

INTERNAL SECURITY

MODULE - 10

SOURCES OF FUNDING AND LINKAGES WITH ORGANIZED CRIME

- Extortion from Government projects as well as from corporate companies.
- Most of the time, it is in the form of protection money.
- Resort to kidnapping and killings- also to terrorise the rich people.
- Most intense in areas rich in natural mineral resources.

NAXALITES ARE NOT REALLY THE MESSIAHS OF THE DOWNTRODDEN!

- It appears that Naxalites are fighting for the rights of poor people and want to establish a people's Government, while the facts are quite contrary.
- Social uplifting of the downtrodden is not their real aim.
- Their end game is clearly the seizure of power through violent means.
- Maoists have vested interest in keeping poverty alive.
- The local population very soon realises that they have been used by the Naxalites.

But, at times, it is too late and the locals are forced to support them.

GOVERNMENT'S APPROACH TO DEAL WITH LWE

SECURITY RELATED EXPENDITURE SCHEME (SRE)

- It is a sub scheme of the Umbrella Scheme of MPF, for a period of 3-years till 2020.
- Here, the Central Government reimburses the money spent over SRE to the State Governments of 11 LWE affected areas.
- Rs. 212 crore have been released in the current financial year as on 31.12.2019.

MORE ON SRE!

- MHA had categorized 106 districts in 10 states as LWE affected which are covered under the SRE for the purpose of reimbursement of security related expenditure like transportation, communication, hiring of vehicles, stipend for surrendered Maoists, temporary infrastructure for forces etc to the states.
- 35 districts were categorized as 'Most Affected Districts'.
- The geographical area of the 106 SRE districts to be spread over 126 districts and that of the 35 most affected districts to be expanded to 36 districts.
- 90 districts in 11 States will now be covered by the Scheme, down from 126. The list of 'Most Affected Districts' has been pruned to 30, down from 36.

SAMADHAN STRATEGY

It is a strategy of MHA to frame short term and long term policies to tackle LWE.

LEFT WING EXTREMISM

New Operational Doctrine '**SAMADHAN**' enunciated to tackle LWE menace:

**S
A
M
A
D
H
A
N**

SMART POLICING AND LEADERSHIP

AGGRESSIVE STRATEGY

MOTIVATION AND TRAINING

ACTIONABLE INTELLIGENCE

DASHBOARD FOR DEVELOPMENT AND KEY PERFORMANCE INDICATORS

HARNESSING TECHNOLOGY FOR DEVELOPMENT AND SECURITY

ACTION PLAN FOR EACH THEATRE

NO ACCESS TO FINANCING

SPECIAL INFRASTRUCTURE SCHEME (SIS)

- It is a sub scheme of the Umbrella Scheme of MPF, for a period of 3-years till 2020.
- The main objective of the scheme is to fill the critical gap in public infrastructure and services.
- The total outlay of the scheme is Rs. 1006.00 crore i.e. Rs. 604 crore as Central Share (60%) and Rs.402 crore as State share (40%).

SCHEME OF FORTIFIED POLICE STATIONS

- The Ministry had sanctioned 400 police stations in LWE affected states.
- Of these 399 of PSs have been completed.

MEDIA PLAN

- It is a sub scheme of MPF.
- The Maoists have been misguiding and luring the innocent tribals/local population in LWE affected areas by their so-called poor-friendly revolution through petty incentives or by following their coercive strategy.
- Their false propaganda is targeted against the security forces and the democratic setup.
- Therefore, the Centre is implementing this scheme in LWE affected areas.
- Under the scheme activities like Tribal Youth Exchange programmes organised by NYKS, radio jingles, documentaries, pamphlets etc. are being conducted.

GOVERNMENT'S APPROACH TO DEAL WITH LWE

ROAD REQUIREMENT PLAN-I FOR LWE AFFECTED AREAS

- This scheme is being implemented by **Ministry of Road Transport & Highways** for improving road connectivity in 34 LWE affected districts of 8 states i.e. Andhra Pradesh, Bihar, Chhattisgarh, Jharkhand, Madhya Pradesh, Maharashtra, Odisha and Uttar Pradesh.
- This scheme envisaged construction of 5,422 km roads lengths in LWE affected States, of which 4,868 km roads have been completed by 30.11.2019.

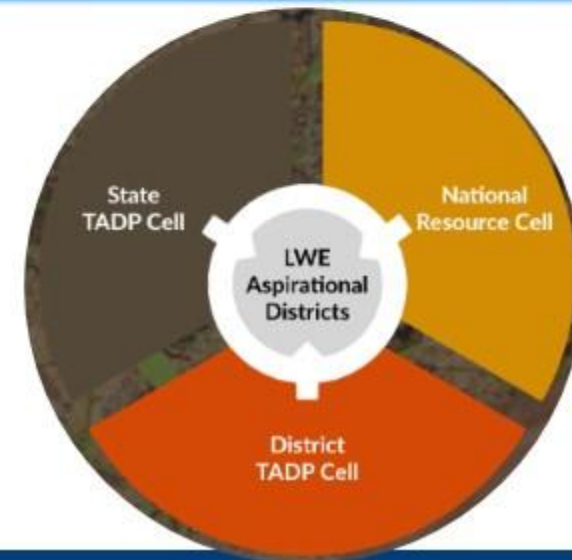

ROAD CONNECTIVITY PROJECT (RPP-II)

- This scheme is for further improvement road connectivity in LWE affected states.
- **Ministry of Rural Development** is the nodal ministry for this project.

ASPIRATIONAL DISTRICT

The Ministry of Home Affairs has been tasked with the monitoring of Aspirational districts programme in 35 LWE affected districts.

CIVIC ACTION PROGRAMME (CAP)

- It is a subscheme of the MPF scheme
- It is implemented to bridge the gaps between Security Forces and local people through personal interaction and bring the human face of SFs before the local population.
- The scheme has been very successful in achieving its goals.
- At present, the Home Ministry has brought some changes in CAP by adopting an “individual-oriented approach” rather than a “project-oriented approach”.
- Under the project christened “Winning Hearts and Minds”, the CRPF and the BSF have been allocated more funds directed at welfare of the communities like building small bridges, irrigation schemes etc.

LWE MOBILE TOWER PROJECT

- To improve mobile connectivity in the LWE areas, the Government on 20.08.2014 approved installation of mobile towers in LWE affected States and 2335 mobile towers have been installed in Phase-I.
- Phase-II of the project has been approved by the Government of India, under which 4072 mobile towers, involving an expenditure of Rs. 7330 crore, will be installed in LWE affected States.

NATIONAL POLICY AND ACTION PLAN

- **Security related measures** include assistance to LWE affected states by providing CAPF Bus, helicopters, UAVs, construction of fortified police stations, funds for modernisation of State Police forces, arms and equipment, training assistance, sharing of intelligence etc.
- **Development related measures:** development of roads, installation of mobile towers, skill development, improving network of banks and post offices, health and education facilities
- **Rights and Entitlements related measures**

ADMINISTRATIVE HURDLES IN DEALING WITH LEFT WING EXTREMISM

- 1** Poor infrastructure, lack of communication and shortage of trained manpower are key problems in fighting with Maoists.
- 2** There is clear absence in routine administration in these areas which allows Maoists to run camps, collect taxes and extort money.
- 3** Interstate boundaries are fissures which are being exploited by Maoists.
- 4** Lack of professionalism and proper understanding between central forces and state police.
- 5** Differences in policies of state governments regarding surrenders, talks and policing strategy are also exploited by the Maoists. Eg: Operation Greyhound in Andhra Pradesh
- 6** Besides this, since many rebels are recruited from among the tribals, they have a built-in advantage over the security forces.
- 7** The state police is poorly equipped and trained and is short of manpower, while the central forces apparently lack commitment and motivation.

ADMINISTRATIVE HURDLES IN DEALING WITH LEFT WING EXTREMISM

6 Skilful in preparing and employing Traps and IEDs.

5 Adept in snatching Arms and ammunition from the security forces

4 Tough, agile with hunter's instinct and highly motivated

1 Public support (eyes and ears)

2 Familiar with Jungle terrain

3 Effective cross-country mobility

ADMINISTRATIVE HURDLES IN DEALING WITH LEFT WING EXTREMISM

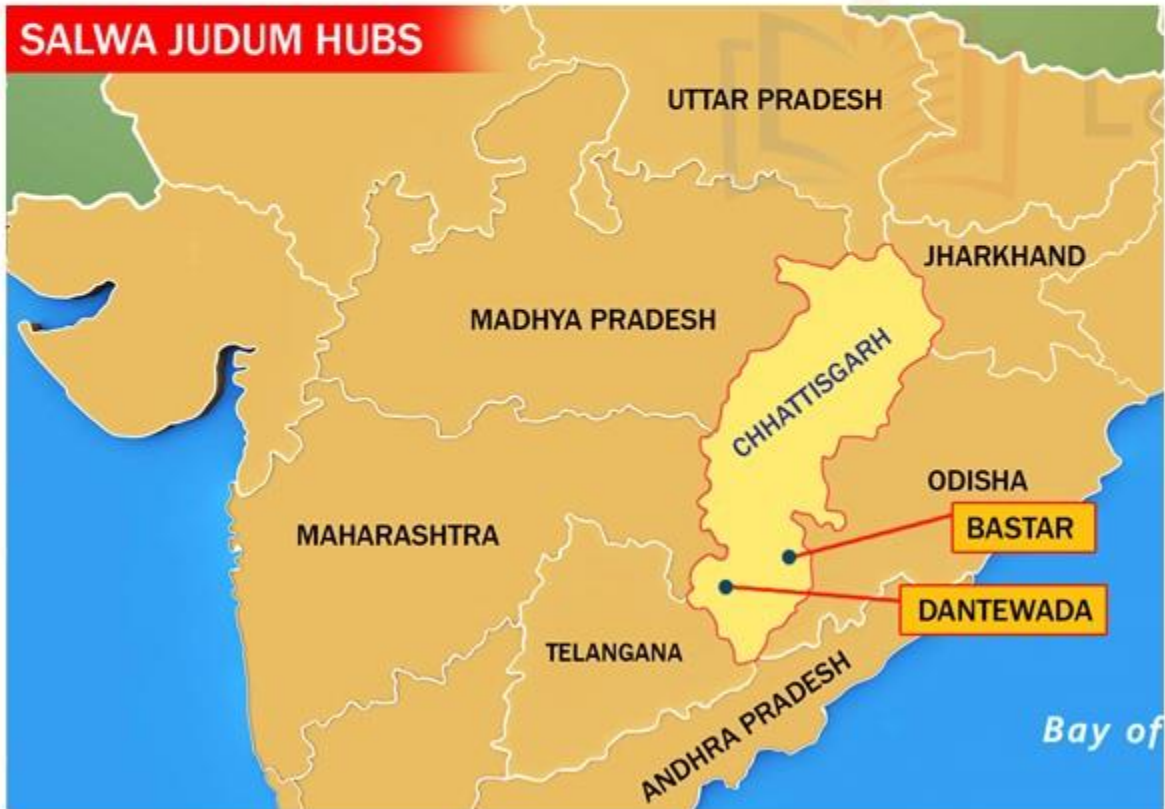

INTELLECTUAL SUPPORT TO NAXALISM

- 1 Influential intellectuals regularly support Naxalism in the name of advocating an egalitarian society, human rights and tribal rights.
- 2 They condemn security forces for human rights violation but surprisingly adopt a noble silence when Naxalites brutally kill security forces, politicians and common people. It clearly reflects their double standards.
- 3 Rather than supporting Naxals blindly, these intellectual should encourage Naxal to fight elections, to join mainstream society and to learn the art of give and take democratic bargaining without aggression.

WHAT WAS SALWA JUDUM AND WHY IT FAILED?

- 1 Salwa Judum was a movement in the Bastar area of Chhattisgarh which assumed the form of mass movement against the atrocities committed by Naxalites.

- 2 It literally means collective problem solving platform and it gained momentum because people got fed up with Naxalites intimidation and extortion.
- 3 The administration claims that it was spontaneous, peaceful and a voluntary case of public uprising against the Maoist movement.
- 4 The Naxalites never wanted the Salwa Judum movement to succeed in Bastar because they were hounded by the Greyhounds force of Andhra Pradesh and Bastar was their biggest bastion.
- 5 They established their people's Government in Dandakaranya Zone.
- 6 This is an area of immense strategies and geopolitical importance for Naxalites.

WHAT WAS SALWA JUDUM AND WHY IT FAILED?

STRATEGIES ADOPTED AGAINST SALWA JUDUM

- 1 Firstly, the leadership of this movement was branded anti-people and some key leaders were executed.

- 2 Secondly, the entire propaganda machinery in favour of the Naxalites was ordered to throttle Salwa Judum movement in its infancy.
- 3 Finally, in May 2013, senior Congress leader Mahendra Karma, who had supported the movement, was killed mercilessly.
- 4 Surprisingly, the so-called human rights activists and intellectual supporters of Naxalites were silent on this killing.

With no support from any quarter, the Salwa Judum movement was killed in its infancy. The use of Salwa Judum by the government for anti-Naxal operations was criticised for its violations of human rights and poorly trained youth for counter-insurgency roles.

STRATEGIES TO OVERCOME LWE

Border Road Organisation

- 10** Special efforts are needed to monitor the implementation of constitutional and statutory safeguards, development schemes and land reforms initiatives.

- 9** Coordination and implementation of various development schemes, flagship programmes and distribution titles under Forest Rights Act.

DEVELOPMENT STRATEGY

- 7** Coordination between police and different state departments

- 8** Coordination and implementation of schemes of different central ministries.

STRATEGIES TO OVERCOME LWE

Operation Greyhound of Andhra Pradesh has shown a professional way to handle the Naxal menace.

STRATEGIES TO OVERCOME LWE

SECURITY STRATEGY

13 Posting of competent and motivated police officers in LWE affected areas and subsequent incentives for choice posting and suitable reward packages.

12 Tightening of control on availability of explosives

11 Promote local resistance groups on lines of village defence committees (VDC)

7 Improvement of communication systems and electronic surveillance systems.

8 Special training to police personnel.

9 Formation of specially trained special task forces on the pattern of the Greyhounds in AP.

10 Special emphasis on strengthening of local intelligence units of the affected states.

STRATEGIES TO OVERCOME LWE

4 Administration to engage with public at large, civil society, NGOs to restore people's faith and confidence in the Government machinery

3 Media and public perception management

PSYCHOLOGICAL OPERATIONS

1 To win the psychological war against the Maoists, it is essential to bridge the trust deficit.

2 Effective and persistent psychological operations must be launched to delegitimise the movement.

STRATEGIES TO OVERCOME LWE

- 5** Better adherence to the law legislated for protection and development of tribals.

- 4** Effective surrender and rehabilitation policy ensuring proper safety and care of their families.

- 1** Choke funding by cutting down the nexus between illegal mining/forest contractors, transporters and extremists.

- 2** There should be genuine attempt to win the hearts and minds of the people.

- 3** Time-bound conviction of arrested cadre must be ensured through vital reforms in criminal justice system.

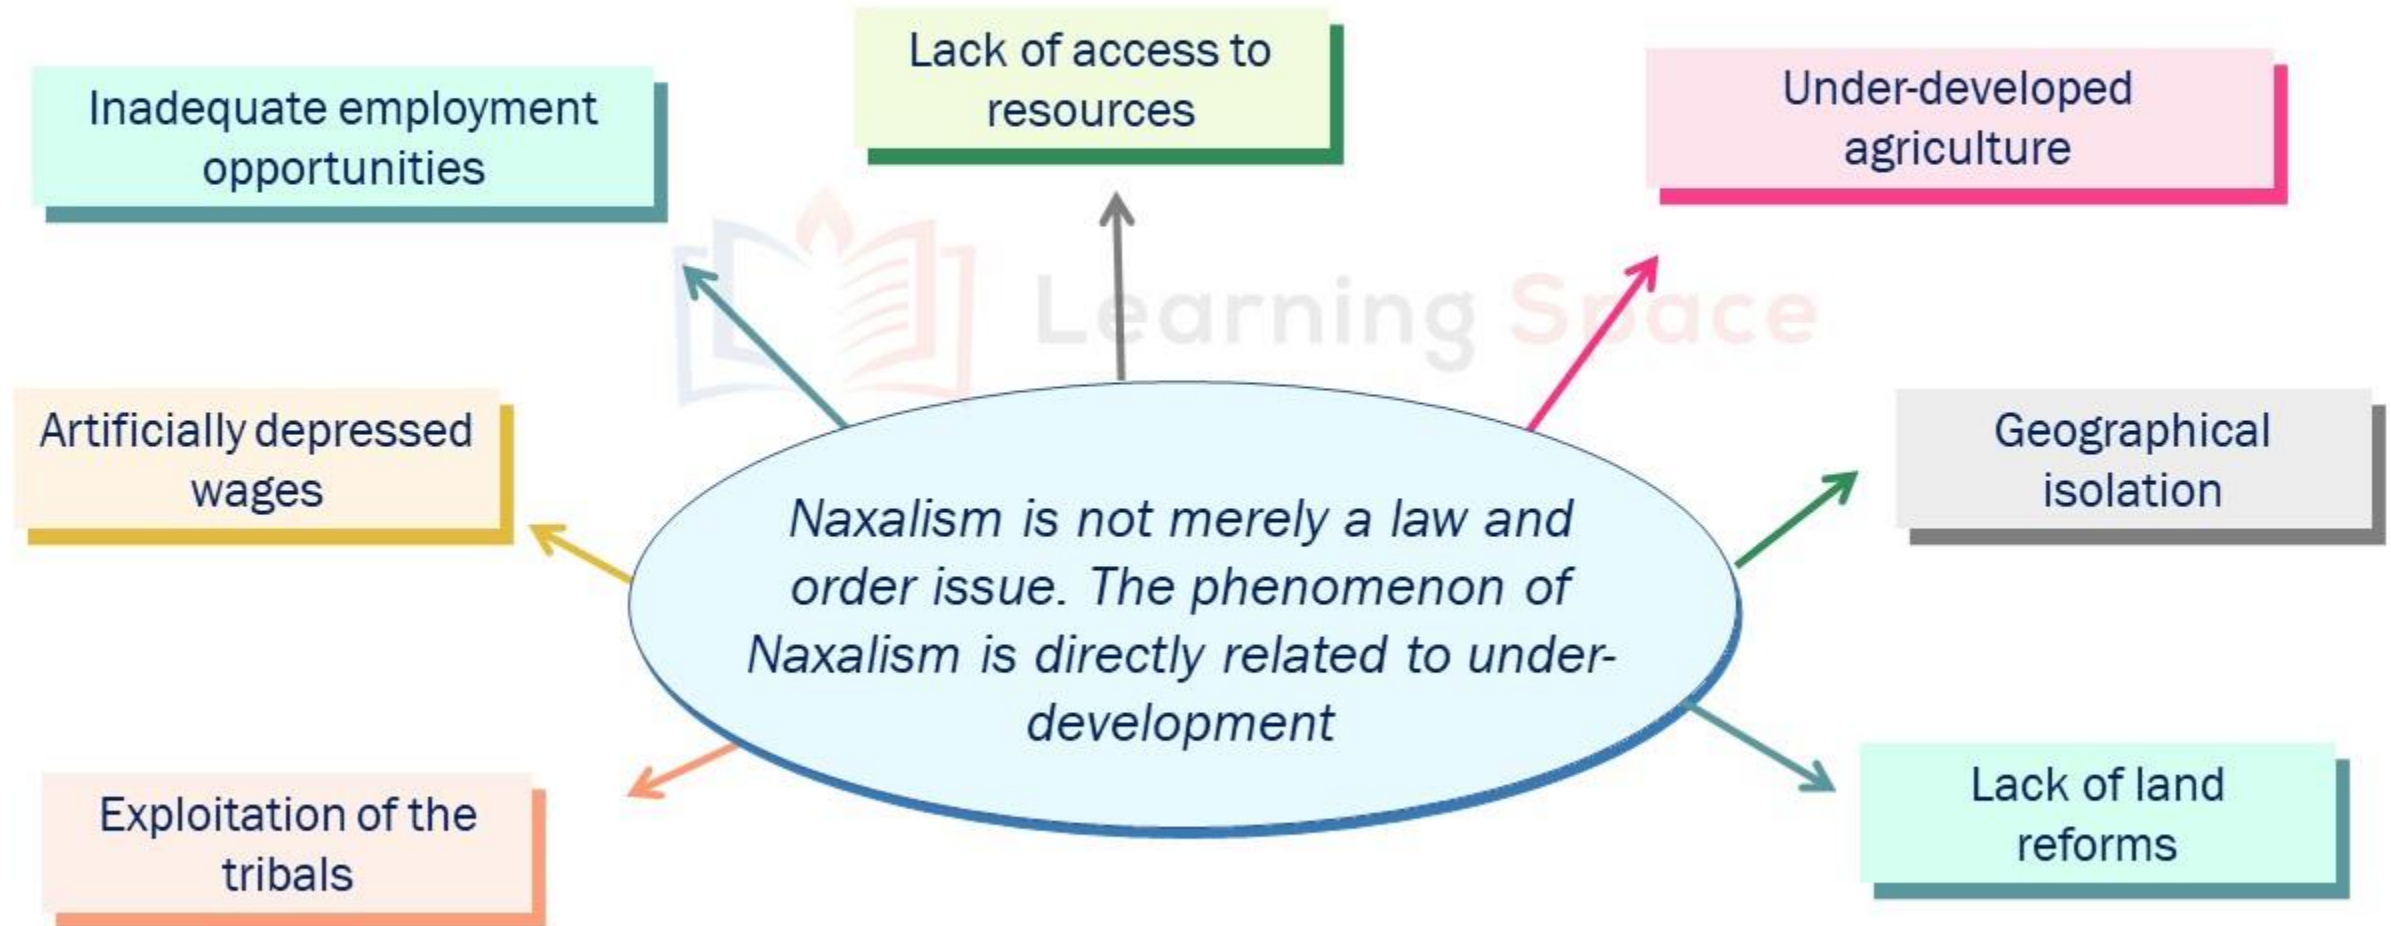

OTHER MEASURES

SHOULD ARMY BE DEPLOYED AGAINST NAXALS?

- 1 The army is trained to fight against an enemy country.
- 2 In fact, the Army is employed to protect its own people.
- 3 The Army is a symbol of national pride. We must ensure that the image of the army is not affected. So, Naxalism has to be fought by the police and other para military forces.
- 4 Also, a complete armed solution is not the only answer to Naxalism. We should give more emphasis on effective administration, development and growth of the affected areas.

WAY FORWARD

CONCLUDING REMARKS

- 1 Naxalism is not the problem; rather it is the symptom of a problem.
- 2 To eliminate Naxalism, it is not enough to eliminate their leaders, imprison their rank and file or arrange for mass surrenders of men and weapons.
- 3 To truly eliminate Naxalism, we must undercut their *raison d'être*, their reason for existence.
- 4 Electricity and running water are virtually non-existent in remote areas of the Red Corridor.
- 5 The absence of basic necessities has produced opportunities for the Naxalites to provide services to local residents, such as irrigation systems.
- 6 The fight against Naxalism has to be long and persistent.
- 7 Developmental initiatives should follow security forces action closely.
- 8 Otherwise, success of security operations will not sustain for long.
