WHY ESTABLISHMENT OF EIC?

1

Portugal **dominated the trade** in 15-16th Century. They were getting extremely wealthy with trade.

2

Other European countries started eyeing on how to get hold of this trade and break the monopoly.

3

So England and Netherland to **maximize the trade profit** established the company like English EIC and Dutch VOC

The vigorous encroachments by these companies on Portuguese empire forced the Portuguese king to find different arrangements to defend the Portuguese positions.

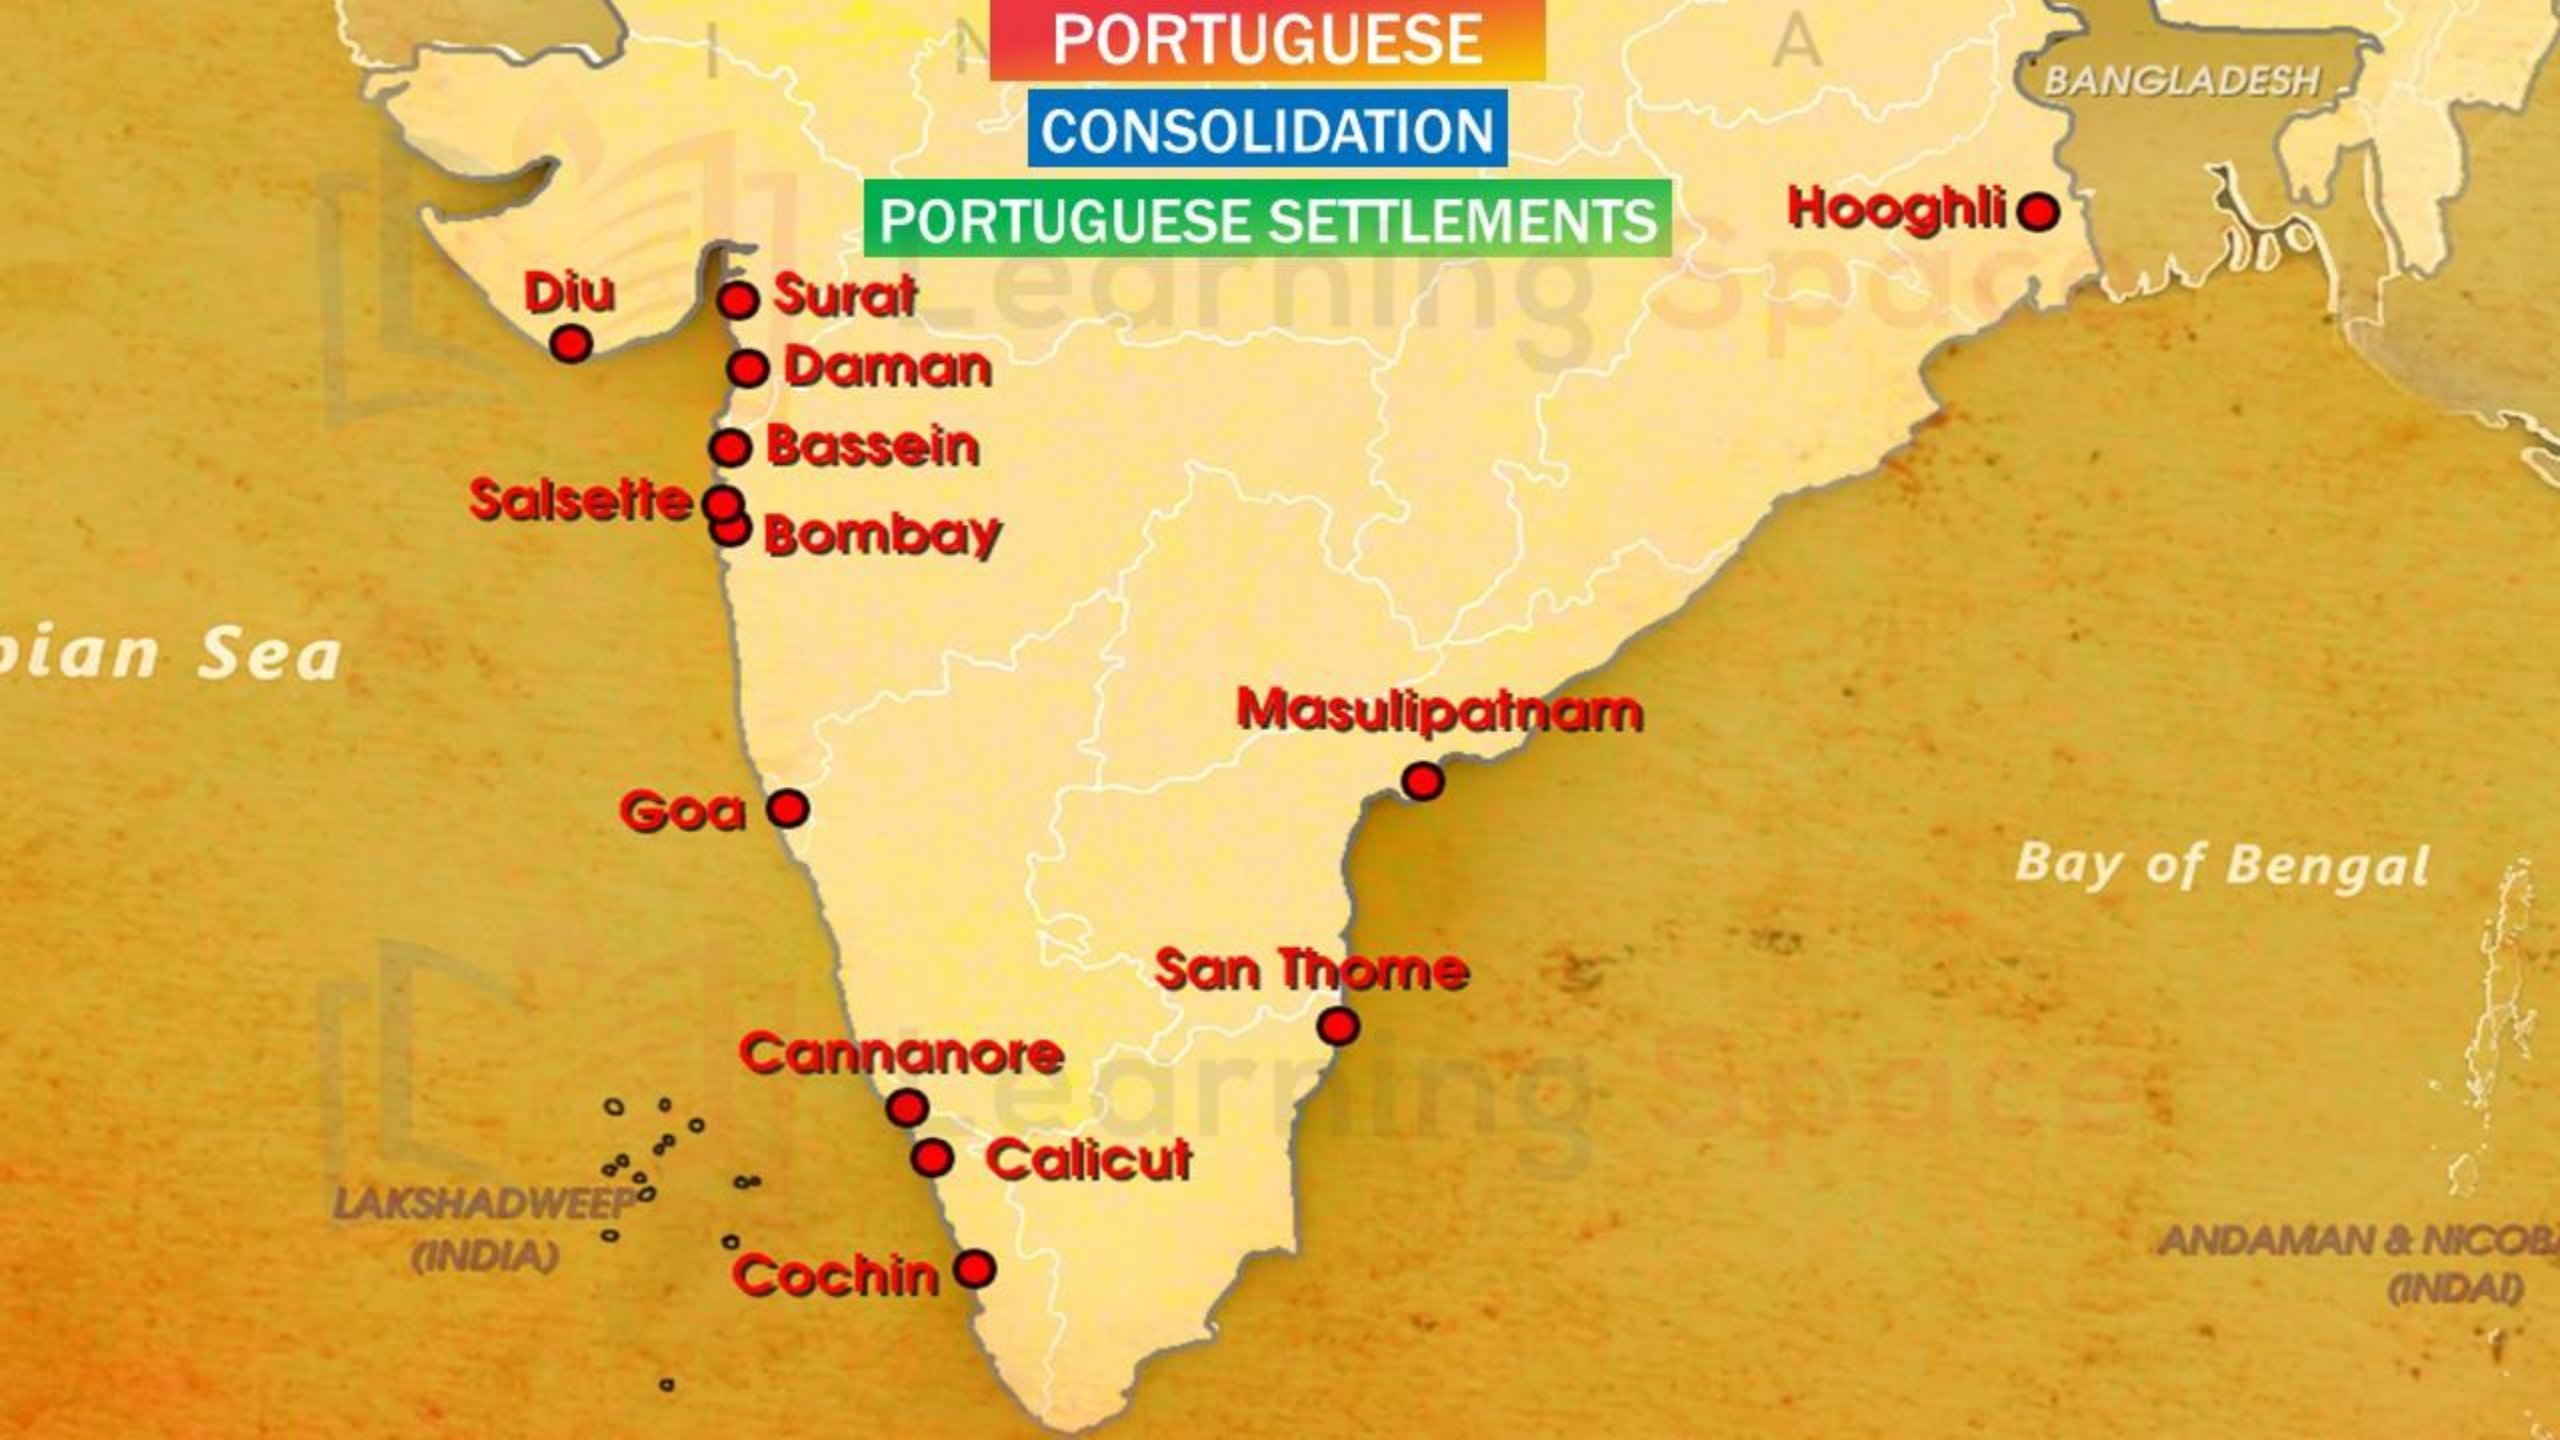

Finally **1628 Portuguese company** was established with joint stock on line with Dutch VOC. However due to unprofitable nature company seized to exit in 1633.
