

ETHICS, INTEGRITY & APTITUDE

MODULE – 31

MORAL THINKERS-1

ETHICS, INTEGRITY & APTITUDE

CONTRIBUTIONS OF MORAL THINKERS AND PHILOSOPHERS FROM WORLD

GOLDEN MEAN

VICE OF MINIMAL

- Emotionless
- Stonehearted
- Sentiment less

GOLDEN MEAN

- Eg: Love for others, but can't be blind
- Love where we ignore wrong deeds is bad

VICE OF EXCESS

- Excess of everything

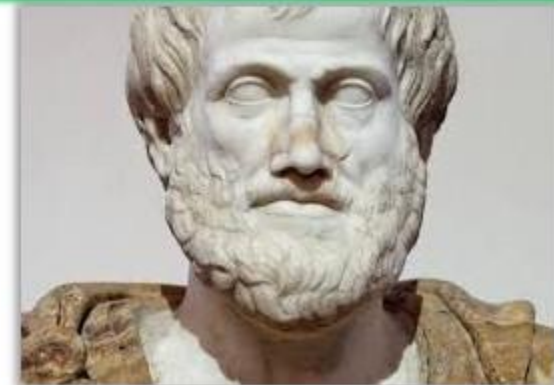

Dritarashtra Syndrome –Kaurava clan got wiped

ARISTOTLE

Happiness is ultimate objective.

- By being **perfect**
- By possessing certain **virtues**.
 1. Intellectual Virtues
 2. Moral Virtues
- Virtue is a **Golden Mean between 2 vices**

CONTRIBUTIONS OF MORAL THINKERS AND
PHILOSOPHERS FROM WORLD

1

INTELLECTUAL VIRTUES

a

Practical Knowledge

- Not enough to have theoretical knowledge but have practical knowledge of life also.
- Eg: All know taking bribes is bad. But all fail. Hence, most Civil Servants fail in India.

b

Prudence

- Based on rationality (Consider facts, look at situation and take decisions).
- Our decision making is emotional towards relations, money. It results in adverse consequences.

c

Ability to make arguments on
basis on logic, reason and proof

- In argumentative mode, one becomes emotional, sentimental. It results in irrational decisions.
- Rationality is universal. Emotions and sentiments are individualistic in nature.

CONTRIBUTIONS OF MORAL THINKERS AND
PHILOSOPHERS FROM WORLD

1

INTELLECTUAL VIRTUES

d

Intuitive Insight: 6th Sense

- Comes from Knowledge and experience
- Eg: Professional driver – something bad going to happen – drive carefully.

e

Wisdom

- Differentiate between Intelligence and Wisdom:
 - Intelligence: Ability to understand things (Cognitive). Eg: Manmohan Singh
 - Wisdom: Ability to put same into practice.
- Eg: We know what is good and bad but don't follow. Lack of Wisdom.

5 in number – Related to aptitude.

CONTRIBUTIONS OF MORAL THINKERS AND
PHILOSOPHERS FROM WORLD

2

MORAL VIRTUES

- People become bad because they don't know the value of good. It is our ignorance that makes us bad.
- With intellectual + Moral Virtues → Do good things → Become → perfect Happiness.

APPLICATION IN DAILY LIFE

- We face dilemmas, influenced by negative things (get attracted)
- Intellectual and Moral virtues help in resisting towards bad.
- Once we know consequences, we won't do it.

APPLICATION IN CIVILS

- Our Civil servants are failure because they don't possess intellectual virtues – Practical knowledge, Intuition, Wisdom.
- **Examples:**
 - ✓ Parliamentary committee – Principal Secretary – Per capita per hectare
 - ✓ Failure of PPP – Don't have practical knowledge
 - ✓ CBI failing in getting evidence in major scams – Rules and regulations are so naïve.

CONTRIBUTIONS OF MORAL THINKERS AND
PHILOSOPHERS FROM WORLD

ii

THOMAS HOBBS

(British Political Philosopher)

- 1 Went beyond **concept of happiness** defined by **others** (individual perspective).
- 2 His perspective is **society as a whole**.
- 3 Society always move towards **Anarchy** as people are guided by **self-interests**.
- 4 People had **come together** and created **state**. State or Government is given responsibility of **maximizing happiness** and **welfare of people**.

5 To perform these functions – **State was given certain powers** also – Upward delegation of powers from **people to the government**.

6 State had transformed itself into '**Leviathan**'

- **Greek Mythology: *Frankenstein monster*** – Has ability to eat its own creation.
- **In Hindu Mythology: *Bashmasur***.

CONTRIBUTIONS OF MORAL THINKERS AND
PHILOSOPHERS FROM WORLD

ii

THOMAS HOBBS

7 Instead of working for people and their happiness, it has taken away their happiness and welfare through laws, rules and regulations. Taken away their freedom.

➤ More laws and regulations – Less will be the freedom.

8 During crisis – More laws and regulations – gave power to bureaucracy.

TALKED ABOUT RELATION BETWEEN
LAWS AND ETHICS

1 In normal circumstances: Morality should define legality.

➤ What is moral is legal and immoral is illegal.

2 In reality: Legality defined morality

➤ In democratic society, state defines morality through Laws, Rules and Regulations – Laws determine ethics of society.

CONTRIBUTIONS OF MORAL THINKERS AND
PHILOSOPHERS FROM WORLD

ii

THOMAS HOBBS

TALKED ABOUT RELATION BETWEEN
LAWS AND ETHICS**2** In reality: Legality defined morality➤ Laws determine *ethics of society*.➤ Laws can be classified as Moral,
Immoral and Amoral.

LAWS

1

MORAL

2

IMMORAL

3

AMORAL

ETHICS, INTEGRITY & APTITUDE

CONTRIBUTIONS OF MORAL THINKERS AND PHILOSOPHERS FROM WORLD

ii

THOMAS HOBBS

TALKED ABOUT RELATION BETWEEN LAWS AND ETHICS

➤ Laws

MORAL

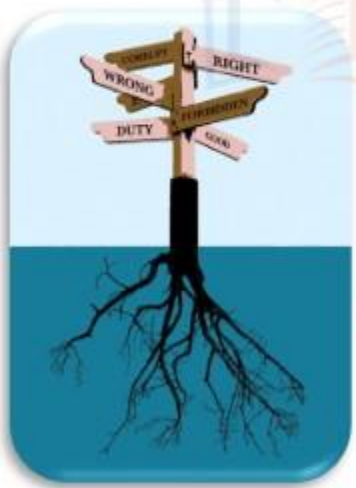

- Related to education, protection of disabled
- What is good for entire society.

IMMORAL

- Capital punishment
- **Sedition Act** (State is different from Government) – misused
- AFSPA, Euthanasia.

AMORAL

- Traffic rules, Government function rules.

CONTRIBUTIONS OF MORAL THINKERS AND
PHILOSOPHERS FROM WORLD

ii

THOMAS HOBBS

APPLICATIONS IN DAILY LIFE

- 1 State become **Leviathan**. We need **Constitutionalism** in functions of democracy.
 - **Representative democracy** should not be made as **Electoral dictatorship**.
- 2 **Judiciary** struck **NJAC** to prevent state becoming leviathan.

APPLICATIONS IN CIVILS

- 1 Ensure that **laws** are based on **concept of morality**.
- 2 Realise the fact that they are **servants of People** and not their **masters**.
 - **Commitment to public service** – One of the important civil values.

Transform representative democracy to participatory democracy

CONTRIBUTIONS OF MORAL THINKERS AND
PHILOSOPHERS FROM WORLD

iii

IMMANUEL KANT

1 Concept of goodness**2** Can't determine **goodness** based on either **actions** or **outcomes**.**3** Goodness is determined in terms of **good intentions** – **Good will**.

- If our **intentions** are good – We will always select **right actions** and **outcomes** are good.
- Example: **Beggars at Temple** – Giving **money** because

- Other think I am **miser** (Fear of criticism)
- Want of **name** and **fame**
- Beggar is **powerful** and he might **beat**
- **Really moved** by his **condition** (Sympathy and Compassion)
- Take him to **nearby restaurant for food** on basis of **condition** that he should come and work in house.
- Nothing can be **freely given** (They won't know value) - He will become liability – Teach him dignity of Labour.

Goodness

iv

(Important for civil services): J. Bentham
and J. S. Mill (Welfare Economics)

a

Objective is to remain happy forever.

1 Happiness in terms of pleasure.

- Action that maximizes pleasure and minimize pain is good.

2 Went beyond individual happiness.

3

Utility = Satisfaction.

“Any action is good if it satisfies certain condition: Maximize satisfaction of maximum number of people for longest period of time”.

[illegible]

CONTRIBUTIONS OF MORAL THINKERS AND
PHILOSOPHERS FROM WORLD

iv UTILITARIANISM

b J.S. MILL

Expanded Utilitarianism

1 This satisfaction and happiness can't be restricted to human beings but expand to all living beings.

➤ Foundation for Environmental Ethics

2 Need to maintain ecological equilibrium.

➤ Concept of Vegetarianism became popular.

3 Satisfaction or Utility is both qualitative and quantitative while Bentham considered only quantitative aspect.

CONTRIBUTIONS OF MORAL THINKERS AND
PHILOSOPHERS FROM WORLD

v

EMILE DURKHEIM

Positivist Thinker – **No value** (Value free) to philosophy

1 Empiricism

2 **Humans** created god.

3 Psychological strength from fear, insecurity

4 It is always dominated by **powerful vested interests** – To completely **perpetuate domination** – Religion is created – To get **obedience** from people.

vi

KARL MARX

1 **Communism**, Communities ruling themselves without **intermediary**.

2 **State** and **religion** disappears.

3 Gandhi and Marx – Ideologies are different, but conclusions are same.

4 Amartya Sen – Development in terms of freedom.

vii HEGELIAN PHILOSOPHY

1 They are public servants and as public servants they must work for people. But in reality they are **government servants** but not public servants. They are expected to serve those who are in **positions of power**.

2 They always face **ethical dilemma** between serving people or those in positions of power. They always serve those in positions of power. They become **instruments** of **exploitation in a democracy**.

3 Like Karl Marx, Hegel also believed that bureaucracy would become a willing instruments in hands of political executive to continue their exploitation of ordinary masses, in the name of implementing the rule of law.

viii

PM of UK in late 19th century defined philosophy of Governance.

- 1 Government should make it easier for people to **do good** and difficult for them to **cause harm to others**.
- 2 India - opposite: Eg: **Nirav modi scam**-government made it easier for causing harm to others.
- 3 It became difficult to do good to others: Need **number of permissions for NGOs to start work**.

- 4 Taking accident victim to hospitals- Good samiratan – But people fear because of cases and police harassment etc.

CONTRIBUTIONS OF MORAL THINKERS AND
PHILOSOPHERS FROM WORLD

ix VILFRED PARETO AND JOHN RAWLS

VILFRED PARETO

1 Pareto was trying to find solutions to dilemmas in public policies. In a welfare state, the government tries to maximize welfare of people by redistributing income and wealth in favour of weaker and poorer sections of society.

2 But according to Pareto, it is not an equilibrium situation because rich people who pay taxes feel cheated. They believe that the government is financing inefficiency in the name of welfare.

CONTRIBUTIONS OF MORAL THINKERS AND
PHILOSOPHERS FROM WORLD

ix VILFRED PARETO AND JOHN RAWLS

VILFRED PARETO

3 Pareto came out with a solution with his concept of **Pareto Equilibrium**. He believed that equilibrium can be realised if the **government can increase welfare** of one section of society without reducing the welfare of other sections. It is an ideal situation.

- Democracies (**Welfare states**)
Maximize welfare → Public policies
Redistribute inequalities.

➤ Example:

✓ **Progressive Taxation**

Tax/GDP: USA – 40%; India – 16-17% - 1% Taxes

Solution – Pareto improvements

✓ **Reducing tax and expanding tax net.**

1. 1975 – Income tax rate – 97%;
2.5% surcharge. Now – 30%.
2. Custom duties – 1970s – 40%;
Now <10%

CONTRIBUTIONS OF MORAL THINKERS AND
PHILOSOPHERS FROM WORLD

ix VILFRED PARETO AND JOHN RAWLS

JOHN RAWLS

- 1 Equality, Equity, fairness and justice principles.
- 2 Government must ensure **equality**, provide **equal opportunities** for all, protect **individual rights** and **freedoms**.
- 3 Allocation of **resources** – ideally **equal distribution** is principle; But societies are not equal – Rich people benefit and become **richer**.

➤ Distributive justice: **Equity principle** for distribution of resources.

- Biased in favour of **poorer** and **weaker** sections of **society**. They must be given **more access to resources**.
- It is very important for developing country like **India** where **availability of resource is limited**.
- Government must ensure that these limited resources are to be **utilised for benefit of poorer and weaker sections** – Support reservations.

CONTRIBUTIONS OF MORAL THINKERS AND
PHILOSOPHERS FROM WORLD

X

AMARTYA SEN

1 It is not enough to ensure the distribution of resources. What is needed is enabling the people to utilise the resources by creating capabilities in them. (Reservations are not useful without capabilities).

2 He defined development as freedom. People should be given freedom of choice and also they must have the capabilities to fulfil their choices.

➤ Example:

- ✓ As part of land reforms, government had given land to many poor people. But it was not successful because they didn't know how to cultivate the land.
- ✓ They returned the land to land lords.

**FREEDOM
OF
CHOICE**
