CITIZEN CENTRIC ADMINISTRATION - THE HEART OF GOVERNANCE

CITIZEN'S PARTICIPATION IN ADMINISTRATION

- 1** It should be mandatory for all government organizations to develop a suitable mechanism for receipt of suggestions from citizens, which could range from the simple 'Suggestion Box' to periodic consultations with citizens' groups.
- 2** Heads of the concerned organizations should ensure rigorous follow up action on the suggestions received so that these become a meaningful exercise.
- 3** A system of incentives and rewards should be introduced so that suggestions that lead to significant improvement or savings can be acknowledged.

CITIZEN'S PARTICIPATION IN ADMINISTRATION

- 4 Every government organization must ensure the following:
 - i fool-proof system for registration of all complaints,
 - ii a prescribed time schedule for response and resolution, and
 - iii a monitoring and evaluation mechanism to ensure that the norms, prescribed are complied with.
- 5 Use of tools of information technology can help to make such a system more accessible for citizens.
- 6 Heads of all government organizations should be made responsible for ensuring the development of such a system for responding to a time bound resolution of the complaints of citizens.

CITIZEN'S PARTICIPATION IN ADMINISTRATION

7

Regular citizens' feedback and survey and citizens' report cards should be evolved by all government organisations for gauging citizens' responses to their services. These should be used as inputs for improving organizational efficiency.

PARTICIPATION OF WOMEN AND THE PHYSICALLY CHALLENGED

- 1 Ensuring the full participation of women should be a specific aim of citizen centric administration and this should be reflected in various policies and programmes, including citizens' charters and grievances redressal mechanisms.
- 2 Government may constitute an expert committee to identify the areas where special provisions for the physically challenged should be made mandatory. These areas could be reviewed and expanded every five years.
- 3 Government should adopt a more proactive approach for detection and registration of the physically challenged persons.

EVOLVING AN EFFECTIVE PUBLIC GRIEVANCES REDRESSAL SYSTEM

- 1 There is need for a strong and effective internal grievance redressal mechanism in each organization.
- 2 The Union and State Governments should issue directions asking all public authorities to designate public grievance officers on the lines of the Public Information Officers under the RTI Act. These officers should be of adequate seniority and should be delegated commensurate authority.
- 3 All grievance petitions received should be satisfactorily disposed of by these officers within thirty days. Non-adherence to the time limit should invite financial penalties.
- 4 Each organization should designate an appellate authority and devolve adequate powers upon them including the power to impose fines on the defaulting officers.

SIMPLIFYING INTERNAL PROCEDURES

- 1 All Ministries/Departments should prepare a roadmap for carrying out a process simplification exercise. This should involve changes in Rules, Regulations and Laws wherever necessary. The entire exercise should be completed within two years. Similarly, the Ministries/Departments should instruct all organizations under their supervision to carry out this task. State Governments should also be advised accordingly.

SIMPLIFYING INTERNAL PROCEDURES

2 This elaborate exercise would involve the following steps for any organizations:

- i** Constitution of an in-house core team of persons well versed with internal procedures.
- ii** Engaging external experts - if necessary.
- ii** Getting feedback from citizens.
- iv** Analyzing all processes from the point of necessity, simplicity, rationality and citizen centricity.
- v** Redesigning processes and forms.

RATIONALISING PROCEDURES

- 1 Ministry of Road Transport and Highways should constitute an expert group to devise practical and objective tests of competence for issue of driving licenses.
- 2 The conduct of these practical tests as well as the one prescribed for learner's license could be outsourced. Close monitoring over their processes, would however be required.
