

ETHICS, INTEGRITY & APTITUDE

MODULE - 1

INTRODUCTION

ETHICS, INTEGRITY & APTITUDE

CASE I - FACTS

In November 2018, 26 years old John Allen Chau, a Christian missionary landed on the shore of an island inhabited by the reclusive and endangered Sentinelese tribe and was killed by the tribe who are hostile to external incursions.

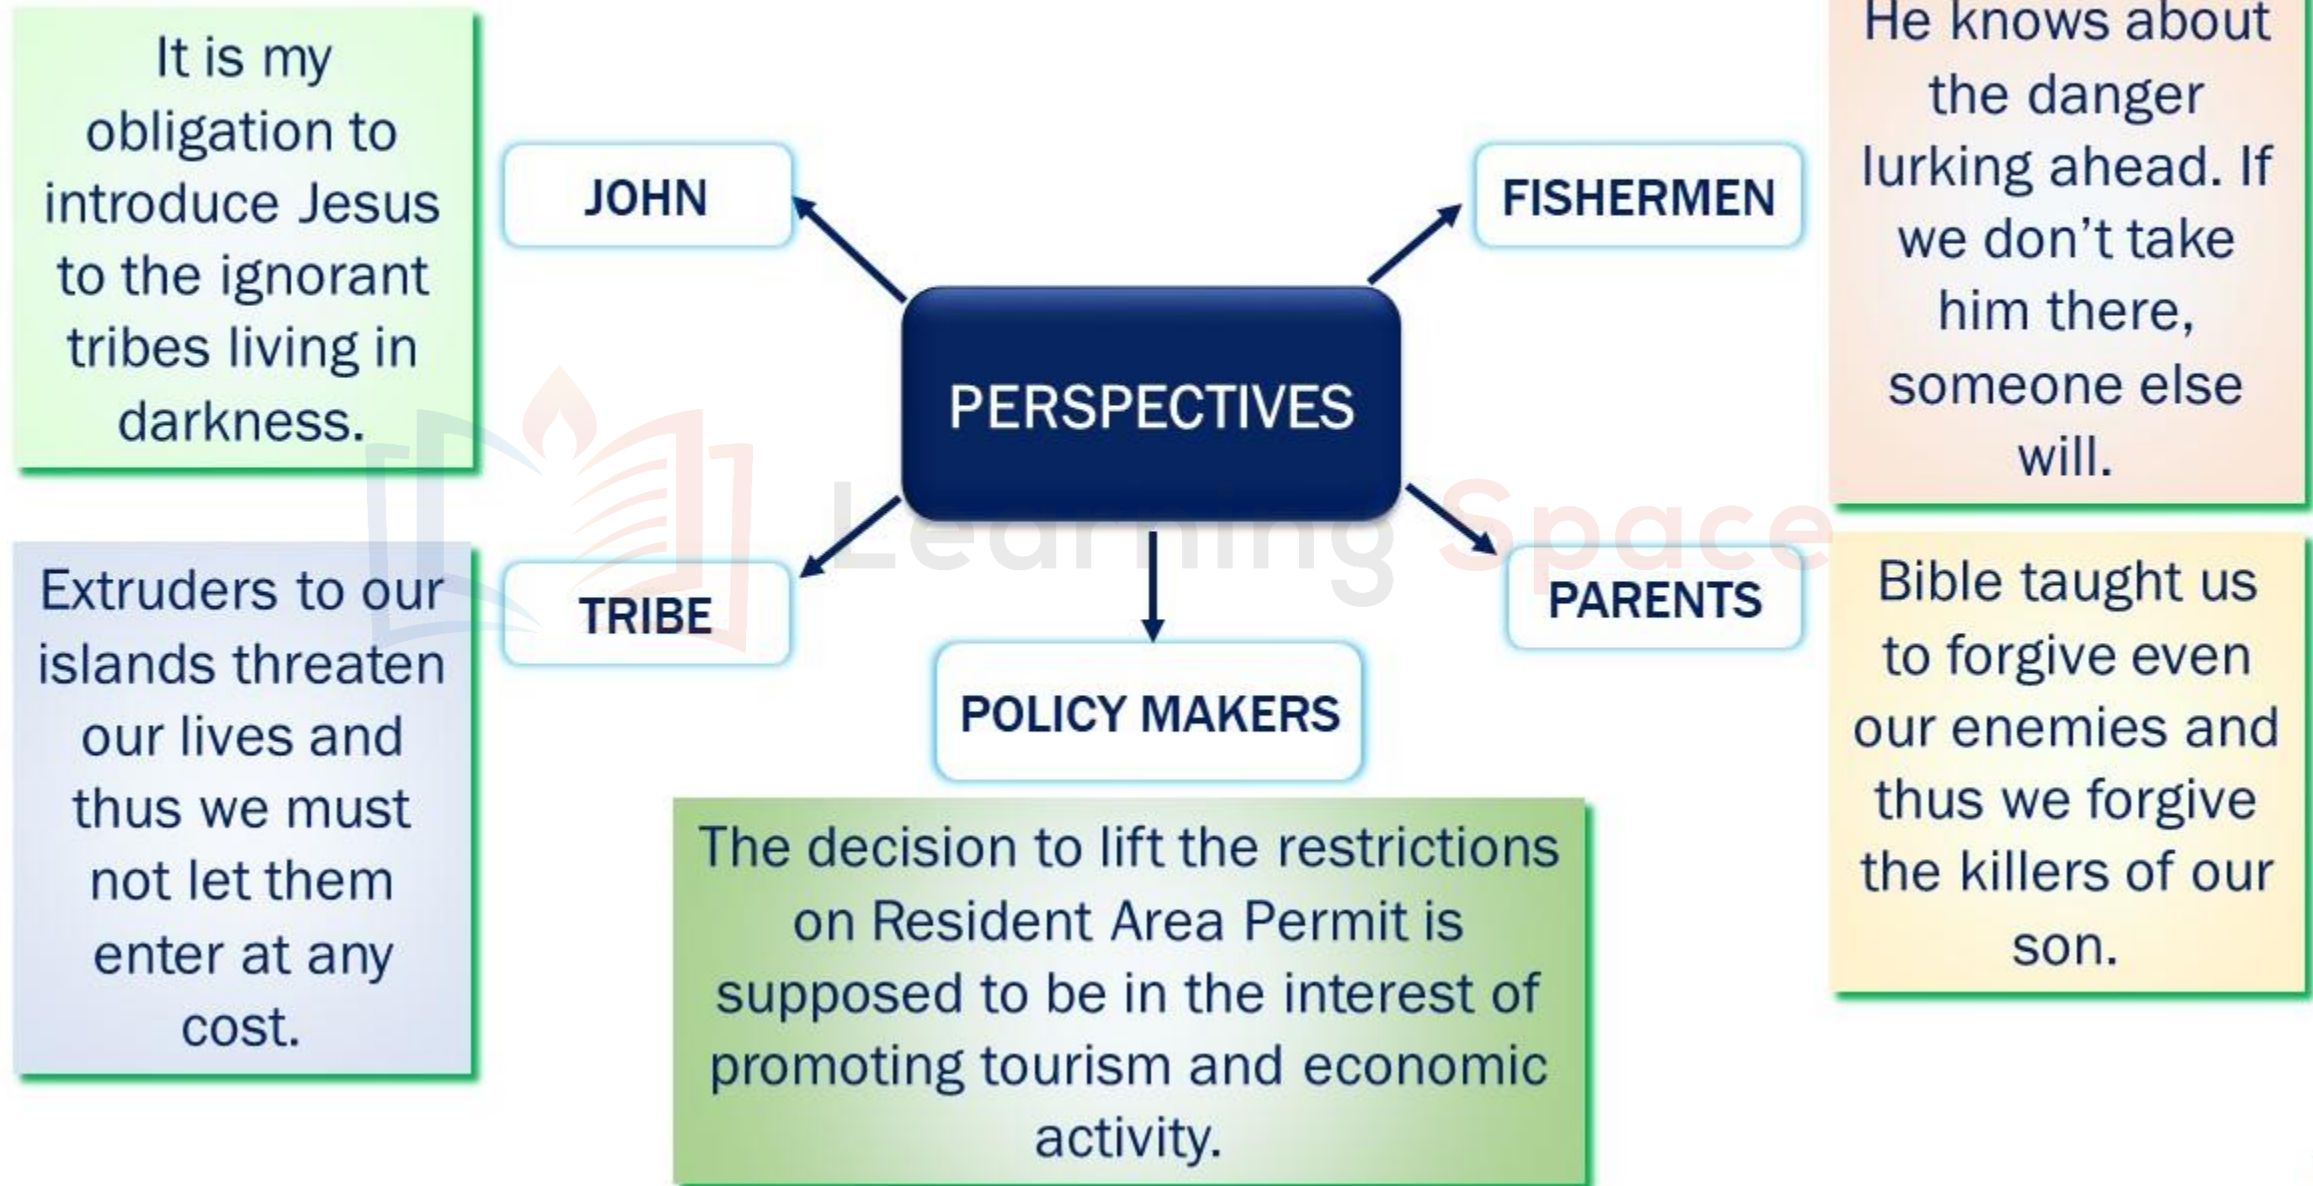

He bribed the local fishermen, who were aware of the dangers of approaching the island, to take him to the island.

John's family members have stated that they forgive those who have killed him.

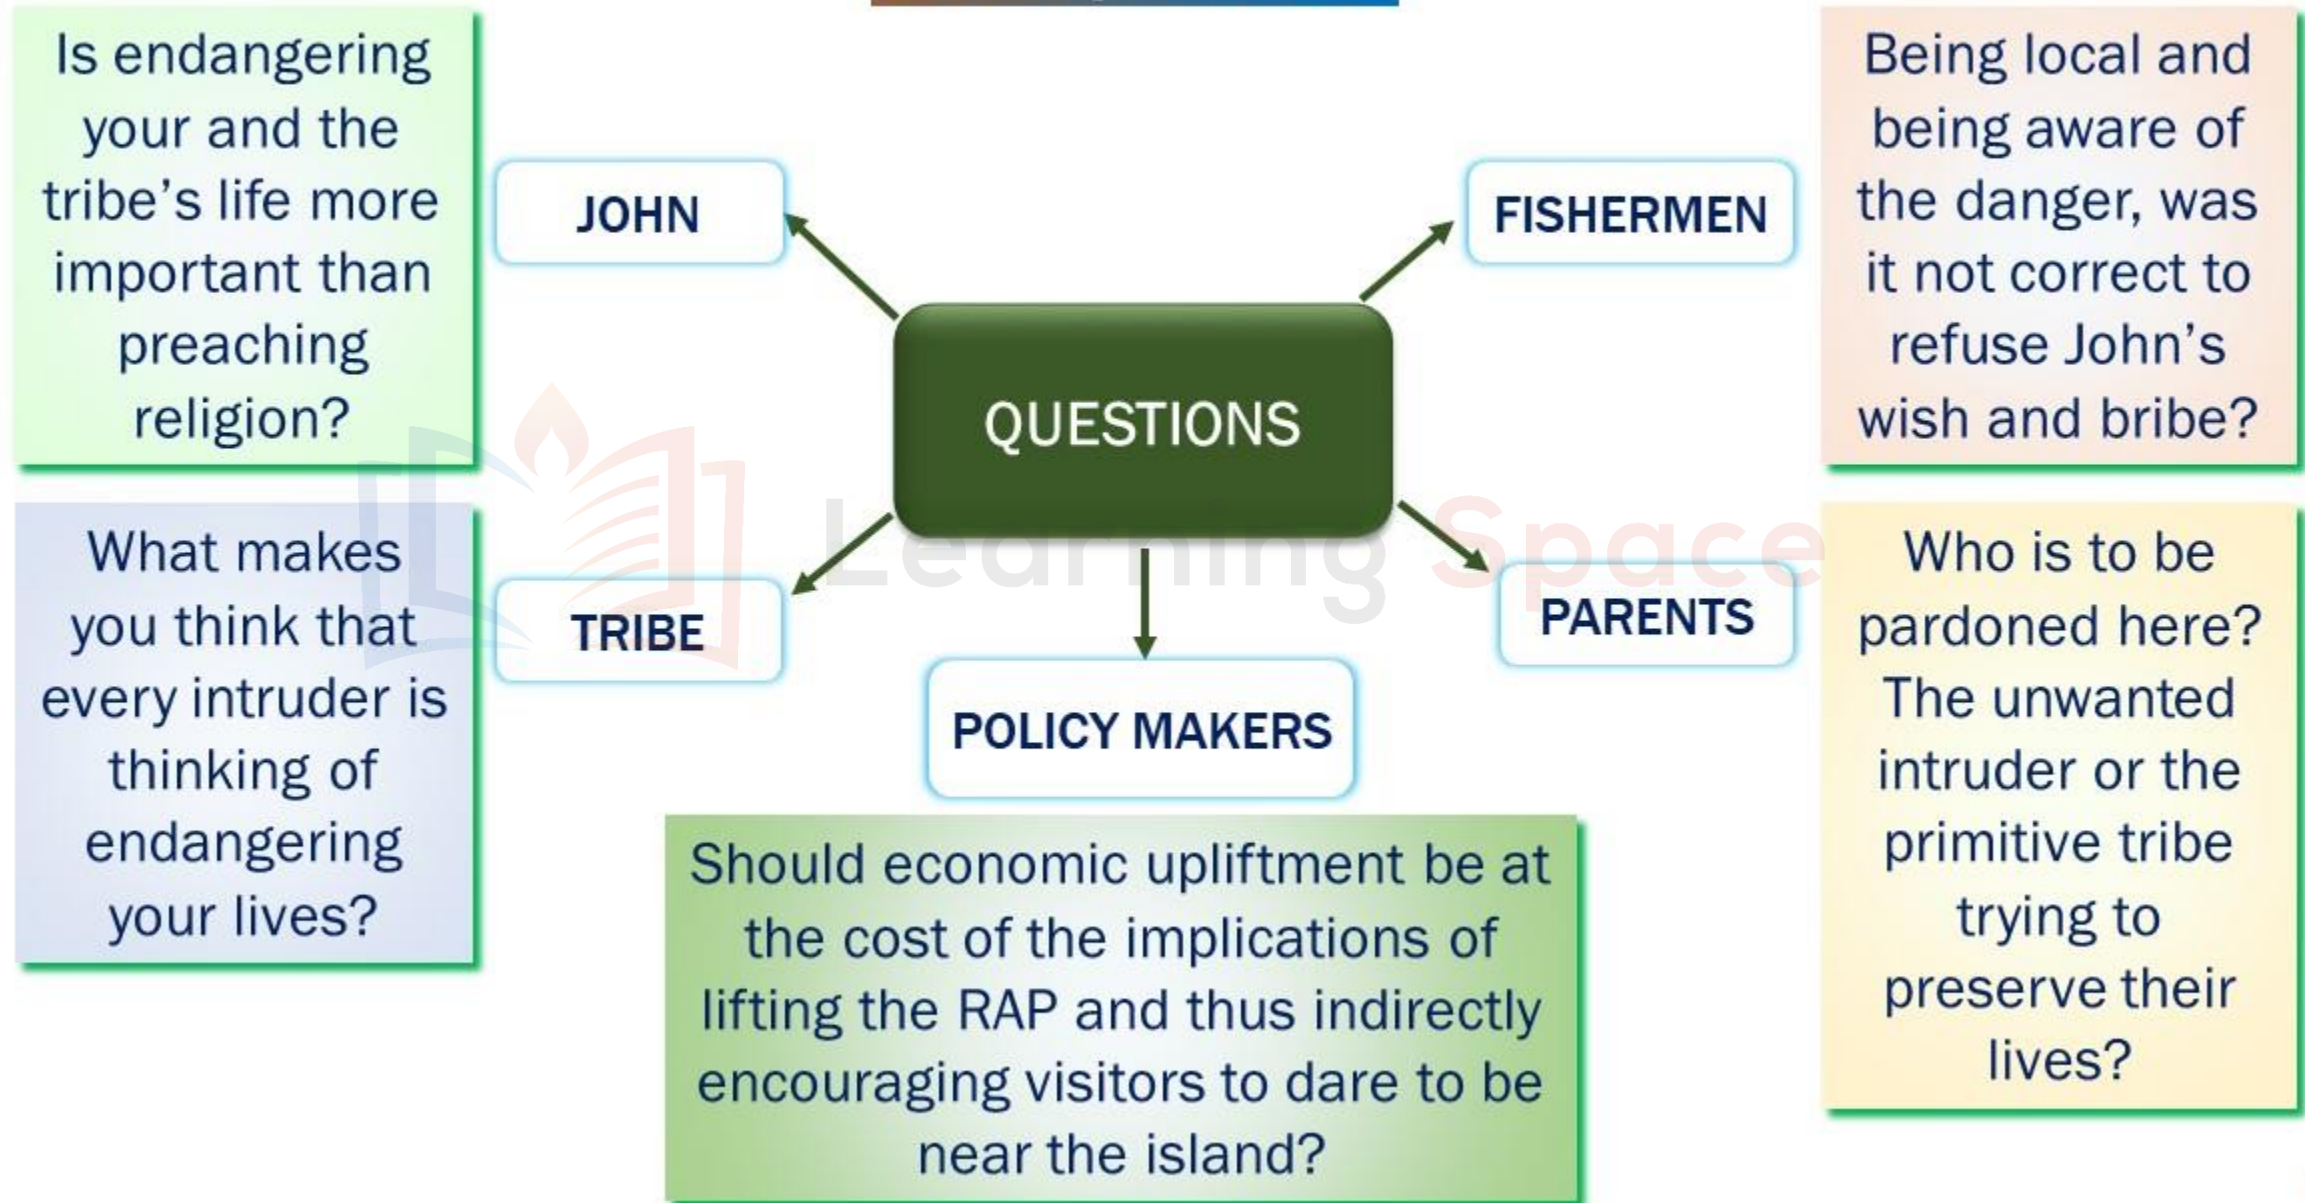

The Restricted Area Permit (RAP), which forbids people from visiting prohibited locations without permission, is expected to be reimposed in the North Sentinel island.

THINK LIKE ...

SOME QUESTIONS

CASE II

IDEA

IT IS WRONG TO KILL

QUESTIONS

- 1 Is capital punishment wrong?
- 2 Is it wrong to kill animals?
- 3 Is even passive euthanasia wrong?
- 4 Is abortion wrong even in cases of known complications to the mother?
- 5 Is it wrong to kill the terrorists hell bent on wrecking our lives?

These seemingly simple Yes/No questions may not have a single correct answer.

CASE III

ASSUMPTION

You, troubled by your financial problems, are walking aimlessly in the park at night and suddenly come across a wallet full of cash lying on the bench.

QUESTIONS

- Should I just keep the wallet and tide over my short term economic troubles?
- Should I try to return it to the rightful owner by walking into a police station to hand over the wallet?

DILEMMA

Do I have a stronger reason to return the cash to the purse's owner than I have to keep it?

MORE QUESTIONS

SET I

- 1 What makes honest actions right and dishonest ones wrong?
- 2 Is there anything more to happiness than pleasure?
- 3 What should I strive for to be free from pain?
- 4 Is being honest at the cost my happiness worth it?

SET II

- 1 Exactly how many species live in the depths of the Pacific Ocean?
- 2 Is there life, even if it is in primitive form, on Mars?
- 3 Is there any other planet other than Earth inhabited by intelligent species?
- 4 What will be the ultimate fate of our universe?

Every question that naturally occurs in our life and is hard to answer is not a source of philosophical mystery. Only questions in SET I are of interest to philosophers. Questions in SET II are factual questions.

POINTS TO PONDER

- 1 Applying **everyday notions of right and wrong** to the SET I questions may not lead to straightforward answers.
- 2 We **need theoretical frameworks** that can help us to analyse complex problems and to find rational, coherent solutions to those problems.
- 3 **Philosophers** attempt to find general answers that can be used by everyone in society.

Some individuals try to find the answers themselves but those notions can not be applied to the society as a whole.

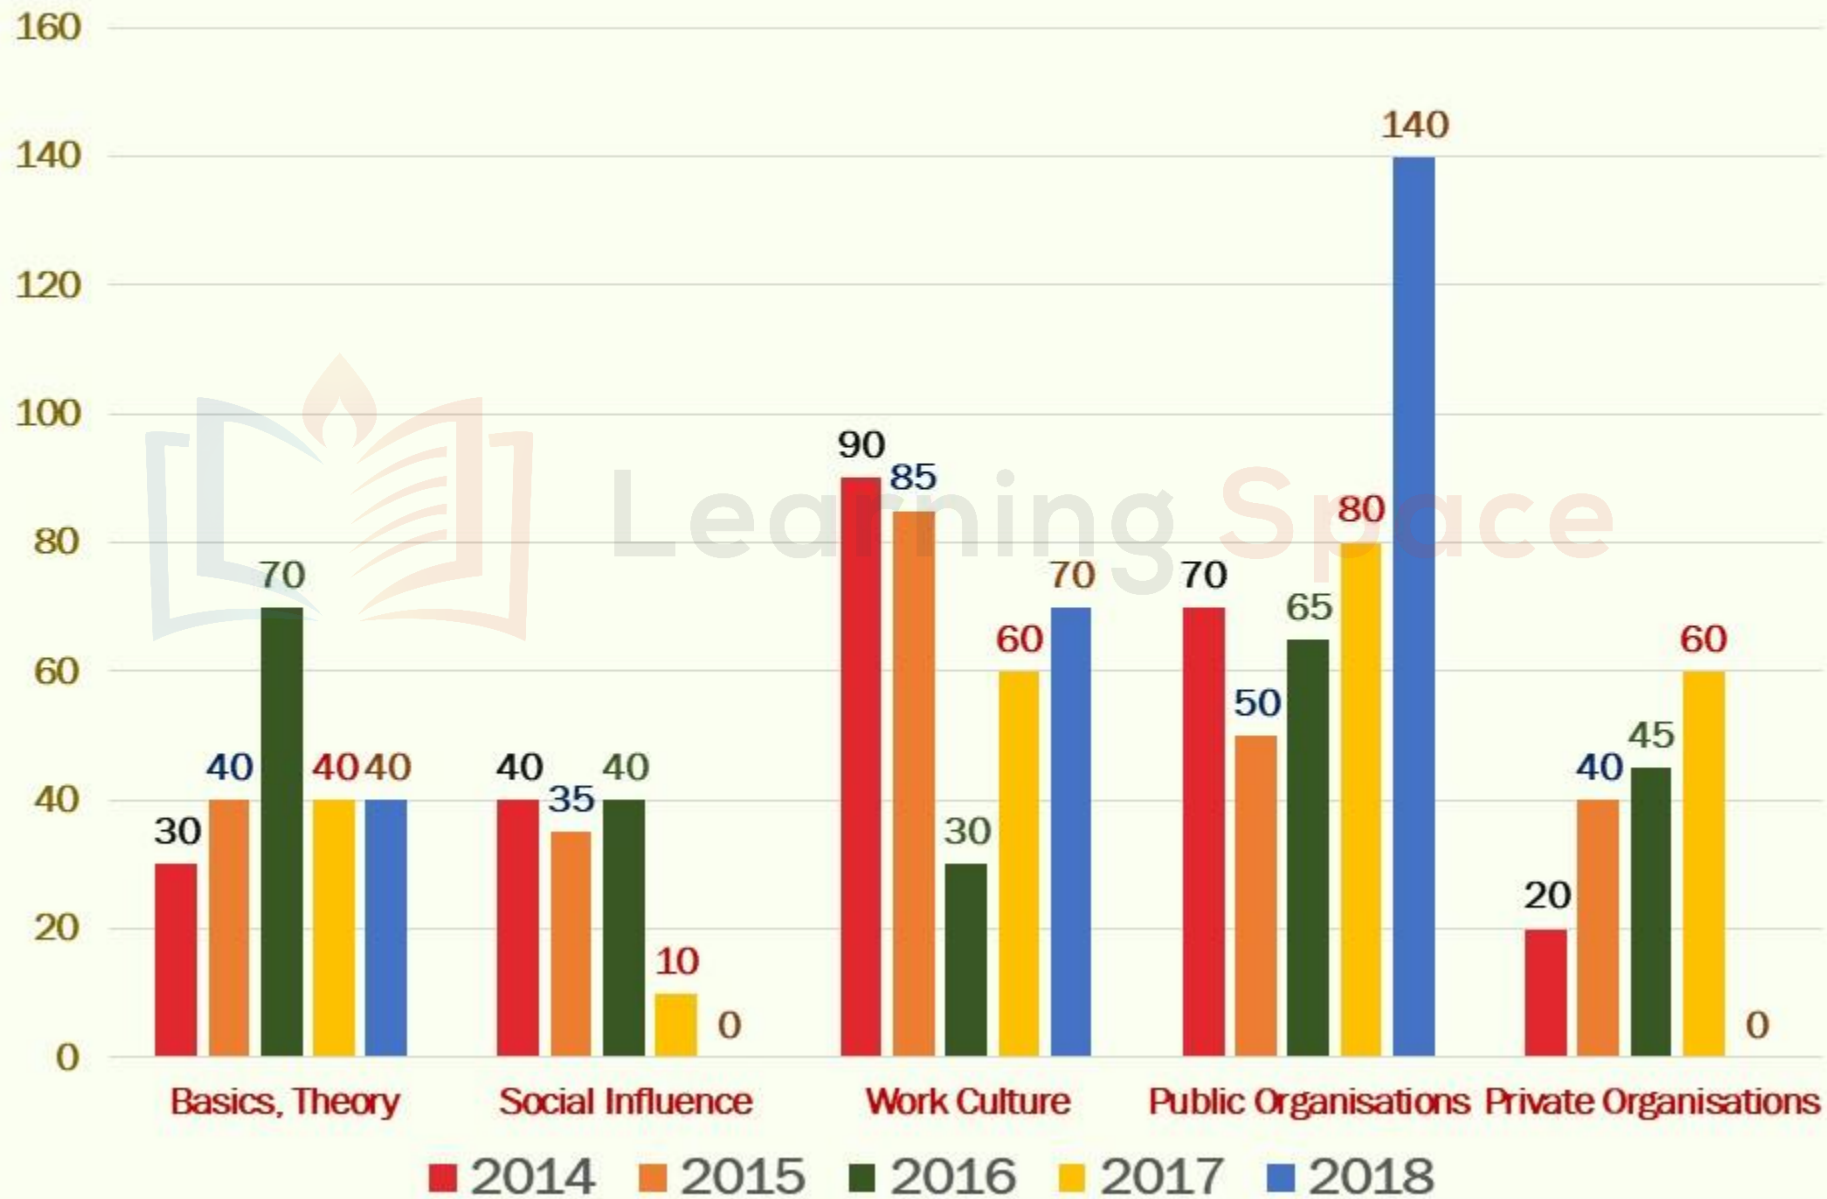

ETHICS, INTEGRITY & APTITUDE

SYLLABUS

1. **Ethics and human interface:** essence, determinants and consequences of ethics in human actions; dimensions of ethics; ethics in private and public relationships.
2. **Human values** – lessons from the lives and teachings of great leaders, reformers and administrators; role of family, society and educational institutions in inculcating values.
3. **Attitude:** content, structure, function; its influence and relation with thought and behaviour; moral and political attitudes; social influence and persuasion.
4. **Aptitude and foundational values for civil service**, integrity, impartiality and non-partisanship, objectivity, dedication to public service, empathy, tolerance and compassion towards the weaker-sections.
5. **Emotional intelligence-concepts**, and their utilities and application in administration and governance.
6. **Contributions of moral thinkers** and philosophers from India and world.
7. **Public/civil service values and ethics in public administration:** status and problems; ethical concerns and dilemmas in government and private institutions; laws, rules, regulations and conscience as sources of ethical guidance; accountability and ethical governance; strengthening of ethical and moral values in governance;
8. **Ethical issues in international relations** and funding; corporate governance.
9. **Probity in governance:** concept of public service; philosophical basis of governance and probity; information
10. **Sharing and transparency** in government, right to information, codes of ethics, codes of conduct, citizen's
11. **Charters, work culture**, quality of service delivery, utilization of public funds, challenges of corruption.
12. Case studies on above issues

ETHICS, INTEGRITY & APTITUDE

ANALYSIS OF PAST PAPERS

SKILLS REQUIRED

CONCEPTS

An in-depth knowledge and
application of the topics listed

VOCABULARY

Clarity on the **nuances** of the
words or phrases we come across

WRITING SKILLS

For writing both **answers** and **case**
studies

THE BASICS

NORMS

- It is a norm to not invade another country without a mandate from the UN.
- It is a norm in the classroom to listen while the professor is delivering the lecture.

Norms are dictated by the society and deal with standards of appropriate behaviour.

MORALS

- It is moral to provide humanitarian aid to the distressed people of the impoverished countries.
- It is moral to help someone in need.

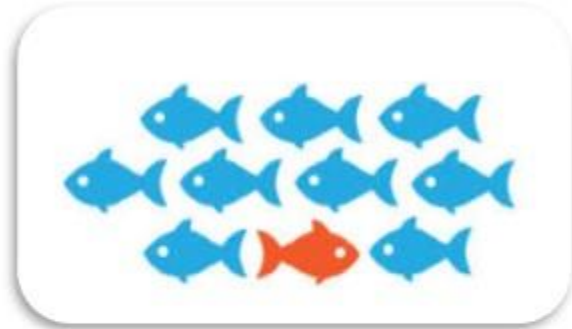

Morals, dictated by individuals or society, involve value judgments and principles about right and wrong.

ETHICS

- As per international humanitarian law, it is ethical to not harm civilians during war.
- Stealing from even a dishonest employer is not ethical.

Ethics, generally determined by the society, are based upon rules of what is morally good or bad behaviour.

ETHICS IS NOT ...

- 1 Following culturally accepted norms:** While some cultures are and remain ethical, others may become corrupt or blind to certain ethical concerns (practice of Sati in some sections of society between 15th and 18th century).
- 2 Same as feelings:** Although feelings provide important information for our ethical choices, some people may feel bad when they do something wrong while others may feel happy.

Feelings and accepted norms are not same as ethics

ETHICS IS NOT ...

3 **Following the law:** Although a good system of law does incorporate many ethical standards, law can cross the ethical boundaries and can become ethically corrupt, as witnessed in some totalitarian regimes.

4 Usually something that is considered by many people as being **necessary** in order for them to conduct their everyday activities in a satisfactory manner.

Ethics applies to everyone regardless of their religious affiliation.

WHAT IS ETHICS?

‘Ethics’ or ‘moral philosophy’ is the systematic philosophical study of morality.

- 1 A **branch of philosophy** that involves systematizing, defending, and recommending **concepts of right and wrong** conduct.
- 2 Seeks to **resolve questions of human morality** by defining concepts such as good and evil, right and wrong, virtue and vice, justice and crime.
- 3 Concerned with questions of how people **ought to act**, and the search for a definition of right conduct and the good life.

Right conduct: The one causing the greater good.

Good life: A life worth living or is satisfying and happy.

USES OF ETHICS

- 1 Ethics provides us with a framework that we can use to find our way through difficult issues.
- 2 Using this framework, people who are arguing a moral issue can look for common ground between their opinions and sometimes resolve their problem.
- 3 Ethics may not always show the right answer to moral problems, but can eliminate confusion and clarify the issues by giving right choices.

Ethics covers the dilemmas: moral decisions - good or bad; our rights and responsibilities; how to live a good life; the language of right and wrong.
