&
TECHNOLOGY-15**

PRESENT MCQs BASED ON CURRENT AFFAIRS

P414/2025

Consider the following statements about the recent trial of the Laser - Directed Energy Weapon (DEW) system:

1. The Laser - Directed Energy Weapon (DEW) can engage targets at the speed of light.
2. DEWs can become viable alternatives to traditional kinetic weapons and missile defence systems.
3. Laser is an example of monochromatic, coherent, collimated beam of electromagnetic radiation.

How many of the above statements are correct?

A One Only

B Two Only

C All Three

D None

PRESENT MCQs BASED ON CURRENT AFFAIRS

P422/2025

Consider the following statements about Genome India Project:

1. Centre for Brain Research, which is behind Genome India project, is situated in All India Institute of Medical Sciences (AIIMS), Delhi.
2. The idea of Genome India Project is to make India Reference Genome with the sequencing of genomes of around 10,000 healthy and unrelated Indians.
3. Polymorphisms are the variations in the non-coding regions of the human genome that help in tracing the evolutionary history.

Which of the above statements are correct?

A 1&2 Only

B 2&3 Only

C 1&3 Only

D All 1,2&3

PRESENT MCQs BASED ON CURRENT AFFAIRS

P427/2024

Consider the following statements:

Statement - I :

It is quite complex to develop a vaccine for malaria with higher efficacy.

Statement - II :

The life cycle of malarial parasite constitutes – Sporozoites, Merozoites, Gametocytes, among others, that makes complexity in developing the vaccine.

Which one of the following is correct in respect of the above statements?

A Both Statement-I and Statement-II are correct and Statement-II is the correct explanation for Statement-I

B Both Statement-I and Statement-II are correct and Statement-II is not the correct explanation for Statement-I

C Statement-I is correct but Statement-II is incorrect

D Statement-I is incorrect but Statement-II is correct

PRESENT MCQs BASED ON CURRENT AFFAIRS

P430/2025

Consider the following statements:

1. Reusable Launch Vehicle Landing Experiment (RLV LEX) of ISRO is named Pushpak.
2. Vikram Sarabhai Space Centre is behind the design and development of Pushpak.
3. Nowhere in the World, reusable launch vehicles reached commercial stage.

Which of the above statements are correct?

A 1&2 Only

B 2&3 Only

C 1&3 Only

D 2 Only

PRESENT MCQs BASED ON CURRENT AFFAIRS

P431/2025

Consider the following statements:

1. Kavach, the Automatic Train Protection Anti-collision System is indigenously developed.
2. Majority of the Indian Railway tracks are covered with Kavach.
3. Kavach functions based on the Radio Frequency Identification (RFID).

Which of the above statements are correct?

A

2&3 Only

B

1 Only

C

3 Only

D

1&3 Only

PRESENT MCQs BASED ON CURRENT AFFAIRS

P432/2025

Consider the following statements:

1. A petaflop is a unit of computing speed equal to 10^{15} floating point operations (flops) per second.
2. High Performance Computing (HPC) systems are made-up of several supercomputers working together.
3. India has no HPC systems.

How many of the above statements are correct?

A One Only

B Two Only

C All Three

D None

PRESENT MCQs BASED ON CURRENT AFFAIRS

P455/2025

Consider the following statements:

1. Calcium Titanium Oxide is an example of a Perovskite Crystal.
2. Perovskites are being tried for improving the efficiency of harnessing solar power.
3. At present, the efficacy of the photovoltaic solar modules ranges from 20% to 25%.

Which of the above statements are correct?

A 1&2 Only

B 2&3 Only

C 1&3 Only

D All 1,2&3

PRESENT MCQs BASED ON CURRENT AFFAIRS

P459/2024

Consider the following statements:

Statement - I :Genome Edited varieties of food crops are allowed in India, whereas Genetically Modified (GM) food crops are not allowed.

Statement - II :

Genome Editing is done to remove undesired elements to achieve better results, whereas in Genetically Modified (GM) crops, one or more of foreign genes are added, whose consequences in the long run are not clearly known.

Which one of the following is correct in respect of the above statements?

A Both Statement-I and Statement-II are correct and Statement-II is the correct explanation for Statement-I

B Both Statement-I and Statement-II are correct and Statement-II is not the correct explanation for Statement-I

C Statement-I is correct but Statement-II is incorrect

D Statement-I is incorrect but Statement-II is correct

PRESENT MCQs BASED ON CURRENT AFFAIRS

P465/2025

Consider the following statements about Doppler Weather Radars:

1. Doppler Weather Radars (DWRs) collect data on wind speeds above the surface of land or sea, images of the clouds and moisture levels.
2. Doppler Weather Radars can help in predicting not only the impending cyclones but also issuing nowcasts of associated heavy rainfalls at a very short duration of up to one hour.

Which of the above statements are correct?

A 1 Only

B 2 Only

C Both 1&2

D None

PRESENT MCQs BASED ON CURRENT AFFAIRS

P470/2025 Biofoundries, which are often in the news, means:

A

Undertaking cutting-edge research in bioproducts.

B

Integrating the manufacturing processes with automation to scale up.

C

Developing new bio-products by making fragments of a bio-resource initially.

D

Reducing the time taken for inventing a new product.

PRESENT MCQs BASED ON CURRENT AFFAIRS

P473/2025

Consider the following statements:

1. India recently tested thorium-fueled molten salt reactor.
2. India has the world's largest reserves of thorium, primarily in its monazite rich coastal sands.
3. Thorium reactors, in general, produce less radioactive waste in comparison to uranium-based nuclear power reactors.
4. There is a lower risk of nuclear weapons proliferation with thorium-based nuclear energy.

How many of the above statements are correct?

A One Only

B Two Only

C Three Only

D All Four

PRESENT MCQs BASED ON CURRENT AFFAIRS

P484/2025

Consider the following statements:

1. Polio Virus affects the Central Nervous System.
2. India was declared polio-free by the WHO in 2014.
3. Since 2014, there is no case of circulating Vaccine Derived Polio Virus (cVDPV) in India.
4. Globally, two out of three wild polio virus strains have been eradicated.

How many of the above statements are correct?

A One Only

B Two Only

C Three Only

D All Four

PRESENT MCQs BASED ON CURRENT AFFAIRS

P485/2025

Consider the following statements about the Next Generation Launch Vehicle (NGLV) proposed by India:

1. Its capability is to carry 30 tonnes of payload to the Low Earth Orbit (LEO).
2. It is going to be designed to carry up to 10 tonnes to the Geosynchronous Transfer Orbit (GTO).
3. It will also be designed as a Reusable Launch Vehicle (RLV).

Which of the above statements are correct?

A 1&3 Only

B 2 Only

C 2&3 Only

D All 1,2&3

PRESENT MCQs BASED ON CURRENT AFFAIRS

P486/2025 Which of the following is associated with Post Transcriptional Gene Regulation:

A

cell-free DNA
(cfDNA)

B

Micro RNA

C

RNA Interference

D

fragmented RNA
(fRNA)

PRESENT MCQs BASED ON CURRENT AFFAIRS

P487/2025

Consider the following statements:

1. Hormones, Antibodies, Enzymes are some examples of proteins.
2. Proteins are the three-dimensional structures and they are made of 20 different amino acids.
3. No new protein was developed in the laboratory during the previous decade.
4. The three-dimensional protein structure is yet to be visualized by the scientists.

How many of the above statements are correct?

A One Only

B Two Only

C Three Only

D All Four

PRESENT MCQs BASED ON CURRENT AFFAIRS

P488/2025

Consider the following statements about the Hypersonic Missiles:

1. These are primarily cruise missiles, and they are difficult to be intercepted by conventional air defence systems due to their speed, maneuverability and flight paths.
2. India is the fourth country that have flown vehicles in the atmosphere at hypersonic speeds.

Which of the above statements are correct?

A

1 Only

B

2 Only

C

Both 1&2

D

None

PRESENT MCQs BASED ON CURRENT AFFAIRS

P489/2025

Consider the following statements:

1. When the capability of the quantum computers increase, errors are expected to build up rapidly.
2. The property of two quantum particles affecting each other, even though they are at a distance, is entanglement and with this property, quantum communication becomes difficult to intercept and decrypt.
3. The property of quantum particle to exist in two states at the same time is superposition and it gives higher computing capability.

Which of the above statements are correct?

A 1&2 Only

B 2&3 Only

C 1&3 Only

D All 1,2&3

PRESENT MCQs BASED ON CURRENT AFFAIRS

P493/2025

Increased usage of fruits, vegetables, nuts, herbs, whole grains etc., which results in higher phytochemicals/phytonutrients absorption through our diets, can be termed as a step towards:

A

Promotive
healthcare

B

Preventive
healthcare

C

Curative
healthcare

D

Geriatric healthcare

PRESENT MCQs BASED ON CURRENT AFFAIRS

P495/2025

Light Amplification by Stimulated Emission of Radiation (LASER) beams are quite often in the news. Consider the following applications:

1. For recording and retrieving information.
2. For carrying TV and internet signals.
3. For directed energy weapons.
4. For use in spectrometers to find out what things are made of.
5. To study the gases in Earth's atmosphere.

For how many of the above applications, lasers can be used?

A Two Only

B Three Only

C Four Only

D All Five

PRESENT MCQs BASED ON CURRENT AFFAIRS

P509/2025

Consider the following statements:

1. Thorium is not a fissile material.
2. Plutonium is not mined but produced in a Uranium Fueled Reactor.
3. After bombardment of Thorium with Neutrons, U235 is produced.
4. India's indigenous Prototype Fast Breeder Reactor (PFBR) is coming up at the Madras Atomic Power Station, Kalpakkam, Tamil Nadu.

How many of the above statements are correct?

A One Only

B Two Only

C Three Only

D All Four

PRESENT MCQs BASED ON CURRENT AFFAIRS

P523/2025

Consider the following statements:

1. Liquefied Petroleum Gas (LPG) consists of propane and butane in varying proportions dependent on the area of supply.
2. India's import dependency of LPG is around 87%.
3. Propane has higher energy density content than butane.

How many of the above statements are correct?

A

One Only

B

Two Only

C

All Three

D

None

PRESENT MCQs BASED ON CURRENT AFFAIRS

P527/2025

Consider the following:

1. Manufacturing of wafers through establishment of fabrication units.
2. Assembly Testing Marking and Packaging (ATMP).
3. Outsourced Semiconductor Assembly and Testing (OSAT).

Which of the above are part of India's journey towards semiconductor ecosystem?

A 1&2 Only

B 2&3 Only

C 1&3 Only

D All 1,2&3

PRESENT MCQs BASED ON CURRENT AFFAIRS

P530/2025

Consider the following statements:

1. Genome Editing (GE) technology did not involve the insertion of any foreign DNA into any crop.
2. Site-Directed Nucleases (SDN) Type-1 comes under GE, whereas SDN-2 and SDN-3 techniques come under Genetic Modification (GM).
3. Genome Edited Crops are exempted from the strict bio safety rules that govern GM crops under the Environment Protection Act, 1986.

Which of the above statements are correct?

A 1&2 Only

B 2&3 Only

C 1&3 Only

D All 1,2&3
