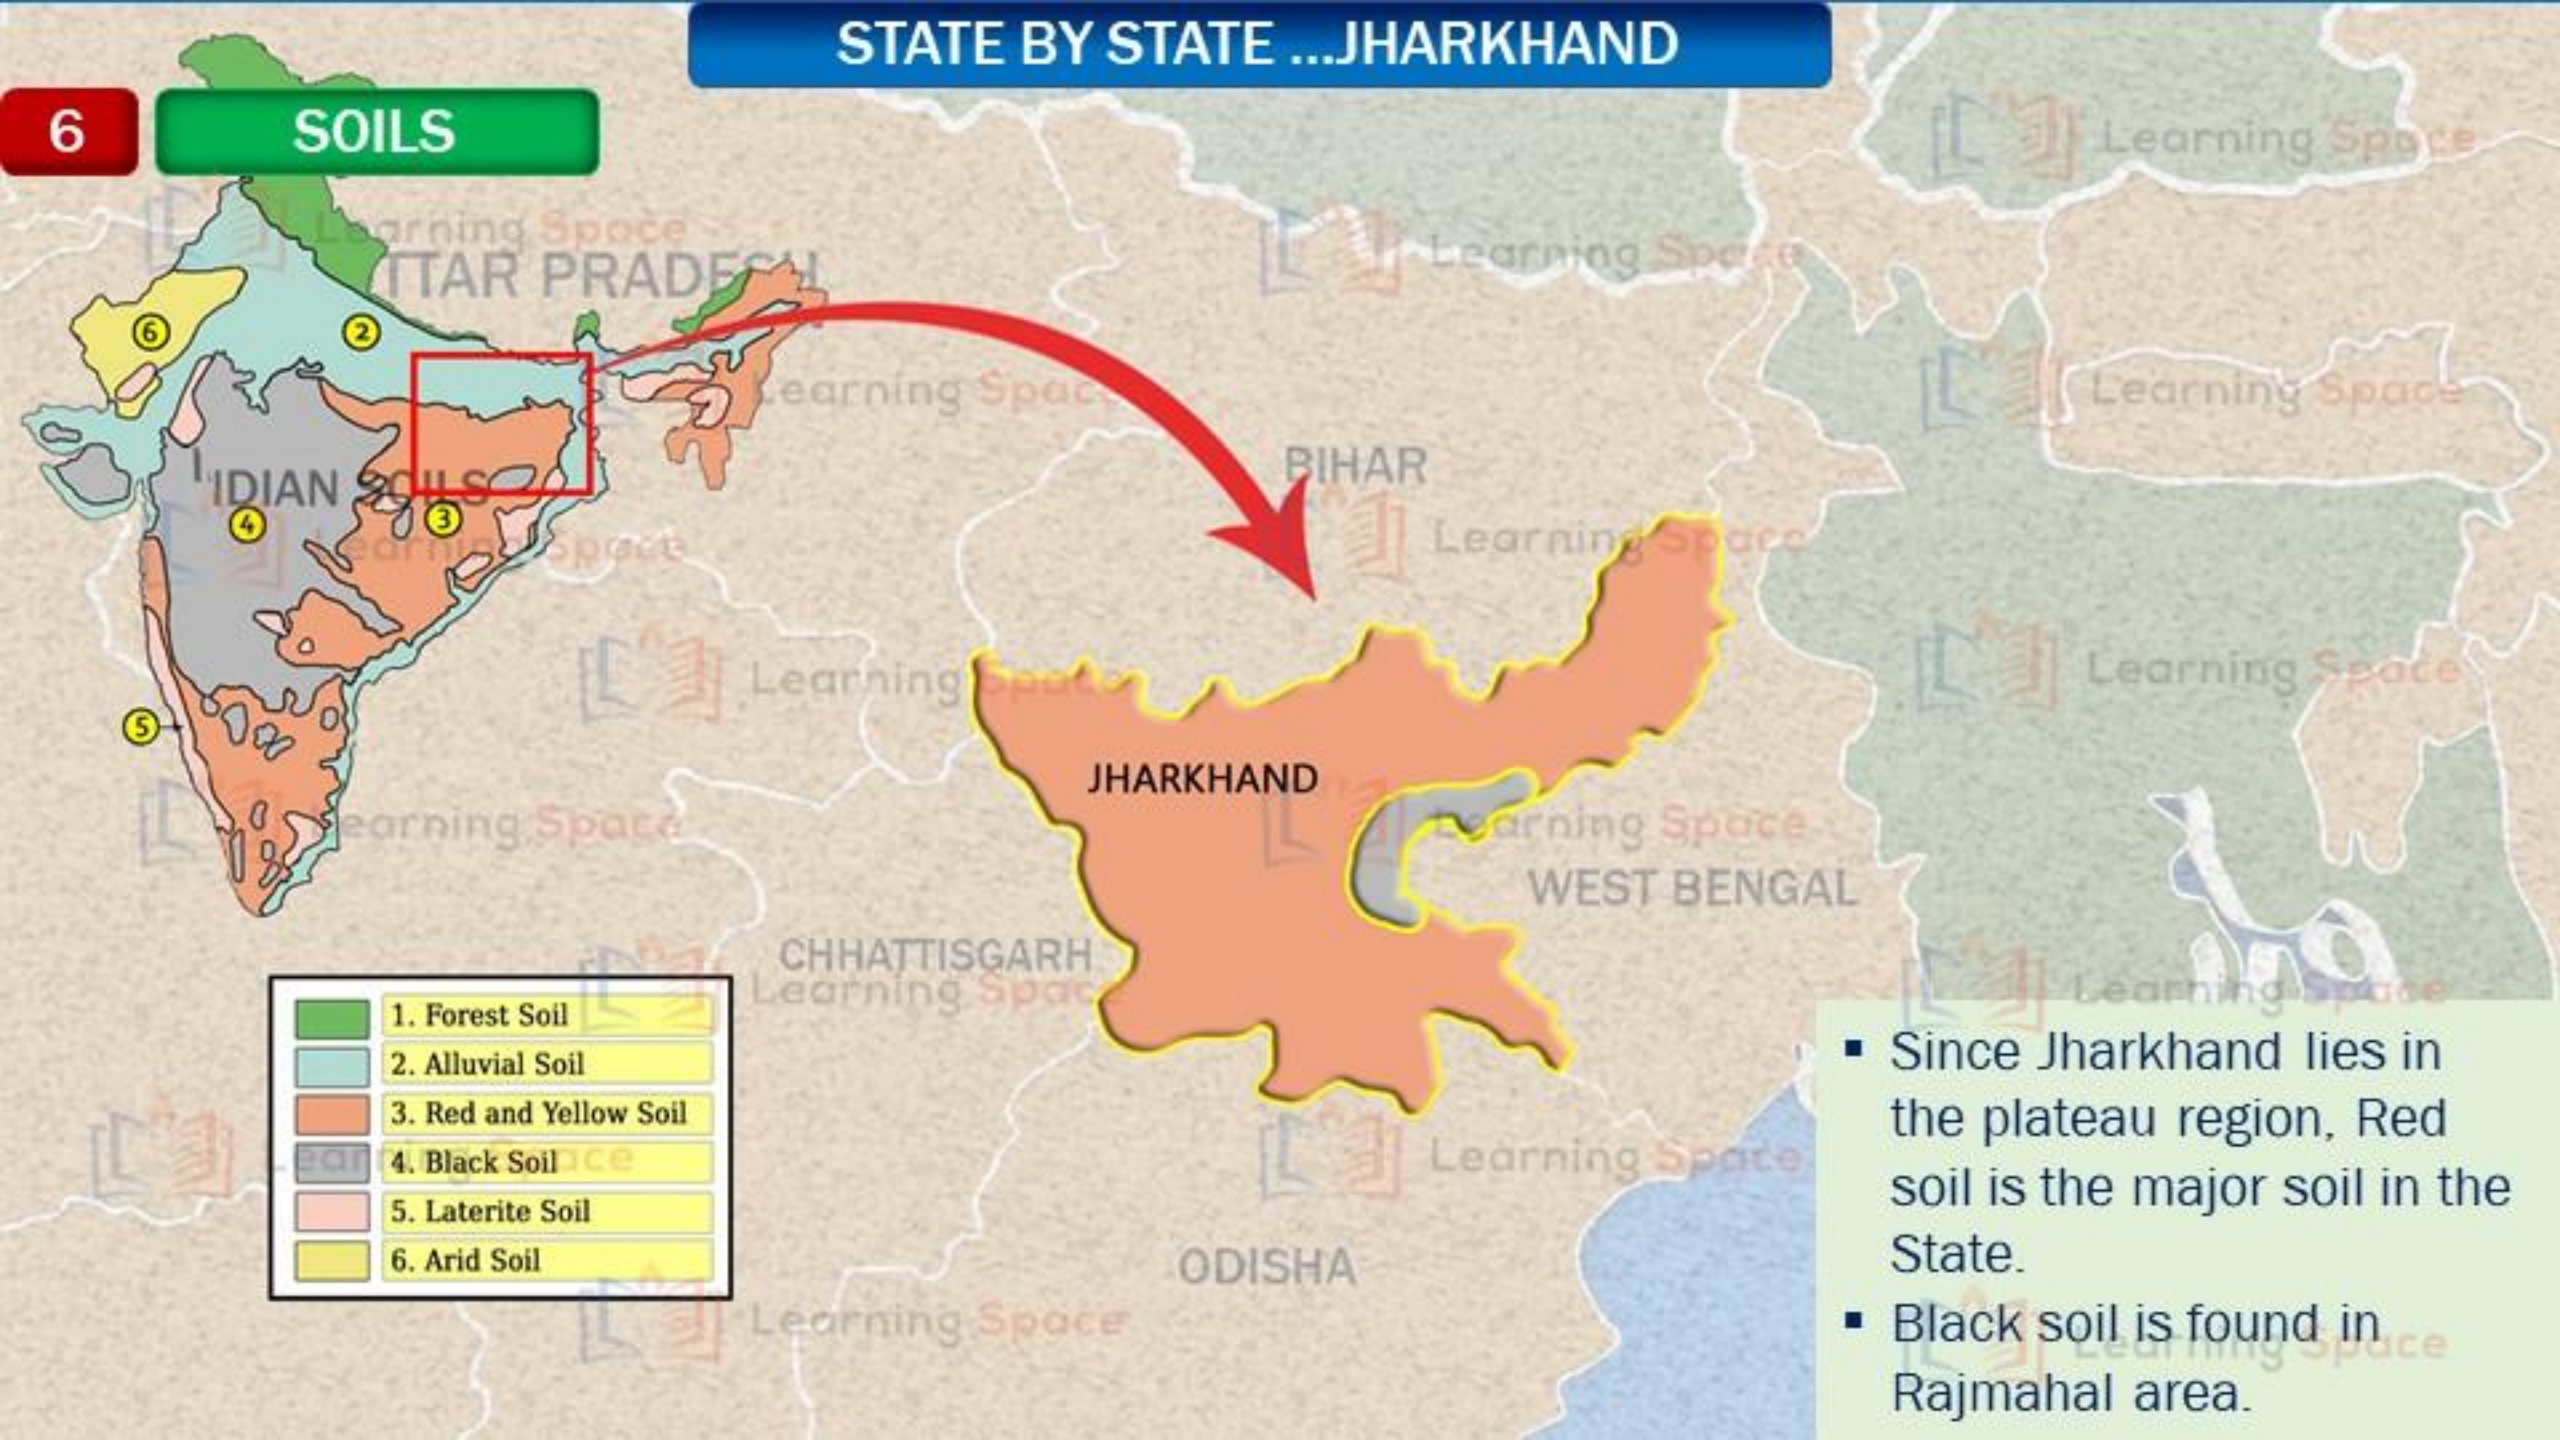

- Maithon Dam - Barakar river
- Tenughat Dam - Damodar river
- Konar Dam - Konar river
- Panchet Dam - Damodar river
- Tilaya Dam - Barakar river
- Getalsud Dam - Damodar river

- Maithon dam on Barakar river has an underground power station which is first of its kind in Asia.
- Tilaiya Dam, Panchet Dam, Konar dam, Maithon dam are the four multi-purpose dams of the Damodar Valley Corporation.

STATE BY STATE ...JHARKHAND

6

SOILS

- Since Jharkhand lies in the plateau region, Red soil is the major soil in the State.
- Black soil is found in Rajmahal area.

- Jharkhand experiences a Tropical Monsoon climatic.
- Tropic of Cancer cuts across the state passing through the middle of the Ranchi City.
- Southwest monsoon which starts from mid-June to October brings nearly all the State's annual rainfall.
- Rainfall is high in the southwest part of the State and decreases as we move towards North.
- Rainfall on the plateaus is generally heavier than on the plains

STATE BY STATE ...JHARKHAND

8

MAJOR CROPS

- Monocropping is a prominent feature of Jharkhand agriculture
- Rice is the major food crop of the state, covering 80 per cent of the cropped area.
- Maize, Pulses, wheat, oilseeds, fruits are other major crops.

CHHATTISGARH

- Jharkhand is the largest producer of tasar silk (non-mulberry silk) in the Country with 76.4% share in the total output.
- Irrigation mechanisms are poor in the State. Hence agriculture dependence on rainfall is high

ODISHA

TR - TIGER RESERVE

- Palmau TR forms part of Betla National Park and Palamau Wildlife Sanctuary.
- Situated in Latehar district, it is the only Tiger reserve in Jharkhand
- Tiger population is extremely scarce in the Tiger reserve
- Counting of tigers is extremely difficult in the reserve due to Naxalite activities
- As per Tiger census 2019 by NTCA, no tigers were found in Palmau TR.

ELEPHANT RESERVES

UTTAR PRADESH

BIHAR

JHARKHAND

WEST BENGAL

CHHATTISGARH

SINGHBHUM ELEPHANT RESERVE

ODISHA

- Singbhum ER belongs to East Central Landscape.
- Singbhum is the first elephant reserve in the country created under the Project elephant in 2001.
- Spread over East and West Singbhum and Saraikela-Kharsawan districts
- Dry Deciduous forests of the reserve forms an ideal habitat for Wild Asiatic Elephants.

PAITKAR PAINTINGS

- Practiced by tribal people of Jharkhand.
- One of the ancient scroll paintings.
- Has cultural association with Ma Mansa, most popular goddess in Jharkhand tribal household.
- Paintings are linked to social and religious customs including giving alms and holding yajnas.
- Common theme of Paitkar paintings is 'What happens to human life post death'.

CHHAU

- Saraikella Chhau is one of three main styles of Chhau practiced in Jharkhand.
- Saraikella Chhau style uses masks during performance.
- Recognized as UNESCO Intangible Cultural Heritage.

ALKAP

- Dance-drama performance popular in Rajmahal hills region.
- Performed by troops of 10-12 dancers accompanied by one or two lead singers known as Gayens.
- Dance is associated with the Gajan festival of Shiva.
- Dance is interspersed with comical sketches known as Kap.

SARHUL FESTIVAL

- Celebrated by the Munda, Oraon and Ho tribes.
- New Year festival of Tribes celebrated in Spring season.
- Sarhul literally means 'Worship of Sal'.
- Mother Earth is worshipped as part of festival.
- Celebrated for several days and Sarhul dance accompany it.

ASURS

- Belong to Austro-Asiatic ethnic group
- Traditionally iron-smelters but now shifted to agriculture.
- Asur society divided into 12 clans and named after different animals, birds and food grains.

BIRHOR

- Birhor means jungle people - bir means jungle, hor means men
- Speak Birhor language
- Belongs to Munda group
- Nomadic gathering and hunting monkeys is their main occupation

BIRJIA

- People of this tribe are called Bijori
- Mainly live in Jharkhand and few in Chhattisgarh
- Live in the interiors of forests

KHARIA

- Sub-divided into three groups-Hill Kharia, Delki Kharia and Dudh Kharia.
- Among them Hill Kharias are PVTG's.
- First two groups speak Austroasiatic language Kharia.
- But Hill Kharia have switched to Indo-Aryan language, Kharia Thar

MAL PAHARIA

- Found in Jharkhand, Chhattisgarh, W.B
- Speak corrupted form of Bengali among themselves and Hindi with others.
- Both men and women drink liquor and smoke indigenous cheroots

- Konvas, Parhaiyas, Sauda Paharias, Savar are other PVTG's in Jharkhand.
- Bihar and Jharkhand have same PVTG's

SLOTH BEAR

- **IUCN:** Vulnerable
- Prefer to live mostly in dense forests
- Dalma WLS is home to huge population of Sloth bears
- Face threat of Poaching, loss of habitat.
- Sloth bears were earlier used as means of livelihood by Kalandar community, who train them as objects of entertainment.

SOHRAI-KHOVAR PAINTING

- First GI-Tag of Jharkhand.
- Mural art practiced by tribal women using local, naturally available soils of different colors in Hazaribagh district of Jharkhand.
- Done mostly during local harvest and marriage seasons
- Earlier practiced only in the district of Hazaribagh and only on mud walls
- However, in recent years it is painted on other surfaces and seen in other parts of Jharkhand too.

2ND MULTI-MODAL CARGO TERMINAL

- Recently 2nd multi-modal cargo terminal was launched in the Country at Sahibganj
- This is 2nd of three Multi Modal Terminals (MMTs) being constructed on River Ganga under Jal Marg Vikas Project.
- Previously first MMT was launched at Varanasi, Uttar Pradesh.
- Aids in transportation of domestic coal from local mines located in Rajmahal area (in Sahibganj district) to other thermal power plants located along National Waterway-1 (NW-1).
