MODULE - 31

Vital : *Extremely important / necessary for success*

301

Example :

Scientists are exploring the possibility of human habitations on Moon and probing the existence of liquid water, which is **vital** for human survival.

Vital : *Extremely important / necessary for success*

301

Example :
Vitamins and minerals are **vital** for healthy living, and hence one should take balanced diet.

Boost : *Increase / improve.*

302

Example :
Massive creation of infrastructure is expected to **boost** the Indian economy in many ways.

Boost : *Encourage / help.*

302

Example :

The Himalayan States, Uttarakhand and Himachal Pradesh, took several measures to **boost** tourism and now tourism exceeded the carrying capacity in these States.

Premature : *Happening especially before the natural or suitable time.*

303

Example :
The baby was born **prematurely** and thus kept inside the ventilator.

Premature : *Happening before the natural or desired time.*

303

Example :
Due to COVID-19, several **premature** deaths occurred across the World.

Subsume : *To include something or someone as part of a larger group.*

304

Example :

Soldiers from many different countries, including India, have been **subsumed** into the United Nations Peacekeeping Force.

Subsume : *To include something or someone as part of a larger group.*

304

Example :
The problem of boredom as a healthcare issue has been **subsumed** under other domains such as depression or fatigue.

Rationalize : *To make a Company or Government more effective, usually combining or stopping particular activities.*

305

Example :
With JAM trinity, the Government **rationalized** various subsidies and it resulted in huge savings to the Government.

Rudimentary : *Basic, not deep / detailed.*

306

Example :
Raju came up with
rudimentary details and hence
his boss scolded him.

Redundant : *Not needed.*

307

Example :
With the evolution of
computers, typewriters
became **redundant**.

Redundant : *Not needed.*

307

Example :
“She is a single unmarried woman”. In this statement, unmarried is **redundant**.

Thaw : *Increase in friendliness between people or countries that were enemies.*

Detente : *Improvement in the relationship between two countries that in the past were not friendly and did not trust each other.*

309

Exacerbate : *To make something worse, which is already bad.*

310

Example :

Section 144 is in force due to religious animosities between two groups and allowing any religious procession may **exacerbate** the situation.

Toll : *Sufferings, deaths or damage.*

311

Example :

As per a recent study by
University of Chicago Energy
Policy Institute, PM 2.5 is taking
a huge **toll** of human lives.

Creating certainty

Healthier inflows from GST offer policy makers the bandwidth to fix its flaws

The Goods and Services Tax (GST), which turns six and a half years old this month, has yielded almost ₹3.4 lakh crore through October and November. While revenues in October marked the second highest monthly collections, November's kitty is the third highest. Both these months also recorded accelerated revenue growth after a sequence of slowing upticks that culminated with September recording a 27-month trough of 10.2%. October's GST inflows were up 13.4% and November's by 15.1%, with revenues from domestic transactions up 20%, the highest in 14 months. Festive fervour surely bolstered last month's nearly ₹1.68 lakh crore of GST revenues, which were based on transactions in October, and that trend may persist this month as well on the back of anticipated last-minute Deepavali spending. Prior to this two-month spike, GST revenues had crossed ₹1.65 lakh crore on only three occasions, which were typically driven by year-end compliances. Now, the average monthly collection so far in 2023-24 stands at ₹1.66 lakh crore, and economists believe central GST receipts may surpass Budget estimates even if one factors in a relative slowdown in the final quarter of this year.

With revenues buoyant, in no small part due to tighter compliance and a crackdown on tax evaders, the government must consider resetting its ambitions and work towards making the GST a truly good and simple tax, as it was promised to be. At a recent industry interaction, responding to concerns about the manner in which a spate of GST demand notices and investigations have unfolded in recent months, Finance Minister Nirmala Sitharaman said the GST is still at a stage of moving from "uncertainty to certainty" on some grounds and those aspects are being sorted out now. That certainty needs to be pursued at a broader level to provide genuine comfort to investors about India's tax regime being stable and predictable. For one, pending taxpayer appeals against central GST levies have risen by a quarter this year to hit nearly 15,000 cases by October and it is necessary that appellate tribunals cleared by the GST Council become operational at the earliest to unwind this pendency and set clear precedents for future tax treatment disputes. It is equally critical to lay down a road map to bring in excluded items such as petroleum and electricity into the GST framework as well as the rejig of its complicated multiple rate structure. With the general election ahead, some dithering on such reforms may be understandable, but the GST Council must not lose focus of the unfinished agenda and keep deliberating on its to-do list, so that these steps can be fast-tracked after the Lok Sabha election.

CREATING CERTAINTY

Healthier inflows from GST offer policy makers the bandwidth to fix its flaws

The Goods and Services Tax (GST), which **turns** six and a half years old this month, **has yielded** almost Rs.3.4 lakh crore through October and November.
