REGIONS

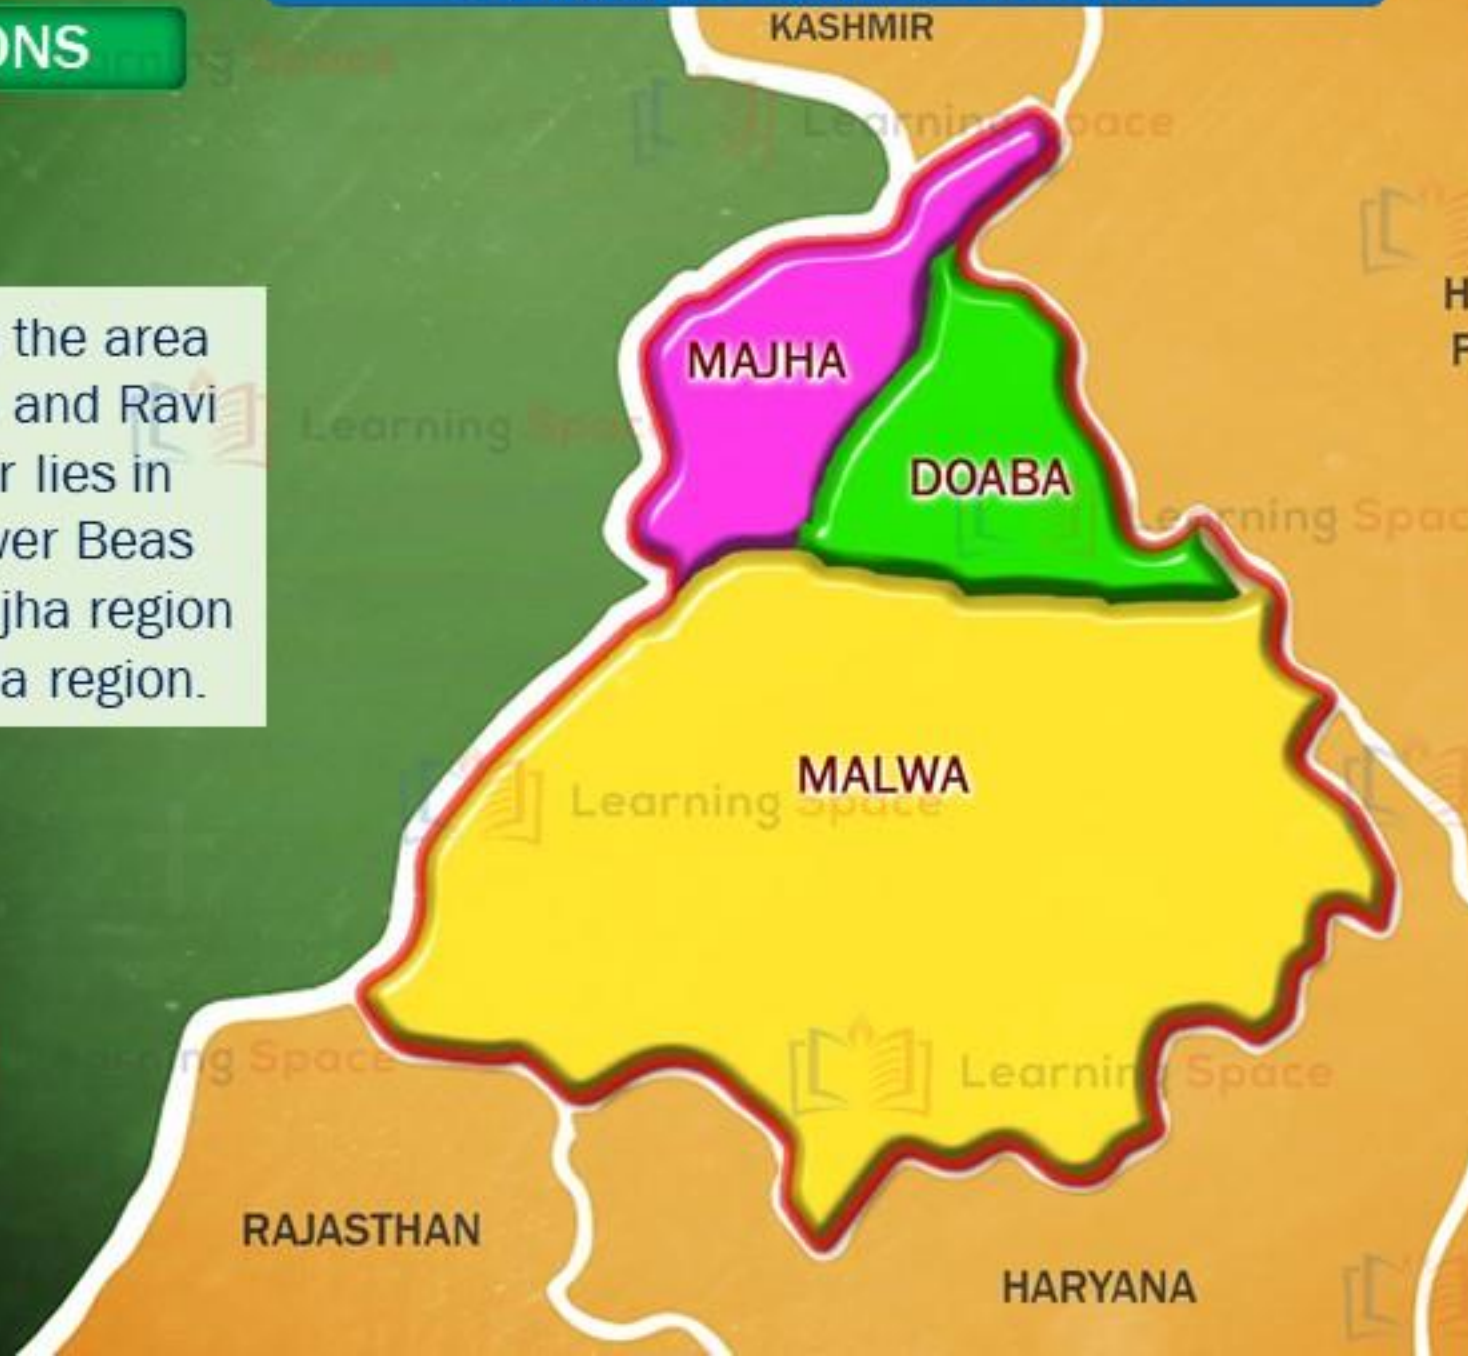

- **Majha:** Covers the area between Beas and Ravi rivers. Amritsar lies in this region. River Beas separates Majha region from the Doaba region.

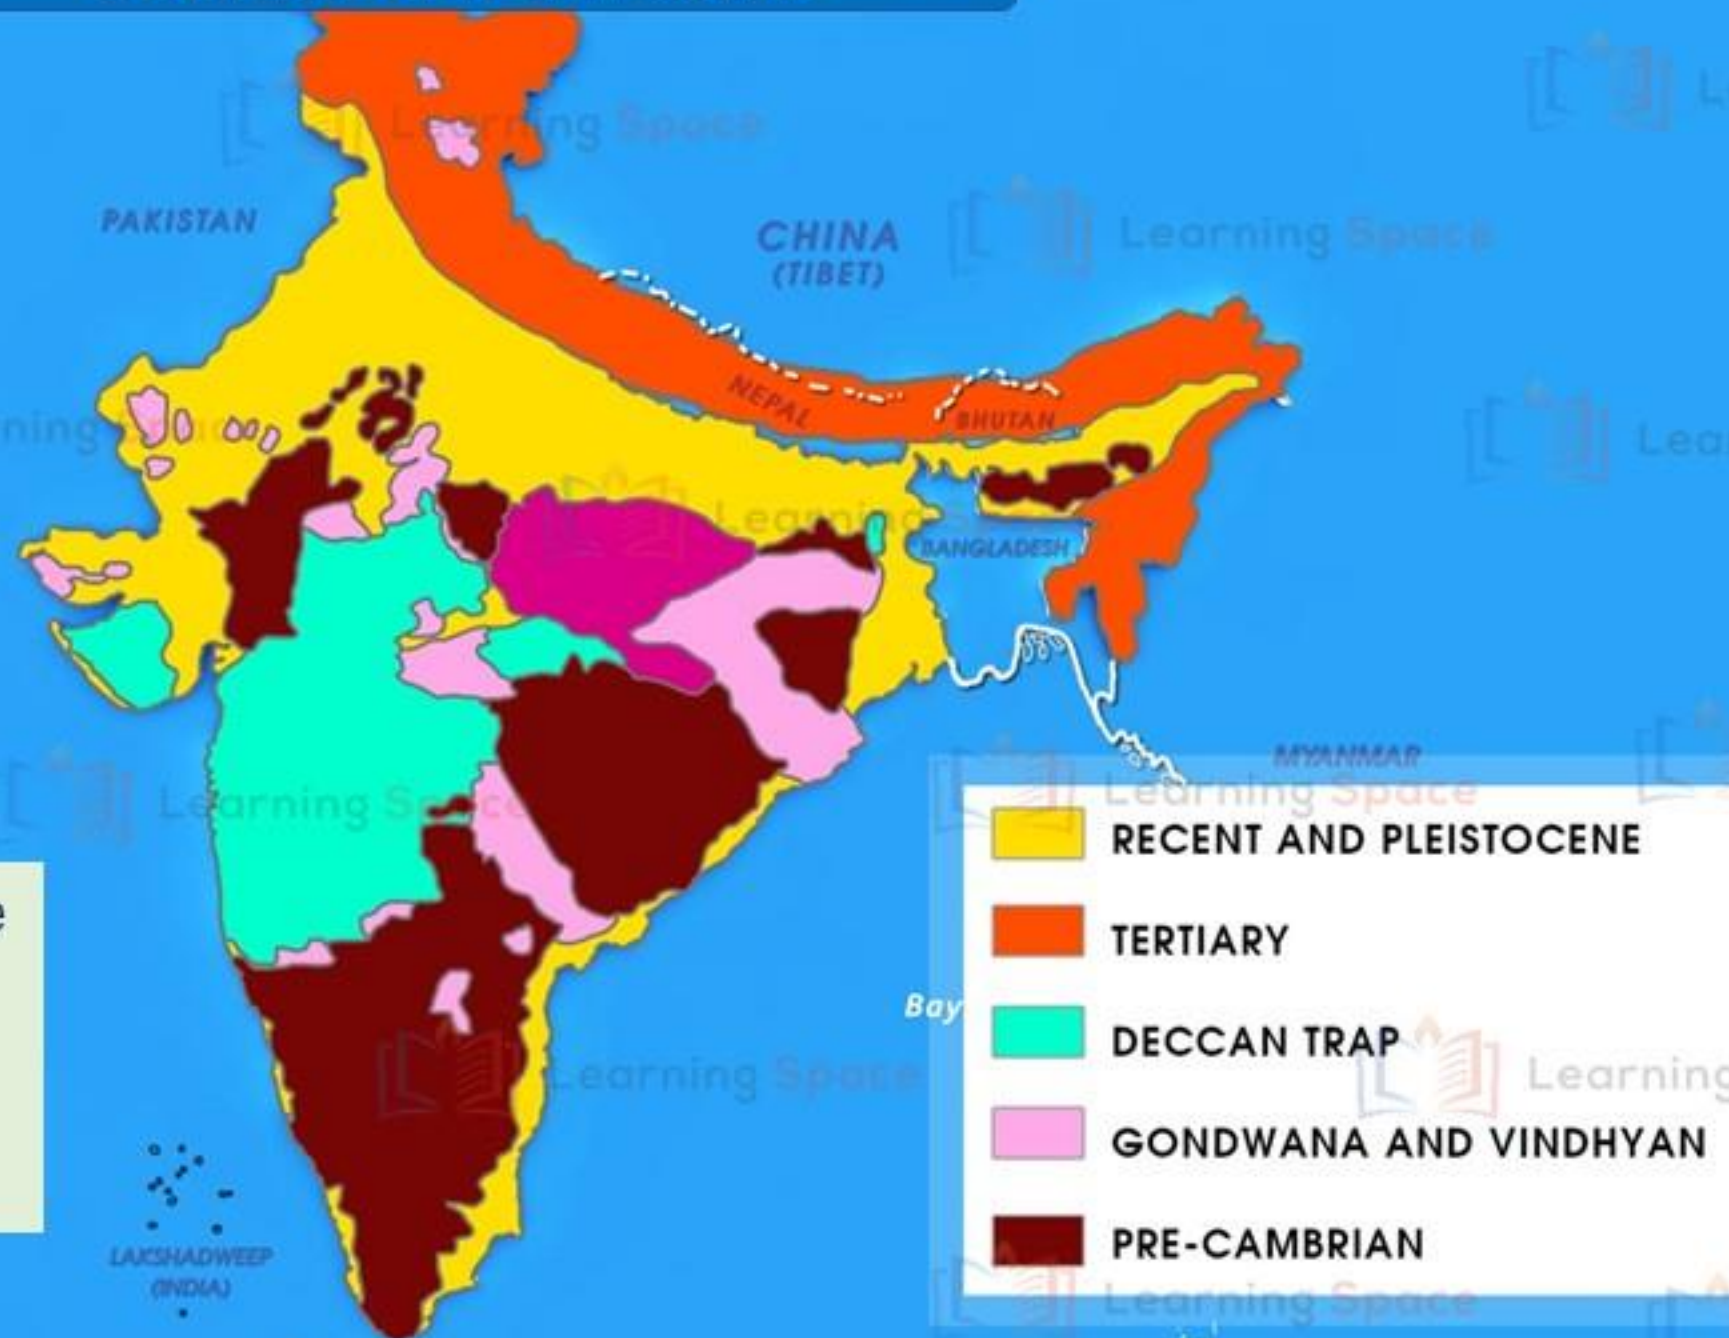

- Punjab State is divided into three regions:

- Majha
- Doaba
- Malwa

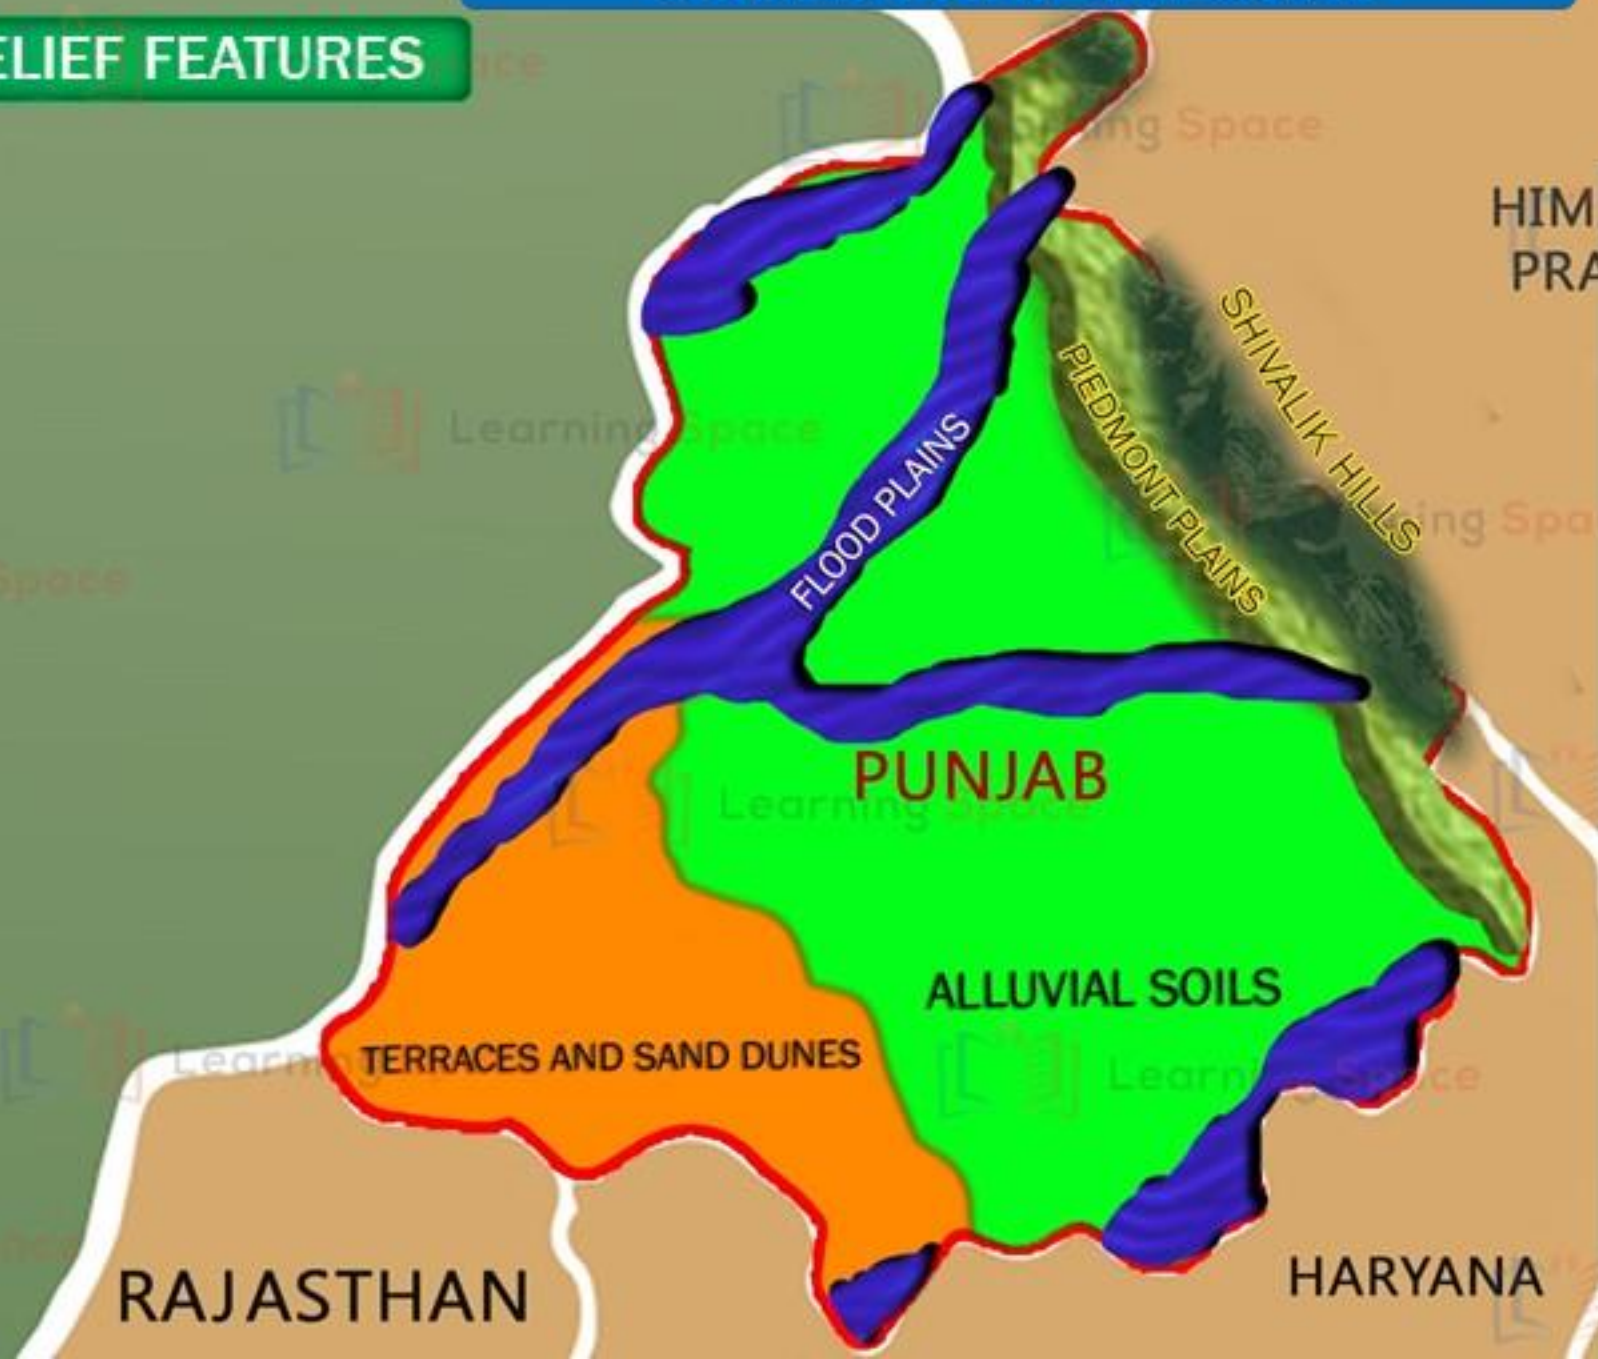

- **Doaba:** Also known as Bist Doab, it is the region that lies between the Beas River and the Sutlej River.

- **Malwa:** Lies to the South of state, it is the region between Sutlej and Yamuna rivers.

- Rocks of the earliest part of the Cambrian Period are found in south east Punjab.
- Most of the Punjab has Pleistocene deposits.

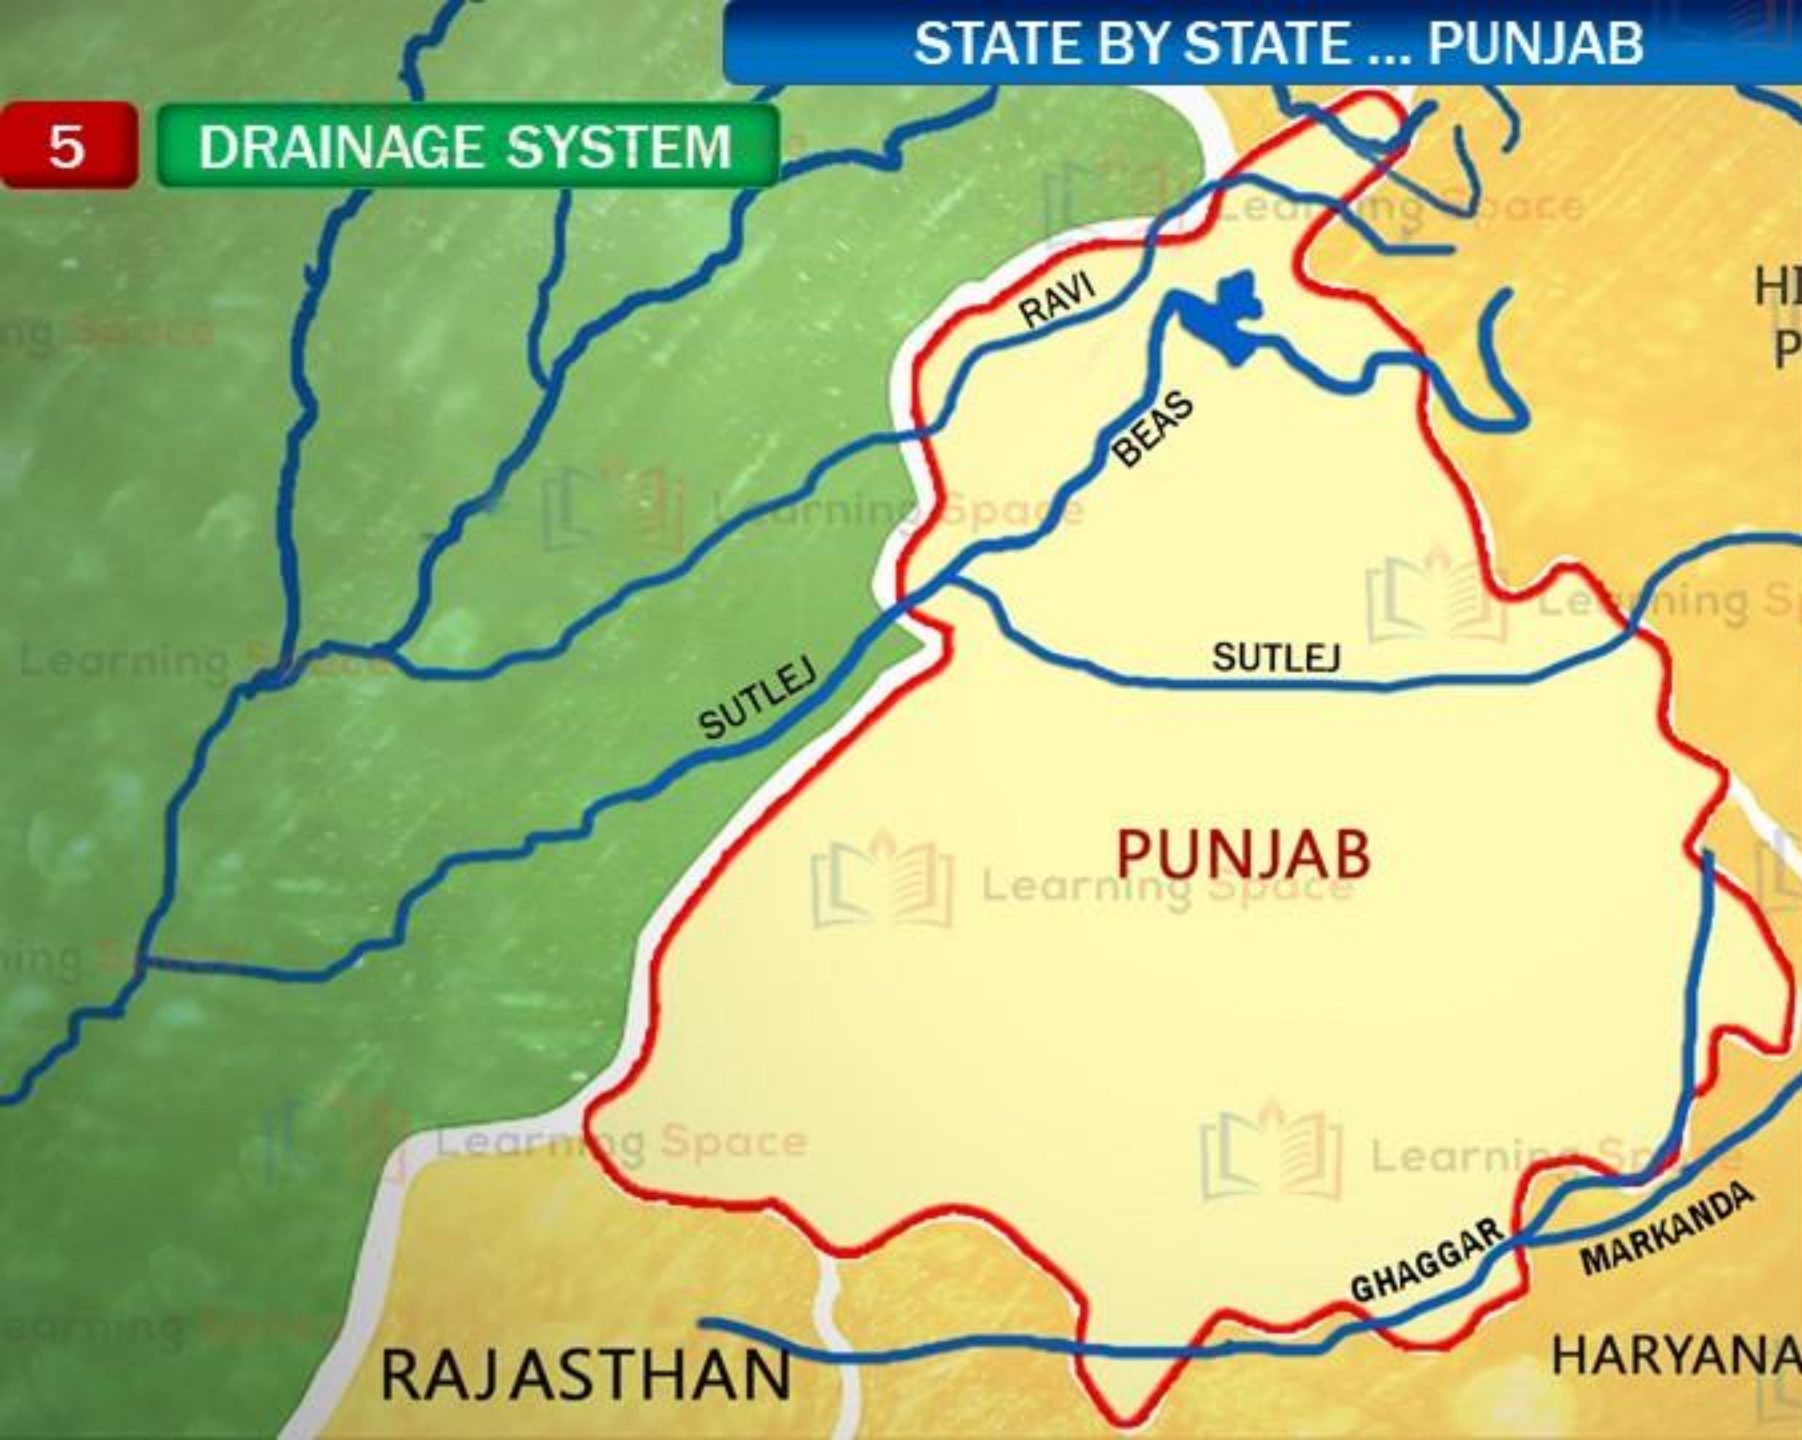

- Shiwalik hills extend along the Northeastern part of the state at the foot of the Himalayas.
- A ravine ridden belt exists in the area bordered by Shiwaliks called Kandi area. This area is a Bhabhar or a piedmont plain
- Southwest part of the state is arid and merges with the Thar desert
- Major area of the State is covered by the flood plains formed by Indo-Gangetic river system.

STATE BY STATE ... PUNJAB

5

DRAINAGE SYSTEM

- Only 3 rivers(Beas, Ravi, Sutlej)pass through the State.
- As per IWT, 1960, Ravi , Sutlej and Beas (Eastern Rivers) were allocated to India for exclusive use

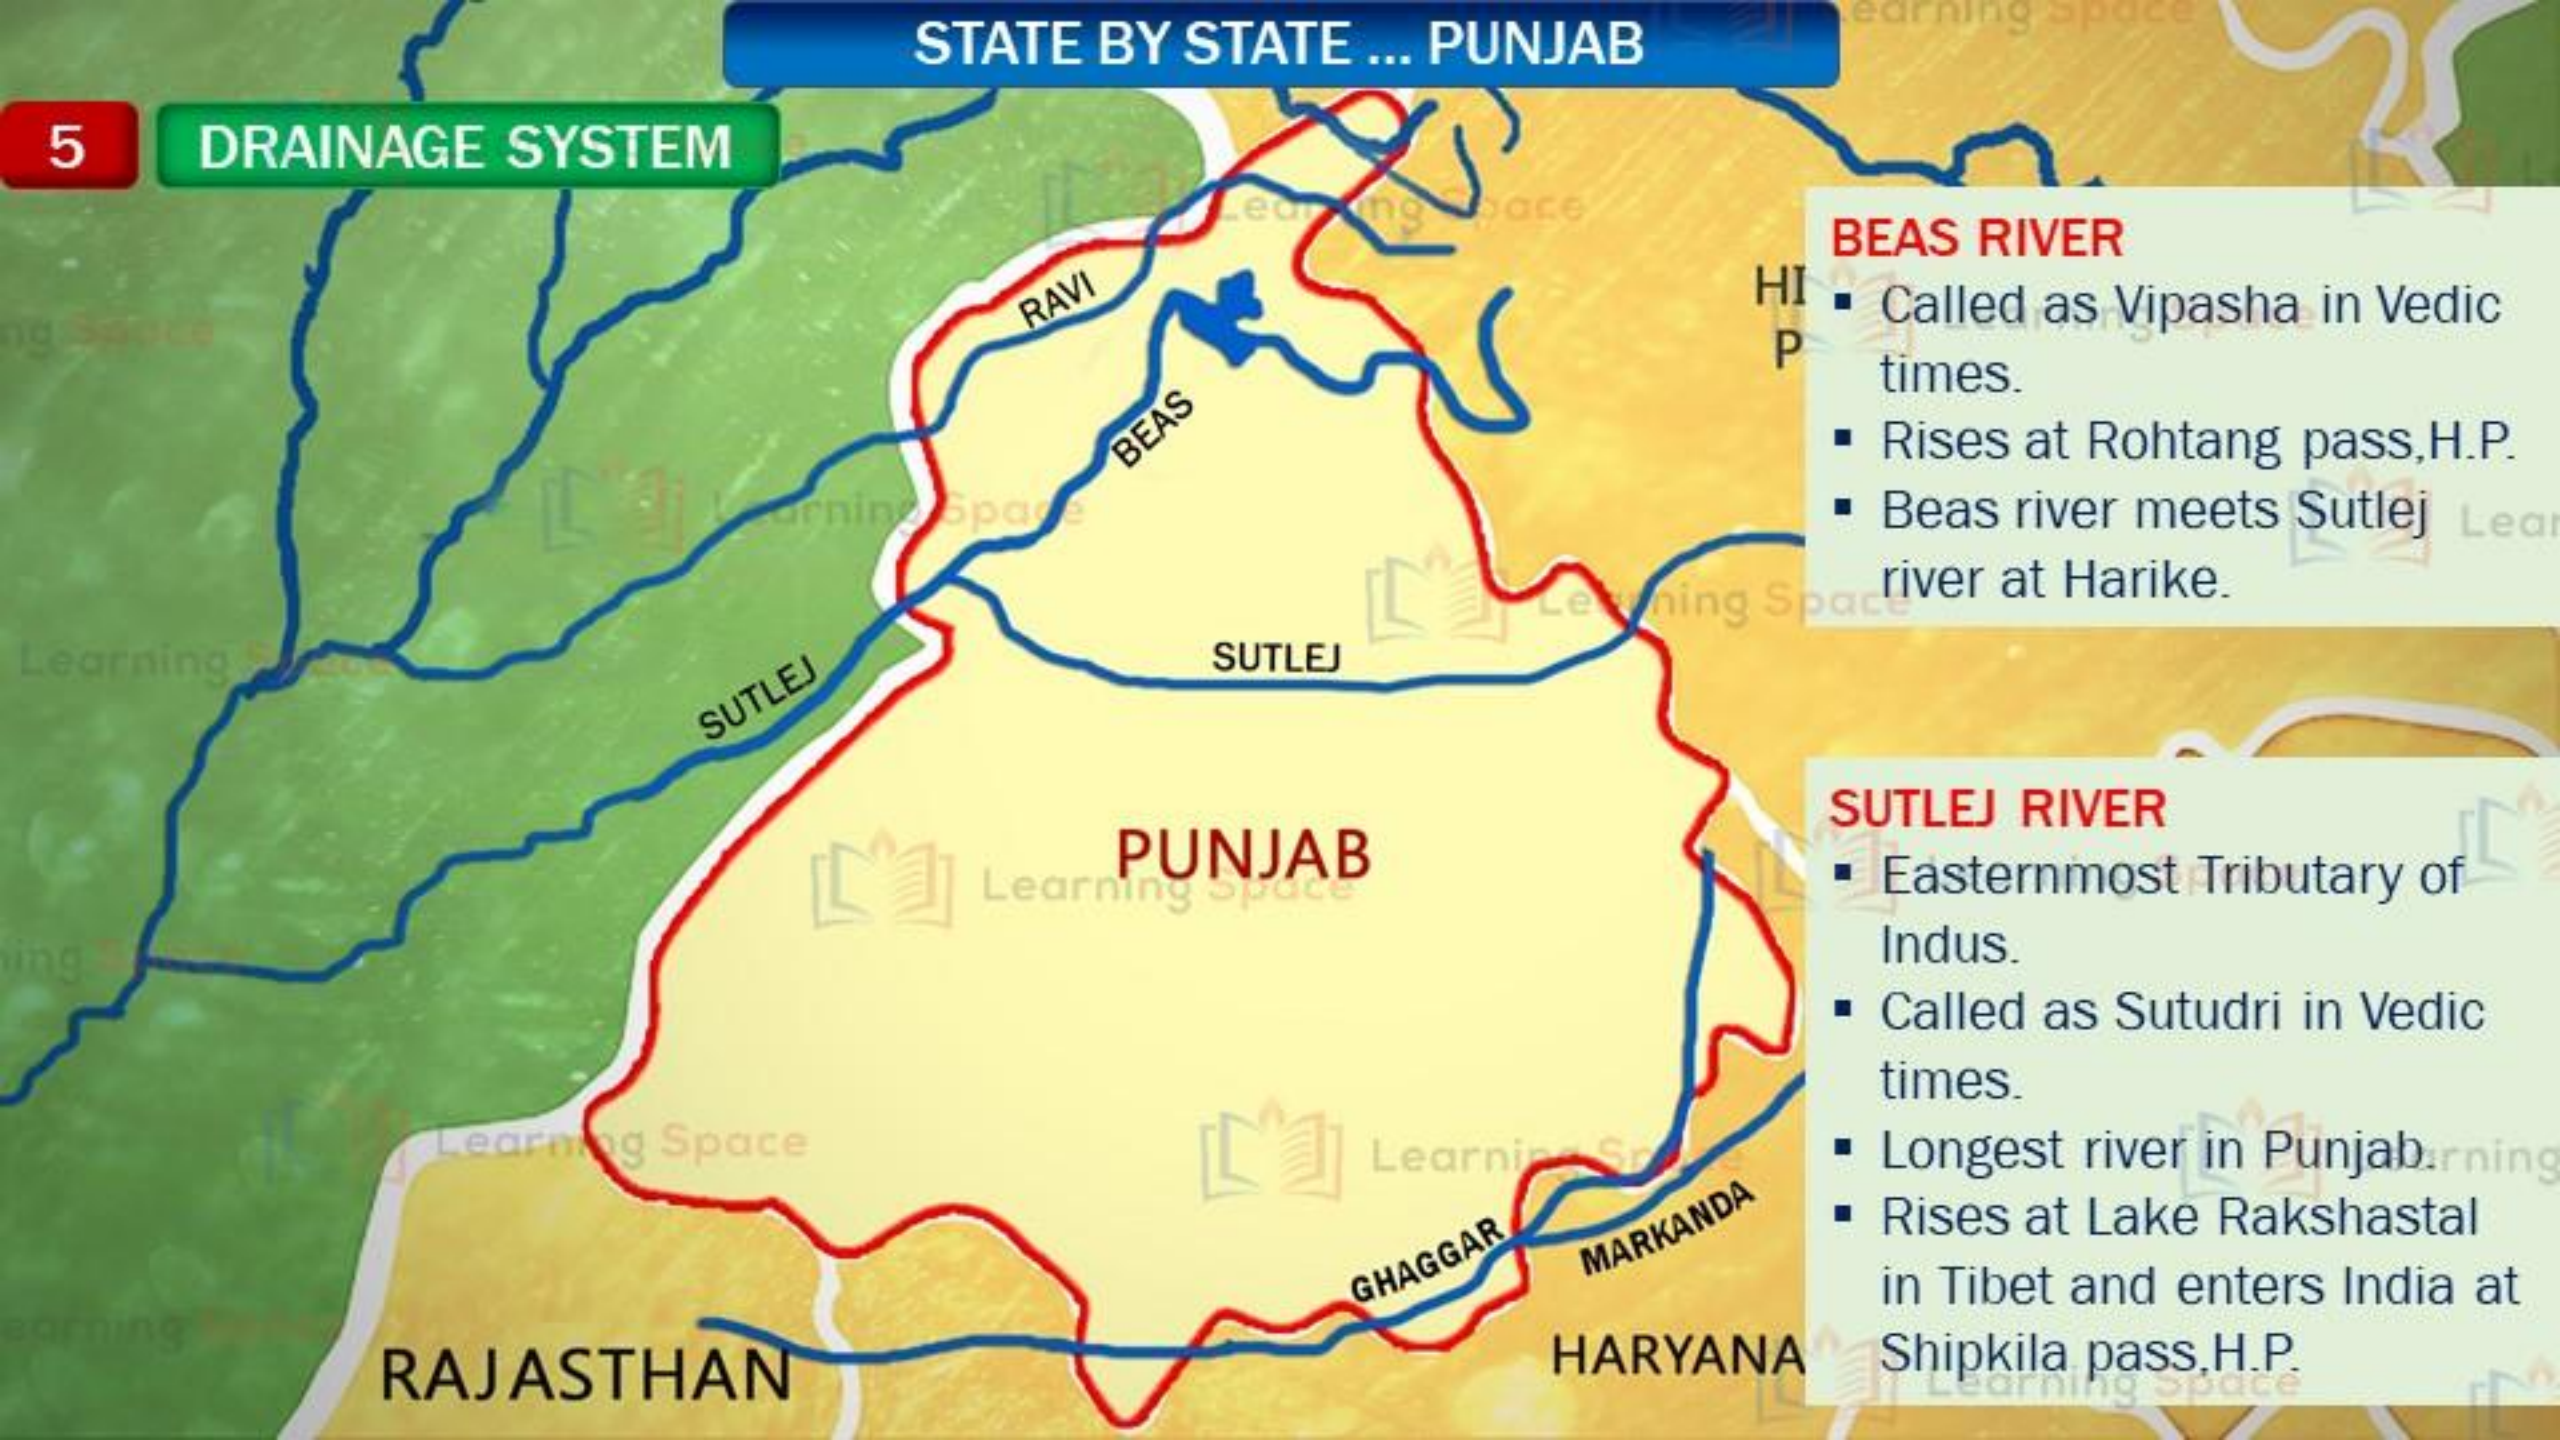

RAVI RIVER

- One of 6 Indus river systems.
- Called as Parushni in Vedic times.
- Rises at Bara Bhangal in H.P.
- Flows through H.P,Punjab into Pakistan and drains into Arabian Sea.
- Smallest river in Punjab.

STATE BY STATE ... PUNJAB

5
